Security Council:

Bargaining in the UN Security Council Susan Hannah Allen, Amy Yuen, 2022 Why does the United Nations Security Council take up some issues for discussion and not others What factors shape the Council's actions With insights from legislative bargaining this book explores the agenda setting powers granted in the institutional rules and the international and domestic factors motivating behaviour and shaping resolutions

The Security Council and the Use of Force Niels M. Blokker, Nico Schrijver, 2005 This book addresses the authority of the UN Security Council to regulate the use of force In particular it examines the question of whether the present composition functions and powers of the Security Council are adequate to meet recent demands such as the need perceived by states to use force in cases of humanitarian emergency and pre-emptive action in response to international terrorism and the proliferation of weapons of mass destruction Is the Security Council still well positioned today to deal with these demands and challenges In seeking a response the book analyzes both Charter law and Security Council practice It addresses not only the hotly debated recent crises concerning Kosovo Afghanistan and Iraq but also resolutions dealing with the use of force by peacekeeping operations A number of issues relating to the right of self defence are analyzed as are the emerging new roles of NATO and the African Union Separate chapters of the book are devoted to the current discussion concerning the reform of the Security Council A particular feature of the book is the interaction between academics and practitioners as well as between theory and reality

Multilateralism and the United Nations Security Council Madeleine O. Hosli, Gabriela M. G. Bueno, Katyayni Champawat, Sofia Pires Lopes, 2025-07-11 This edited volume aims to address the gaps in research on the United Nations UN's participation in intergovernmental relationships by delving into the working mechanisms of the United Nations Security Council UNSC The book offers a novel overview of the voting procedures of the UNSC and related outcomes in practice most significantly it examines members voting behaviour veto power power dynamics and diplomatic means of sponsoring resolutions and forming coalitions in the Council It also analyses the role of small emerging and regional powers inside the UNSC alongside their trajectory into the power dynamics of this UN body It assesses the intertwined relationship between the UN and the European Union EU Each chapter demonstrates the challenges and the workings of multilateralism in one of the most significant organisations for global cooperation

The Chapter VII Powers of the United Nations Security Council Erika de Wet, 2004-01-23 This study provides a comprehensive analysis of the questions pertaining to the powers of the Security Council under Chapter VII of the Charter of the United Nations In doing so it departs from the premise that an analysis of the limitations to the powers of the Security Council and an analysis of judicial review of such limitations by the ICJ respectively are inter dependent On the one hand judicial review would only become relevant if and to the extent that the powers granted to the Security Council under Chapter VII of the Charter are subject to justiciable limitations On the other hand the relevance of any limitation to the powers of the Security Council would remain limited if it could not be enforced by judicial review This

inter dependence is reflected by the fact that Chapters 2 and 3 focus on judicial review in advisory and contentious proceedings respectively whereas Chapters 4 to 9 examine the limits to the powers of the Security Council The concluding chapter subsequently illuminates how the respective limits to the Security Council s enforcement powers could be enforced by judicial review It also explores an alternative mode of review of binding Security Council decisions that could complement judicial review by the ICJ notably the right of states to reject illegal Security Council decisions as a right of last resort The space and attention devoted to the limits to the Security Council s enforcement powers reflects the second aim of this study namely to provide new direction to this aspect of the debate on the Security Council s powers under Chapter VII of the Charter It does so by paying particular attention to the role of human rights norms in limiting the type of enforcement measures that the Security Council can resort to in order to maintain or restore international peace and security

China and Intervention at the UN Security Council Courtney J. Fung, 2019 This book explains China s inconsistent response to intervention at the UN Security Council It draws upon new data and concludes with new perspectives on the malleability of China s core interests insights about the application of status for cooperation and the implications of the status dilemma for rising powers

