The Geometry of Christian Contemplation David Albertson, 2025-05-16 The writings of ancient and medieval Christian mystics were rediscovered in the twentieth century and today they are read more widely than ever before But do modern assumptions about religious experience influence how we hear those premodern voices Do we do them justice by thinking of mysticism as interior and ineffable Or can mystical experience intersect with the natural environment and indeed the cosmos which science calculates with precise quantities David Albertson's *The Geometry of Christian Contemplation* Measure without Measure suggests a fresh approach to the history of mystical theology that is oriented toward exteriority more than interiority and toward the measurable world outside more than the invisible world within The ancient Greek philosopher Plotinus had taught contemplatives to close their eyes and withdraw into the soul Most Christians followed his directions but others dissented In three critical episodes an alternative model of Christian contemplation began to emerge from Dionysius the Areopagite to the Byzantine monks John of Damascus and Theodore the Studite to eccentric humanists in medieval Paris Together these episodes add up to a very different theological aesthetics one that can enliven the modern study of mysticism and correct some of its imbalances For in the centuries before the scientific revolution and the secularization of nature Christians still saw God in the exterior world not only the interior soul God was not an ineffable and formless Absolute immeasurable as the soul but an infinite Measure who leaves behind geometrical traces in the figures of the world The God who became a human body in the Incarnation not only entered time and matter but also spatial extension and with it the conditions of measure points lines curves shapes planes dimensions and magnitudes Today the wisdom of this counter tradition can strengthen the study of mysticism not only by supplementing our contemporary fascination with negative theology by redefining what it means to name God positively but by suggesting a new connection between Christian mysticism and the hyper measured hyper technologized world that surrounds us

Farewell to Visual Studies James Elkins, Gustav Frank, Sunil Manghani, 2015-10-28 Each of the five volumes in the *Stone Art Theory Institutes* series brings together a range of scholars who are not always directly familiar with one another's work The outcome of each of these convergences is an extensive and unpredictable conversation on knotty and provocative issues about art This fifth and final volume in the series focuses on the identity nature and future of visual studies discussing critical questions about its history objects and methods The contributors question the canon of literature of visual studies and the place of visual studies with relation to theories of vision viscosity epistemology politics and art history giving voice to a variety of inter and transdisciplinary perspectives Rather than dismissing visual studies as its provocative title might suggest this volume aims to engage a critical discussion of the state of visual studies today how it might move forward and what it

might leave behind to evolve in productive ways The contributors are Emmanuel Alloa Nell Andrew Linda B ez Rub Martin A Berger Hans Dam Christensen Isabelle Decobecq Bernhard J Dotzler Johanna Drucker James Elkins Michele Emmer Yolaine Escande Gustav Frank Theodore Gracyk Asbj rn Gr nstad Stephan G nzel Charles W Haxthausen Miguel Hern ndez Navarro Tom Holert K van K l n Charlotte Klonk Tirza True Latimer Mark Linder Sunil Manghani Anna Notaro Julia Orell Mark Reinhardt Vanessa R Schwartz Bernd Stiegler yvind V gnes Sjoukje van der Meulen Terri Weissman Lisa Zaher and Marta Zarzycka *TRANSPPOSITIONES 2024 Vol. 3, Issue 2: Queer Animalities* Gabriela Jarzębowska,Justyna

Schollenberger,2024-10-07 This issue explores two distinct yet deeply interconnected areas of academic debate animal studies and queer studies The concept of queer ecology has gained a growing interest in the academia highlighting the importance of intersectional understanding of ecological multi species and sexual exclusions and entanglements The authors gathered in this issue engage with the connections between animalities and queerness in a way that casts a new light on these concepts They do so in a variety of ways in which entanglements between them may occur while providing in depth theoretical analyses of what implications arise from bringing them under one umbrella **The Foxite Whigs and Visual Culture, 1780-1810**

Callum D. Smith,2025-08-22 This book offers a comprehensive exploration of the intricate relationship between radicalism and sociability in late Georgian parliamentary and extra parliamentary politics focusing on the Foxite Whig faction Re evaluating the significance and tactical use of sociability and radicalism in late eighteenth and early nineteenth century British politics the book charts not only the rise and fall of a leading and neglected British political faction but through its interdisciplinary and thematic focus it seeks to intervene in the field and situate sociability as a key driver and facilitator of late Georgian politics By utilising original research into contemporary newspapers letters diaries legal records parliamentary accounts and especially political caricature the author offers a new methodological approach in the study of sociability and radicalism and presents original categorisations of contemporary sociability The book examines how sociability was strategically employed by the Foxite Whigs and argues for the existence of two primary forms of sociability insular and porous Insular sociability manifested itself through dining drinking to excess or gambling in a private setting with members of the same aristocratic or political order Porous sociability however was the extra parliamentary mechanism by which Fox and his faction tactically opened their insular Whig World to forge connections with the lower orders French revolutionary leaders popular radicals and Irish rebels The author provides a detailed analysis of Foxite sociability within the context of distinct radical themes including plebeian radicalism French Revolutionary radicalism and Irish radicalism Beyond its innovative methodological approach to sociability studies the book foregrounds visual culture as a lens through which to study and enter the wordless experience of the eighteenth century and to view the themes of sociability and radicalism from within In doing so the it reveals the inconsequential or informal dynamics of the Foxites political and extra parliamentary career from their origin in c 1780 to their decline in the early nineteenth century **British Film Institute Film Classics**

