Security Challenges In The Mediterranean Region:

Security Challenges in the Mediterranean Region Roberto Aliboni, Tim Niblock, 1996 This book sets out to identify the challenges to western security emerging from the Mediterranean area **Troubled Waters** James Black, 2017 New challenges are reshaping the international order requiring government leaders to consider new strategies and tools that integrate diplomatic economic and military instruments of power Nowhere is this more evident than around the Mediterranean Sea which has progressively returned as a region of global strategic interest where political tensions armed conflict economic and social instability and transnational criminal networks demand solutions that cross traditional institutional boundaries of domestic and international policy making The geo political situation on the southern coast of the Mediterranean has radically changed and new challenges have emerged for the European Union United States and beyond Long lasting issues such as the Israeli Palestinian conflict or the tensions between Turkey and Greece continue to be present but new destabilising factors have emerged in the region following the Arab spring of 2011 The US EU and NATO continue to maintain a significant military presence in and around the Mediterranean but military capabilities must be nested within a whole of government international approach The challenges in this region demand unprecedented levels of civil military and intergovernmental cooperation In this context RAND established the Mediterranean Foresight Forum MFF in 2015 to support the development of comprehensive integrated civil military responses to complex regional challenges through an innovative combination of research scenario based sensitivity analysis and strategic level exercises Publisher s web site

book provides an empirical analysis of security challenges in the Euro Mediterranean area and highlights the political military economic societal and environmental issues that are already serving as a source of instability in the region

Strengthening Maritime Security Through Cooperation I. Chapsos, C. Kitchen, 2015-07-30 Seventy percent of our planet is covered by water and even in today's world of instant communication the global community is still heavily reliant on sea based transport The maritime domain has always been one of NATO's key strengths but concerns about maritime security have taken on renewed importance in recent years and NATO has been forced to re-examine some of its fundamental assumptions about the post Cold War security environment This book shares some of the research debates and findings from a NATO Advanced Research Workshop ARW Building Trust to Enhance Maritime Security held in Geneva Switzerland in November 2014 The chapters in the book deal extensively with lessons learned by NATO from a wide range of policies operations and situations This maritime experience has been amassed from the Atlantic and Mediterranean to the Baltic and the Black Sea and even into the Indian Ocean as well as from the four decades spent defending NATO allies on the high seas during the Cold War The single most profound lesson learned over the years has concerned the importance of efficient coordination Structures and mechanisms have been created not least in recent counter piracy operations which enable a vast array of actors to work together in an efficient way and which could prove invaluable in future efforts to counter terrorism and aggression worldwide The safety of the maritime domain is essential to the freedom and security of all nations and this book will be of interest to all those whose work involves maintaining that freedom and security

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co-operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio-economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy

The security dimensions of EU enlargement David Brown, Alistair Shepherd, 2021-06-15 The changing nature of security the enlargement of European institutions and the evolving functions of the EU have been key developments in post Cold War Europe This book blends these three crucial developments in a sophisticated and illuminating manner It assesses the impact of EU enlargement on both pre-existing security arrangements and key relationships with the EU's new partners and neighbours It also investigates both hard and soft and internal and external security issues ranging from military intervention to terrorism and from

organised crime to human rights From this it concludes that enlargement has both positive and negative implications for European security Completing the analysis this study examines the evolving security relationships with key states regions and international organisations in the EU s neighbourhood The examination of relations with Turkey Russia Ukraine the Greater Middle East and the Balkans provides a sense of the direction in which European security politics is moving

European Security Thomas Jäger, Gerhard Kümmel, 2016-07-27 The authors of this collection combine different national and institutional perspectives They cover a broad range of subjects new threats to Europe s security the advantages and disadvantages of the present security architecture in Europe the problem of nuclear weapons and their control the options for enlargement and partnership for peace the shifts in Europeans public opinion about security matters and the prospects for a European defence industry This collection provides an incomparable synthesis of some of the most crucial problems for the emergence of Europe as an independent actor in international politics Coping with Global Environmental Change, Disasters and Security Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Patricia Kameri-Mbote, Béchir Chourou, Pál Dunay, Joern Birkmann, 2011-02-03 Coping with Global Environmental Change Disasters and Security Threats Challenges Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats challenges vulnerabilities and risks in Europe the Mediterranean and other regions It discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions EU Development Policy in a Changing World Andrew Mold, 2007 On many fronts European Union development policy is at a critical juncture in the face of new obstacles the EU has been forced to rethink trade security and its relationship with neighbors in North Africa and the Middle East Contentious questions have centered on the effects of EU expansion agricultural protectionism and development friendly trade policy in the EU and its member nations To answer these questions and others this expertly edited volume draws on analysis from well known specialists in fields such as public policy and economic development providing a critical overview of EU development policy and the challenges it must confront in an increasingly volatile and changing world **West Asia in Turmoil** N. S. Sisodia, Ashok K. Behuria, 2007 West Asia is in the throes of acute political turbulence today Given West Asia s energy resources developments in the region have profound implications for the wider world The international community has been deeply concerned with the fragile conditions of the region in recent years This book tries to analyse the evolving security environment in West Asia and its implication for global security This edited volume discusses critical issues of our times religious extremism democratisation WMD proliferation international terrorism external intervention in the region and energy security The articles in the book analyse these issues critically and suggest possible

alternatives for securing peace and prosperity in West Asia Book jacket

Transnational Islam and Regional Security

Frederic Volpi, 2013-09-13 This volume investigates the impact of a new brand of transnational terrorism and political violence produced by radical Islamist groups from the Maghreb on the regional security dynamics It describes the causes of the problems and the strategies devised by European and North African states in order to address it and details the successes and failures of co operation between states and society on both shores of the Mediterranean Investigating the grand security strategies that have been devised for the Mediterranean after the Cold War and after 9 11 the contributors focus on the role of police and military apparati in securitizing the new threats that have become prominent after 9 11 and the unintended consequences of these strategies In addition the contributors analyze the relationship between Islamist groups the state and society and highlight some key causes of political violence and radicalism They outline how a better use of the law migration and intercultural dialogue might provide useful alternatives or complements to the mostly securitarian strategies that are currently dominant in the region

