First published in 2002 What is Shinto is the key question asked by all who seek to understand Japan and the Japanese answered in this volume by Sir Ernest Satow the great British scholar and diplomat Shinto is the unique and little known religious beliefs that flourished in Japan before the introduction of Buddhism and Confucianism but there are many versions which is the pure form Satow begins with a detailed study of core Shinto rituals as revealed in ancient texts which embody the deepest and oldest traditions of Shinto belief in divinity national destiny and above all Japan's special favored status as the country of the gods beliefs that endure today behind the facade of Japan Inc Shinto rites incantations sacred objects and symbols are described meticulously with illustrations and translations by Karl Florenz Satow then describes how the Ancient Way of Shinto survived centuries of foreign influence to be revived during the Meiji era when it became the driving force behind the transformation of Japan into a world power Unrivalled for its scholarship and elegance this is a classic in Japanese studies

A History of the World in 100 Objects Neil MacGregor, 2011-10-06 This book takes a dramatically original approach to the history of humanity using objects which previous civilisations have left behind them often accidentally as prisms through which we can explore past worlds and the lives of the men and women who lived in them The book's range is enormous It begins with one of the earliest surviving objects made by human hands a chopping tool from the Olduvai gorge in Africa and ends with an object from the 21st century which represents the world we live in today Neil MacGregor's aim is not simply to describe these remarkable things but to show us their significance how a stone pillar tells us about a great Indian emperor preaching tolerance to his people how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea set tells us about the impact of empire Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well informed guide Seen through this lens history is a kaleidoscope shifting interconnected constantly surprising and shaping our world today in ways that most of us have never imagined An intellectual and visual feast it is one of the most engrossing and unusual history books published in years
