range of Ford's creative relationships with American writers and American territory. The first explores the transatlantic dimension of Ford's modernism from his involvement with Americans like James and Pound in Britain before the war through the Paris days among the Americans in the transatlantic review circle such as Hemingway and Stein to his time in America in the 20s and 30s and the American care for his reputation after his death. The second section focuses on New York and the publishing world portrayed in Ford's only novel set mainly in the US *When the Wicked Man*. A third section discussing culture, politics and journalism in his writing of the 1930s is followed by two examples of his commentary on contemporary American culture both published here for the first time. The final section juxtaposes two examples of the many American writers who have paid tribute to Ford: an essay tracking Robert Lowell's regular recollections of his encounters with him and Mary Gordon's celebration of his life with the Polish American painter Janice Biala. The volume also contains fourteen illustrations including artwork by Biala and photographs of Ford.

Russomania Rebecca Beasley, 2020-03-31 *Russomania* Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate: a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class: the British intelligentsia. *Russomania* argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s future.

Dictionary of Real People and Places in Fiction M.C. Rintoul, 2014-03-05 Fascinating and comprehensive in scope the *Dictionary of Real People and Places in Fiction* is a valuable source for both students and teachers of literature and for those interested in locating the facts behind the fiction they read. In a single scholarly volume it provides intriguing insight into the real identity of people and places in the novels of over 300 American and British authors published in the

nineteenth and twentieth centuries *The Great War of Words* Peter Buitenhuis, 2011-11-01 I wouldn't have had one of you stay at home though I had a dozen sons That is if it is the noble war they all say it is Surely they wouldn't deceive mothers J M Barrie In September 1914 twenty five of Britain's most distinguished authors met under the chairmanship of C F G Masterman head of the war propaganda bureau to discuss how they could assist the Allied effort They included such prominent figures as H G Wells Arnold Bennett John Galsworthy John Masefield John Buchan Edith Wharton and Henry James In *The Great War of Words* Peter Buitenhuis tells the hitherto unknown story of the secret collaboration between leading writers and the government He examines the propaganda books and articles they wrote and also the work of those opposed to the war such as G B Shaw and Bertrand Russell The official line was the the urbane French and the decent British had to defend civilization against the savagery of the invading Huns However after the war many writers became deeply embittered about the Allied propaganda machine and their role in it There was a growing conviction that too many lies had been told and that in propagating Allied myths they had sacrificed the all important detachment of the writer Buitenhuis chronicles both the disillusionment of the former propagandists and the reaction against their elders by younger writers many of whom had served in the trenches The consequences for post war literature were profound the prestige and power of authorship dwindled significantly while the old rhetoric based on a widely held consensus collapsed and was replaced by lean ironic and often understated modes of writing **The Presence of Ford Madox Ford** Sondra J.