Rethinking Security in Post-Cold-War Europe

William Park, G.Wyn Rees, 2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned

Regional Economic Organizations and Conventional Security Challenges

M. Leann Brown, 2017-11-22 Within the context of regional integration comparative regionalism organizational change and regional security literatures this book investigates three cases wherein regional economic organizations were confronted with conventional security threats the 1978 91 Association of Southeast Asian Nations Vietnam Standoff the 1990 Economic Community of West Africa Liberian Civil War Challenge and the 1990 91 European Communities Balkans Crisis While the literature suggests multiple possible explanations for regional economic organizations response to these security challenges including systemic and power related factors organizational factors and functional needs and cognitive and social factors the author argues that the decision to transform a regional economic organization into a conventional security actor is most influenced by decision makers perceptions of threat and functional necessity

Non-Traditional Security Challenges in Asia

Shebonti Ray Dadwal, Uttam Kumar Sinha, 2017-07-05 Asia is challenged by a number of non traditional security issues including the foodenergywater nexus climate change

transnational crime terrorism disaster relief and economic performance This volume categorizes and clarifies some key emerging issues in the area and looks at their interconnectedness and implications The essays explore how non traditional issues can manifest as security challenges and the role of the state and military in dealing with these Issue based and area specific they rely on facts and interpretation of data avoiding alarmist predictions A nuanced and analytical approach into an uncharted area this book will be essential for policymakers researchers and students of security and strategic studies foreign policy sociology and political economy as well as the general readers

Adapting the EU's Approach to Today's Security Challenges - the Review of the 2003 European Security Strategy Great Britain. Parliament. House of Lords. European Union Committee, 2008 The EU's 2003 European Security Strategy ESS was a milestone document representing the collective thinking of the EU member states on the challenges and security threats facing them at the beginning of the 21st century This report aims to contribute to the review of the ESS currently underway in the EU which is scheduled to be discussed at the December 2008 European Council The Committee assesses the strategy and its implementation and the changes in the international security environment since 2003 and makes a number of recommendations

New Challenges for the EU Internal Security Strategy Maria O'Neill, Ken Swinton, Aaron Winter, 2013-07-16 In recent years the EU and its member states have experienced a number of changes as well as challenges in the areas of politics economics security and law As these areas are interconnected changes and challenges to any of them have implications for the others as well as implications for the populations and institutions of the EU or those coming into contact with its international power and influence This edited collection focuses primarily on security and law particularly the EU's internal security strategy The EU's Internal Security Strategy adopted by the Spanish presidency early in 2010 followed the Lisbon Treaty in 2009 building on previous developments within the EU in the Area of Freedom Security and Justice AFSJ policy The focus of the EU Internal Security Strategy is to prevent and combat serious and organised crime terrorism and cybercrime in strengthening the management of our external borders and in building resilience to natural and man made disasters The Internal Security strategy intersects and overlaps with the European Union's Counter terrorism strategy the Strategy for the External Dimension of JHA and the EU's Security Strategy The role of and interaction between these strategies their supplementing documents and their implications for crime victims the law political relations democracy and human rights form the backdrop against which the chapters in this collection are written Building on original research by its contributors this collection comprises work by authors from a wide variety of academic and professional areas and perspectives as well as different countries on a variety of areas and issues related to or raised by the EU's Internal Security Strategy from intelligence led policing to human trafficking and port security This book examines from a wide variety of disciplinary perspectives including law geography politics and practice both this further refinement of existing internal provisions on cross border crime and the increasing external relations of the EU in the AFSJ

Global and Regional Security Challenges Heli Tiirmaa-Klaar, Tiago

Marques,2006 **Securitizing Global Warming** Delf Rothe,2015-11-19 This book explores the reasons for a recent securitization of climate change and reveals how the understanding of climate change as a security threat fuels resilience as a contemporary political paradigm Since 2007 political and public discourse has portrayed climate change in terms of international or national security This increasing attention to the security implications of climate change is puzzling however given the fact that linkages between climate change and conflict or violence are heavily disputed in the empirical literature This book explains this trend of a securitization of global warming and discusses its political implications It traces the actor coalition that promoted the idea of climate change as a security issue and reveals the symbols narratives and storylines that make up this discourse Drawing on three detailed case studies at the international level of the United Nations the regional level of the Euro Mediterranean and the national level of the UK the book reveals how climate change is turned into a non linear and unpredictable threat The resulting complexity discourse prevents the adoption of any exceptional measures and instead presents resilience as the only way to cope with the climate threat This book shows that we can only grasp the complexity of the securitization process and its implications in the climate change case by comparing it at different political levels over a longer period By developing a securitization framework the book makes an important contribution to the ongoing debate on security and resilience in critical security studies This book will be of much interest to students of critical security studies resilience environmental studies global governance and IR in general
