Promoting Information in the Marketplace for Financial Services Paul Latimer, Philipp Maume, 2014-11-14 This

book provides a unique comparative and global analysis of the regulation of disclosure in financial securities markets. It is written by two authors who represent both the new world Australia and the old world Germany. The authors present their research in the global business context with legal and regulatory perspectives including some references from Africa, Asia, the Middle East and South America. After every boom and bust, legislators pass new disclosure legislation often in a heated environment fuelled by politics and the media. Little regard is paid to existing regulation or the lessons learned from earlier regulation. The result is the continuing enactment of redundant and overlapping disclosure laws. Since financial markets are often described as markets for information, the failure to ensure disclosure is at the heart of financial services regulation. This book argues that the solution to the failure of disclosure is a brief, easily understood, principles-based plain English safety net amendment to statute law such as you must keep the financial market fully informed, a measure that would support effective mandatory continuous disclosure of information to financial markets. This book examines the reasons for disclosure regulation and how the efficient operation of financial markets is dependent on disclosure. It examines the adequacy of common law and civil law concerning broker-client disclosure and concludes that industry licensing in itself fails to keep the market informed. While recognizing the failures of securities commissions to achieve good disclosure in financial markets, it confirms the effectiveness of coregulation of disclosure by a commission with the support of the financial markets such as the stock exchange. Coregulation builds on financial market self-regulation and is best described in the words of one-time SEC Chairman William O. Douglas who in the 1930s described it as a shotgun behind the door.

Derivatives Regulation Philip McBride Johnson, Thomas Lee Hazen, 2004-01-01. For over a quarter century, *Commodities Regulation* has been recognized as the resource covering the derivatives marketplace. Today, *Derivatives Regulation* builds on that expertise, delivering the coverage professionals and practitioners need in order to stay current with this changing topic. *Derivatives Regulation* comprehensively covers the Commodity Exchange Act along with all other relevant aspects of the regulation of securities that have an impact on the derivatives markets. *Derivatives Regulation* is completely updated to cover the full range of emerging regulatory reporting and legal issues surrounding derivatives and related instruments, including distinguishing between regulated and unregulated derivatives and knowing which rules to apply. The significant roles of the SEC and the federal laws in regulating derivatives, meeting standards for exemption or other relief, the workings of the derivatives markets and the rules applicable to trading, registration, reporting and disclosure requirements applicable to commodities professionals, criteria for publicly traded futures and commodity options, rules governing unprofessional conduct including the antifraud and anti-manipulation prohibitions, customer protections, the CFTC's reparations program, arbitration programs and private rights of action in the courts.

Securities regulation in a nutshell David L. Ratner, Paul Castritius, *Broker-dealer Regulation in a Nutshell* Thomas Lee Hazen, 2011. This title is designed to provide an introduction and overview of broker-dealer regulation in the securities markets. It covers broker-dealer front office and back office issues as well as market

regulation generally It gives you with an understanding of basic concepts and the underlying regulatory scheme providing an explanation of broker dealer regulation generally sales practices analysts conflicts of interest civil liabilities and arbitration This title also provides an overview of industry self regulation under FINRA the Financial Industry Regulatory Authority

Fundamentals of Securities Regulation Louis Loss,1988 *Medicine, Money, and Morals* Marc A. Rodwin,1995-04-20