Climate Change at the UN Security Council Ash Murphy, 2025-06-30 This book examines the operation of the United Nations Security Council UNSC to better understand the motivating factors that underpin its activation of Article 39 Arguing that climate change should be considered a threat to international peace and security the theory of securitisation is employed to dissect the UNSC and identify the power dynamics that dictate when and why Article 39 is activated Exploring how contemporary threats to peace and security can unite the agenda of the UNSC and shedding light on the narratives used to reach consensus the author considers how this knowledge might be purposed to support the transition of climate change into the realm of Article 39 How necessary and useful a UNSC resolution would be is given thought and a possible pathway to achieving it is outlined Aimed at academics and institutions that commentate on the UNSC climate change securitisation theory and undergraduate and postgraduate students of law international relations UN law and those undertaking environmental studies this book will also be of interest to practitioners and diplomats in and outside of the UN and anyone seeking to further the climate security nexus

Canada on the United Nations Security Council Adam Chapnick, 2019-09-01 As the twentieth century ended Canada was completing its sixth term on the United Nations Security Council more terms than all but three other non permanent members A decade later Ottawa s attempt to return to the council was dramatically rejected by its global peers leaving Canadians and international observers shocked and disappointed This book tells the story of that defeat and what it means for future campaigns describing and analyzing Canada s attempts since 1946 both successful and unsuccessful to gain a seat as a non permanent member It also reveals that while the Canadian commitment to the United Nations itself has always been strong Ottawa s attitude towards the Security Council and to service upon it has been much less consistent Impeccably researched and clearly written Canada on the United

Nations Security Council is the definitive history of the Canadian experience on the world's most powerful stage **United Nations Naval Peace Operations in the Territorial Sea** Rob McLaughlin, 2009 Drawing on the operational experience of United Nations naval peace operations this book examines issues of authority for such operations as they relate to and impact upon the Territorial Sea **The Law of EU External Relations** Jan Wouters, Frank Hoffmeister, Geert De Baere, Thomas Ramopoulos, 2021-01-21 The third edition of this book incorporates more than 10 years of fascinating dynamics since the entry into force of the Lisbon Treaty Apart from analysing the general basis of the Union's external action and its relationship to international law the book explores the law and practice of the EU in more specialized fields of external action such as common commercial policy neighbourhood policy development cooperation cooperation with third countries humanitarian aid external environmental policy and common foreign and security policy as well as EU sanctions Five years after the second edition published this fully updated edition contains major developments within the law itself along with changes and restructuring of the themes within the book Carefully selected primary documents are accompanied with analytic commentary on the issues they raise and their significance for the overall structure of EU external relations law The primary materials selected include many important legal documents that are hard to find elsewhere but give a vital insight into the operation of EU external relations law in practice International Crimes: Law and Practice Guénaél Mettraux, 2020-04-09 This authoritative manual on the law of international crimes discusses in detail crimes against humanity and its relationship to other international crimes It is an invaluable tool for academics and researchers as well as legal practitioners who will be able readily to identify relevant legal standards and precedents **International Crimes** Guénaél Mettraux, 2019 This book discusses in detail the law of genocide its definition elements normative status and relationship to the other core international crimes It is the first in a four volume compendium from Judge Mettraux on the four core international crimes **International Crimes: Volume I: Genocide** Guénaél Mettraux, 2019-06-18 Judge Mettraux's four volume compendium International Crimes Law and Practice will provide the most detailed and authoritative account to date of the law of international crimes It is a scholarly tour de force providing a unique blend of academic rigour and an insight into the practice of international criminal law The compendium is unrivalled in its breadth and depth covering almost a century of legal practice dozens of jurisdictions national and international thousands of decisions and judgments and hundreds of cases This first volume discusses in detail the law of genocide its definition elements normative status and relationship to the other core international crimes While the book is an invaluable tool for academics and researchers it is particularly suited to legal practitioners guiding the reader through the practical and evidential challenges associated with the prosecution of international crimes **The Protection of Civilians in Peacekeeping Operations** Tamer Morris, 2024-09-09 While the Security Council has been mandating peacekeepers to protect civilians since 1999 there is still contention on its legal meaning Even though the concept of protection can seem self evident as the concept of protection is

borrowed language each body of law will perceive protection through a different lens However as the mandate creates a legal obligation on UN peace missions a clear understanding of protection is fundamental to ensure performance and accountability

