the poets Aristotle Euripides was one of the most popular and controversial of all Greek tragedians and his plays are marked by an independence of thought ingenious dramatic devices and a subtle variety of register and mood He is also remarkable for the prominence he gave to female characters whether heroines of virtue or vice In the ethically shocking Medea the first known child killing mother in Greek myth to perform the deed in cold blood manipulates her world in order to wreak vengeance on her treacherous husband Hippolytus sees Phaedra's confession of her passion for her stepson herald disaster while Electra's heroine helps her brother murder their mother in an act that mingles justice and sin Lastly lighter in tone the satyr drama Helen is an exploration of the impossibility of certitude as brilliantly paradoxical as the three famous tragedies This new translation does full justice to Euripides's range of tone and gift for narrative A lucid introduction provides substantial analysis of each play complete with vital explanations of the traditions and background to Euripides's world

Sacrifice and Other Plays [Sanyasi, Malini, The King and the Queen], by Sir Rabindranath Tagore Rabindranath Tagore, 1918

The Boastful Chef John Wilkins, 2000 It is well known that ancient Greek comedy is interested in food and wine Many plays conclude with a feast further they were produced at festivals of Dionysos where eating and drinking took place This book explains the importance of food to comedy it was a medium through which comedy could represent the material social agricultural political and religious worlds to the Greek city state Comedy was a powerful cultural commentator partly because the foods that it represented were resonant markers of the culture There could be no comedy

without food Related genres and artefacts are also considered The text also contains translations of hundreds of comic fragments and it reassesses the division of comedy into Sicilian and Attic Old Middle and New Human Sacrifice in Ancient Greece Dennis D. Hughes, 2013-01-11 Numerous ancient texts describe human sacrifices and other forms of ritual killing in 480 BC Themistocles sacrifices three Persian captives to Dionysus human scapegoats called pharmakoi are expelled yearly from Greek cities and according to some authors they are killed Locrian girls are hunted down and slain by the Trojans on Mt Lykaion children are sacrificed and consumed by the worshippers and many other texts report human sacrifices performed regularly in the cult of the gods or during emergencies such as war and plague Archaeologists have frequently proposed human sacrifice as an explanation for their discoveries from Minoan Crete children's bones with knife cut marks the skeleton of a youth lying on a platform with a bronze blade resting on his chest skeletons sometimes bound in the dromoi of Mycenaean and Cypriot chamber tombs and dual man woman burials where it is suggested that the woman was slain or took her own life at the man's funeral If the archaeologists' interpretations and the claims in the ancient sources are accepted they present a bloody and violent picture of the religious life of the ancient Greeks from the Bronze Age well into historical times But the author expresses caution In many cases alternative if less sensational explanations of the archaeological are possible and it can often be shown that human sacrifices in the literary texts are mythical or that late authors confused mythical details with actual practices Whether the evidence is accepted or not this study offers a fascinating glimpse into the religious thought of the ancient Greeks and into changing modern conceptions of their religious behaviour **Euripides, Women and Sexuality** Anton Powell, 2003-09-02 Euripides' interest in the psychology and social position of women is well known Of the great Greek playwrights he most directly reflects contemporary philosophical and social debates and his work is of great value as a source for social history The important new studies in this volume explore Euripides' treatment of sexuality and Greek ideals of women's behaviour Using a wide range of analytic techniques seven scholars direct new light not only on Euripides' own views of women but also on the ideals and preoccupations of his contemporaries in this area Athenian women of the classical period were used in Plato's phrase to a life in the shadows This book helps us to see how far the influence of these cloistered women extended into the sunlit world of men
