Sacred Satiric:

Satiric Inheritance Michael A. Seidel, 2015-03-08 Arguing that satiric potential is latent in virtually all dispensation succession and inheritance narratives Michael Seidel suggests a new and comprehensive understanding of satire's place in the more general context of narrative theory The notion of inheritance shares with traditional narrative action the need to transmit and preserve form Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Misogynous Economies Laura C. Mandell, 2021-10-21 The eighteenth century saw the birth of the concept of literature as business literature critiqued and promoted capitalism and books themselves became highly marketable canonical objects During this period misogynous representations of women often served to advance capitalist desires and to redirect feelings of antagonism toward the emerging capitalist order Misogynous Economies proposes that oppression of women may not have been the primary goal of these misogynistic depictions Using psychoanalytic concepts developed by Julia Kristeva Mandell argues that passionate feelings about the alienating socioeconomic changes brought on by capitalism were displaced onto representations that inspired hatred of women and disgust with the female body Such displacements also played a role in canon formation The accepted literary canon resulted not simply from choices made by eighteenth century critics but also as Mandell argues from editorial and production practices designed to stimulate readers' desires to identify with male poets Mandell considers a range of authors from Dryden and Pope to Anna Letitia Barbauld throughout the eighteenth century She also reconsiders Augustan satire offering a radically new view that its misogyny is an attempt to resist the commodification of literature Mandell shows how misogyny was put to use in public discourse by a culture confronting modernization and resisting alienation Sex and Satiric Tragedy in Early Modern England Mr Gabriel A Rieger, 2013-04-28 Drawing upon recent scholarship in Renaissance studies regarding notions of the body political physical and social this study examines how the satiric tragedians of the English Renaissance employ the languages of sex including sexual slander titillation insinuation and obscenity in the service of satiric aggression There is a close association between the genre of satire and sexually descriptive language in the period author Gabriel Rieger argues particularly in the ways in which both the genre and the languages embody systems of oppositions In exploring the various purposes which sexually descriptive language serves for the satiric tragedian Rieger reviews a broad range of texts ancient Renaissance and contemporary by satiric tragedians moralists medical writers and critics paying particular attention to the works of William Shakespeare Thomas Middleton and John Webster King James I and the Religious Culture of England James Doelman, 2000 Examination of the influence of

James I on the religious and cultural life of England The Power of Satire Marijke Meijer Drees, Sonja de Leeuw, 2015-10-15 Satire is clearly one of today's most controversial socio-cultural topics. In this edited volume *The Power of Satire* it is studied for the first time as a dynamic discursive mode of performance with the power of crossing and contesting cultural boundaries. The collected essays reflect the fundamental shift from literary satire or straightforward literary rhetoric with a relatively limited societal impact to satire's multi-mediality in the transnational public space where it can cause intercultural clashes and negotiations on a large scale. An appropriate set of heuristic themes space, target, rhetoric, media, time serves as the analytical framework for the investigations and determines the organization of the book as a whole. The contributions written by an international group of experts with diverse disciplinary backgrounds manifest academic standards with a balance between theoretical analyses and evaluations on the one hand and in-depth case studies on the other.

Satire and the Hebrew Prophets Thomas Jemielity, 1992-01-01 In this book Thomas Jemielity demonstrates the striking relationship between satire and Hebrew prophecy by reviewing the role of ridicule in both and analyzing questions of nature, structure, form, and audience. This pioneering study makes compelling reading for all interested in the Bible and Western literature. The *Literary Currents in Biblical Interpretation* series explores current trends within the discipline of biblical interpretation by dealing with the literary qualities of the Bible, the play of its language, the coherence of its final form, and the relationships between text and readers. Biblical interpreters are being challenged to take responsibility for the theological, social, and ethical implications of their readings. This series encourages original readings that breach the confines of traditional biblical criticism.

The Satires of Aulus Persius Flaccus Persius, 1884 **Character and Satire in Post War Fiction** Ian Gregson, 2008-04-01 This monograph analyses the use of caricature as one of the key strategies in narrative fiction since the war. Close analysis of some of the best-known postwar novelists including Toni Morrison, Philip Roth, Joyce Carol Oates, Angela Carter, and Will Self reveals how they use caricature to express postmodern conceptions of the self. In the process of moving away from the modernist focus on subjectivity, postmodern characterisation has often drawn on a much older satirical tradition which includes Hogarth and Gillray in the visual arts and Dryden, Pope, Swift, and Dickens in literature. Its key images depict the human as reduced to the status of an object, an animal, or a machine, or the human body as dismembered to represent the fragmentation of the human spirit. Gregson argues that this return to caricature is symptomatic of a satirical attitude to the self which is particularly characteristic of contemporary culture.

The Satires of Decimus I. Iuvenalis and of Aulus Persius Flaccus Aulus Persius Flaccus, 1817 **The Satires of Decimus Junius Juvenalis and of Aulus Persius Flaccus** Juvenal, 1817