The President, the State and the Cold War James Bilsland, 2015-02-11 US foreign policy during the Cold War has been analysed from a number of perspectives generating large bodies of literature attempting to explain its origins its development and its conclusion However there are still many questions left only partially explained In large part this is because these accounts restrict themselves to a single level of analysis either the international system or the structure of the state and society The first level of analysis focusing on the role of individuals has largely been excluded This book argues that structural theories and any approach that limits itself to one level of analysis are inadequate to explain the development of US foreign policy Instead it is necessary to incorporate the first level of analysis in order to bring human agency back and provide a more detailed explanation of US foreign policy Bilsland proposes an analytical framework which incorporates presidential agency into a multi level analysis of US foreign policy during the Cold War constructing a multi level case study comparison of the foreign policies of Presidents Truman and Reagan He argues that the worldview of the president is central to agenda setting in US foreign policy making and that the management style of the president influences both decision making and the implementation of US foreign policy Evidence to support this is drawn from detailed empirical analysis of Truman s foreign policy of containment in Korea and Reagan s foreign policy of rollback in Nicaragua This work will be of interest to students and scholars of US Foreign Policy US History and International Relations

Humanitarian Countermeasures Cathrine Crämer, 2024-08-01 If humanitarian intervention is indeed an unacceptable assault on sovereignty how should we respond to a Rwanda to a Srebrenica to gross and systematic violations of human rights that offend every precept of our common humanity Kofi Annan This question asked by Kofi Annan over twenty years ago has not lost its relevance since as for instance demonstrated by the paralysis of the Security Council in the face of the continued use of chemical weapons by the Syrian regime against its own population The present work addresses the question of whether the unilateral use of force by states for humanitarian purposes hence without a Security Council authorization could be justified via the concept of humanitarian countermeasures In this context humanitarian countermeasures are derived from the notion of countermeasures which stems from the law of state responsibility as conceived in Art 49 et seq DARS and traditionally only refers to peaceful bilateral measures The core of the study is to open up countermeasures to humanitarian military action discuss the legal feasibility of such an approach while effectively containing the potential for abuse by establishing a legal framework In a final step concrete conditions for humanitarian countermeasures are defined which can guide a reinterpretation of countermeasures and the further development of customary law About the author Cathrine Crämer studied law at the Humboldt European Law School at the HU Berlin the Universit Paris II Panth on Assas Ma trise en Droit in Private International Law and at King s College London LL M in Transnational Law She obtained her doctorate at the

LMU Munich where she worked as a research assistant and taught public international law Cathrine Cr mer is currently a legal trainee at the Permanent Mission of Germany to the United Nations in New York

The Palgrave Handbook of Peacebuilding in Africa Tony Karbo, Kudrat Virk, 2018-01-30 This handbook offers a critical assessment of the African agenda for conflict prevention peacemaking peacekeeping and peacebuilding the challenges and opportunities facing Africa s regional organisations in their efforts towards building sustainable peace on the continent and the role of external actors including the United Nations Britain France and South Asian troop contributing countries In so doing it revisits the late Ali Mazrui s concept of Pax Africana calling on Africans to take responsibility for peace and security on their own continent The creation of the African Union in 2002 was an important step towards realising this ambition and has led to the development of a new continental architecture for more robust conflict management But as the volume s authors show the quest for Pax Africana faces challenges Combining thematic analyses and case studies this book will be of interest to both scholars and policymakers working on peace security and governance issues in Africa

South Sudan Hilde F. Johnson, 2016-06-09 In July 2011 South Sudan was granted independence and became the world s newest country Yet just two and a half years after this momentous decision the country was in the grips of renewed civil war and political strife Hilde F Johnson served as Special Representative of the Secretary General and Head of the United Nations Mission in the Republic of South Sudan from July 2011 until July 2014 and as such she was witness to the many challenges which the country faced as it struggled to adjust to its new autonomous state In this book she provides an unparalleled insider s account of South Sudan s descent from the ecstatic celebrations of July 2011 to the outbreak of the disastrous conflict in December 2013 and the early bloody phase of the fighting Johnson s frequent personal and private contacts at the highest levels of government accompanied by her deep knowledge of the country and its history make this a unique eyewitness account of the turbulent first three years of the world s newest and yet most fragile country

