Security Reform And Peace The Three Pillars Of Us Strategy In The Middle East:

Security, Reform and Peace Washington Institute for Near East Policy. Presidential Study Group, 2005 **The Palestinian Strategic Report 2005** Dr. Mohsen Mohammad Saleh, Dr. Basheer Nafi', 2007-05-15 The Palestinian Strategic Report is a highly academic annual report that assesses the Palestinian situation. It rigorously studies the developments of various aspects of the Palestinian issue i.e. internal political affairs, economic development, demographic indicators, the Arab Islamic and international stands and the Israeli attitudes and policies, all within an academic well documented context that is supported with the most recent statistical data. This report is the product of a massive team work exerted by a group of affiliated researchers and specialists, editors and consultants. It is published both in Arabic and English. The first Report covered the year 2005 followed by the reports on 2006 and 2007. The report was well received and highly acclaimed especially within academics. Two years later it can be surely asserted that this report is a must reference for every researcher or academic interests in the contemporary developments of the Palestinian issue and the Arab Israeli conflict. Moreover its English version is among the few highly academic and objective writings in this field by an Arab research centre. *The Routledge Handbook of Terrorism Research* Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies. The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors. Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations. The work also features a large collection of typologies and surveys a wide range of theories of terrorism. Additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the Internet. It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare, Political Violence, Protest and Organized and Cyber Crime. The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence, security studies, criminology, political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism. *The Routledge Handbook of Terrorism Research* Alex Peter Schmid, 2011 This volume is a monumental collection of definitions, conceptual frameworks, paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism. **The Rebirth of the Middle East** Jerry M. Rosenberg, 2009-09-28 In *The Rebirth of the Middle East* Rosenberg discusses how peace, stability and prosperity are dependent upon economic and trade relations between Israel and Palestine as well as other neighboring Arab and Muslim countries. The world is poised to participate in this healing process with funding and training and lacks only the needed conditions to proceed. Rosenberg asserts that this process of stabilization can