Conflicts of interest are rampant in the American medical community Today it is not uncommon for doctors to refer patients to clinics or labs in which they have a financial interest 40% of physicians in Florida invest in medical centers for hospitals to offer incentives to physicians who refer patients a practice that can lead to unnecessary hospitalization or for drug companies to provide lucrative give aways to entice doctors to use their brand name drugs which are much more expensive than generic drugs In *Medicine Money and Morals* Marc A Rodwin draws on his own experience as a health lawyer and his research in health ethics law and policy to reveal how financial conflicts of interest can and do negatively affect the quality of patient care He shows that the problem has become worse over the last century and provides many actual examples of how doctors decisions are influenced by financial considerations We learn how two California physicians for example resumed referrals to Pasadena General Hospital only after the hospital started paying 70 per patient their referrals grew from 14 in one month to 82 in the next As Rodwin writes incentives such as this can inhibit a doctor from taking action when a hospital fails to provide proper service and may also lead to the unnecessary hospitalization of patients We also learn of a Wyeth Ayerst Labs promotion in which physicians who started patients on INDERAL a drug for high blood pressure angina and migraines received 1000 mileage points on American Airlines for each patient studies show that promotions such as this have a direct effect on a doctor s choice of drug Rodwin reveals why the medical community has failed to regulate conflicts of interest peer review has little authority state licensing boards are usually ignorant of abuses and the AMA code of ethics has historically been recommended rather than required He examines what can be learned from the way society has coped with the conflicts of interest of other professionals lawyers government officials and businessmen all of which are held to higher standards of accountability than doctors And he recommends that efforts be made to prohibit and regulate certain kinds of activity such as kickbacks and self referrals to monitor and regulate conduct and to provide penalties for improper conduct Our failure to face physicians conflicts of interest has distorted the way medicine is practiced compromised the loyalty of doctors to patients and harmed society the integrity of the medical profession and patients For those concerned with the quality of health care or medical ethics *Medicine Money and Morals* is a provocative look into the current health care crisis and a powerful prescription for change Securities Regulation in China Zhu Sanzhu,2021-10-01 A co publication with Simmonds and Hill In this important study Dr Zhu Sanzhu offers a thorough account of the tortuous passage of China from an experimental securities market subject to regional and local or ministerial regulation to a full fledged national securities law China has conducted its securities experiments within a limited private and quasi private sector not linking them as has

been true in Central and Eastern Europe to the rapid privatisation of the instruments and means of production The capital markets in China are for certain actors in the economy a test of economic performance economic efficiency and public confidence Dr Zhu also provides a translation of the Securities Law of the People's Republic of China along with a glossary of Chinese terms This volume is an essential resource for all those engaging in business with China or studying the integration of the Chinese economy into the world community Published under the Transnational Publishers imprint Securities

Jerry W. Markham, Rigers Gjyshi, 2014-07-31 This fascinating Handbook provides a clear explanation of the securities market regulation regime in the United States A diverse set of contributors offer a comprehensive overview of the regulatory process Dodd Frank the principal securities statute Evaluating the Impact of Securities Regulation on Venture Capital Markets

James R. Barth, Joseph J. Cordes, Gregory Tasse, 1980 The Advantage of Competitive Federalism for Securities Regulation

Roberta Romano, 2002 In this analysis of securities regulation the author demonstrates that the current approach toward U S regulation exclusive jurisdiction of the Securities and Exchange Commission is misguided and should be revamped by implementing a regime of competitive federalism Under such a system firms would select their regulator from among the states the SEC or other nations The author asserts that competitive federalism harnesses the high powered incentives of markets to the regulatory state to produce regulatory arrangements most compatible with investors preferences The author contends that the empirical evidence does not indicate that the SEC is effective in achieving its stated objectives The commission's expansions of disclosure requirements over the years have not significantly enhanced investors wealth In addition she asserts evidence from institutional equity and debt markets and cross country listing practices demonstrates that firms voluntarily disclose substantial information beyond mandatory requirements to provide the information investors demand The author concludes that under competitive federalism the aspects of the SEC's regime that are valuable to investors will be retained those that are not will be discarded and the resulting securities regime will better meet investors needs than the present one **Comparing European and U.S. Securities Regulations** Tanja Boskovic, Caroline

Cerruti, Michel Noel, 2010-01-12 This paper aimed at professionals scholars and government officials in the field of securities regulations compares the European specifically the Market in Financial Instruments Directive MiFID and U S securities regulations The analysis focuses on the regulatory and supervisory framework trading venues and the provision of investment services We show that although there may be regional differences in the structure and rules of current securities regulation the objectives and some outcomes of regulation are comparable Similarly as the current global financial and economic crisis exposed gaps in securities regulations worldwide regulators in both regions face similar challenges This

study will be particularly useful for World Bank member countries that are looking at either the European or U S regulations when conducting market reforms **Securities Regulation in Hong Kong 1972-1977** Mary Faith Higgins,1978-01-01