International Humanitarian Law and Non-State Actors Ezequiel Heffes, Marcos D. Kotlik, Manuel J. Ventura, 2019-11-28 This book challenges the traditional approach to international law by concentrating on international humanitarian law and placing the focus beyond States it reflects on current legal policy and practical issues that concern non State actors in and around situations of armed conflict With the emergence of the nation State international law was almost entirely focused on inter State relations thus excluding for the most part non State entities In the modern era such a focus needs to be adjusted in order to encompass the various types of functions and interactions that those entities perform throughout numerous international decision making processes The contributions that comprise this volume are oriented towards a broad readership audience in the academic and professional fields related to international humanitarian law international criminal law international human rights law and general public international law Ezequiel Heffes LL.M. is a Thematic Legal Adviser in the Policy and Legal Unit at Geneva Call in Geneva Switzerland Marcos D Kotlik LL.M. is Academic

Coordinator at the Observatory of International Humanitarian Law of the University of Buenos Aires School of Law and was a Judicial Fellow at the International Court of Justice between 2018 2019 and Manuel J Ventura LL.M. Hons is an Associate Legal Officer in the Office of the Prosecutor at the International Residual Mechanism for Criminal Tribunals an Adjunct Fellow at the School of Law at Western Sydney University and a Director of The Peace and Justice Initiative

The Responsibility to Protect Twenty Years On Pinar Gözen Ercan, 2022-01-01 This book focuses on measures pertaining to the three pillar implementation strategy of R2P and examines how and to what extent the three pillars have been practised Rich in its geographical scope this edited book provides a critical analysis of R2P practice over the last two decades by focusing on representative cases from different regions Analysing not only recent and or underexplored cases but also widely studied cases from a fresh and alternative perspective it sheds light on the depth and scope of the norm as well as the variety of actors involved and how they impact R2P practice Diverging from most accounts this edited book does not approach the cases as a success or failure of R2P By studying the background to the conflicts and making assessments on a pillar by pillar basis each chapter addresses the root causes traces the process of implementation investigates the actions of the actors involved identifies elements of success and failure and finally questions the sustainability of the protection provided to date Meanwhile the conceptual chapters complement the case analyses through an overall evaluation of R2P s first two decades and the progress achieved so far with the aim to draw lessons for future implementations of R2P

Preventing Chemical Weapons Michael Crowley, Malcolm Dando, Lijun Shang, 2018-08-20 The life and chemical sciences are in the midst of a period of rapid and revolutionary transformation that will undoubtedly bring societal benefits but also have potentially malign applications notably in the development of chemical weapons Such concerns are exacerbated by the unstable international security environment and the changing nature of armed conflict which could fuel a desire by certain States to retain and use existing chemical weapons as well as increase State interest in creating new weapons whilst a broader range of actors may seek to employ diverse toxic chemicals as improvised weapons Stark indications of the multi faceted dangers we face can be seen in the chemical weapons attacks against civilians and combatants in Iraq and Syria and also in more targeted chemical assassination operations in Malaysia and the UK Using a multi disciplinary approach and drawing upon an international group of experts this book analyses current and likely near future advances in relevant science and technology assessing the risks of their misuse The book examines the current capabilities limitations and failures of the existing international arms control and disarmament architecture notably the Chemical Weapons Convention in preventing the development and use of chemical weapons Through the employment of a novel Holistic Arms Control methodology the authors also look beyond the bounds of such treaties to explore the full range of international law international agreements and regulatory mechanisms potentially applicable to weapons employing toxic chemical agents in order to develop recommendations for more effective routes to combat their proliferation and misuse A particular emphasis is given to the

roles that chemical and life scientists health professionals and wider informed activist civil society can play in protecting the prohibition against poison and chemical weapons and in working with States to build effective and responsive measures to ensure that the rapid scientific and technological advances are safeguarded from hostile use and are instead employed for the benefit of us all