Arrows Laurent Stalder looks back at the near past to trace the idea of performance in architecture by following this pervasive yet relatively unnoticed figure within the history of British architecture During its short intense period of use the arrow pointed beyond any one singular author typology or scale to the operative dimension of architecture and its environments working both as an appropriate representational technique and a concrete tool for design Stalder uses the arrow to move through the different dimensions of performance mapping out the changing set of constellations that made up postwar British architecture and its environments the constructive aspects structural properties infrastructural innovations spatial challenges as well as their aesthetic and practical consequences It is the arrow he writes that brings together debates from within different disciplines from building physics to sociology structural design and historiography inscribed as they are in the materials spaces and buildings that are all too often considered in isolation from one another **The Oxford**

The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction Cathie Carmichael, Matthew D'Auria, Aviel Roshwald, 2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present It considers both continuities and discontinuities engaging critically and analytically with the scholarly literature in the field In volume II leading scholars in their fields explore the dynamics of nationhood and nationalism s interactions with a wide variety of cultural practices and social institutions in addition to the phenomenon s crucial political dimensions The relationships between imperialism and nationhood nationalism and between major world religions and ethno national identities are among the key themes explained and explored The wide range of case studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions

The Media, Animal Conservation and Environmental Education John Blewitt, 2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world s flora and fauna The environmental educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research

The Gender of Suicide Katrina Jaworski, 2016-03-09 Drawing on diverse theoretical and textual sources The Gender of Suicide presents a critical study of the ways in which contemporary society understands suicide exploring suicide across a range of key expert bodies of knowledge With attention to Durkheim s founding study of suicide as well as discourses within sociology law medicine psychology and newsprint media this book demonstrates that suicide cannot be understood without understanding how gender shapes it and without giving explicit attention to the manner in which prevailing claims privilege some interpretations and experiences of suicide above others Revealing the masculine and masculinist terms in which our current knowledge of suicide is constructed The Gender of Suicide explores the relationship between our grasp of suicide and problematic ideas connected to the body agency violence race and sexuality As such it will appeal to sociologists and social theorists as well as

scholars of cultural studies philosophy law and psychology **Art, History, and Postwar Fiction** Kevin Brazil, 2018-10-24

Art History and Postwar Fiction explores the ways in which novelists responded to the visual arts from the aftermath of the Second World War to the present day. If art had long served as a foil to enable novelists to reflect on their craft, this book argues that in the postwar period novelists turned to the visual arts to develop new ways of conceptualizing the relationship between literature and history. The sense that the novel was becalmed in the end of history was pervasive in the postwar decades. In seeming to bring modernism to a climax whilst repeating its foundational gestures, visual art also raised questions about the relationship between continuity and change in the development of art. In chapters on Samuel Beckett, William Gaddis, John Berger, and W. G. Sebald, and shorter discussions of writers like Doris Lessing, Kathy Acker, and Teju Cole, this book shows that writing about art was often a means of commenting on historical developments of the period: the Cold War, the New Left, the legacy of the Holocaust. Furthermore, it argues that forms of postwar visual art, from abstraction to the readymade, offered novelists ways of thinking about the relationship between form and history that went beyond models of reflection or determination. By doing so, this book also argues that attention to interactions between literature and art can provide critics with new ways to think about the relationship between literature and history beyond reductive oppositions between formalism and historicism, autonomy and context.

Statelessness and Contemporary Enslavement Jane Gordon, 2019-12-17
Why have statelessness and contemporary enslavement become endemic since the 1990s? What is it about global political economic policies, protracted warfare, and migration rules and patterns that have so systemically increased these extreme forms of vulnerability? Why have intellectual communities largely ignored or fundamentally rejected the concepts of statelessness and contemporary enslavement? This book argues that statelessness and enslavement are not aberrations or radical exceptions. They have been and are endemic to Euromodern state systems. While victims are discrete outcomes of similar processes of the racialized debasement of citizenship, stateless people share the predicament of those most likely to be enslaved, and the enslaved even when formally free often face situations of statelessness. Gordon identifies forcible inclusion of semi-sovereign nations, extralegal expulsion of people who cannot be repatriated, and the concentrated erosion of the rights of full-fledged citizens as the primary modes through which people experience degrees of statelessness. She argues for the political value of seeing the connections among these discrete forms. With enslavement, she insists that while the centuries-long practice has taken on some new guises necessary to its profitability in the current global economy, what and who it involves have remained remarkably consistent. Rather than focusing on slavery as a radical and exceptional extreme of abuse or coercion, Gordon contends that we can understand contemporary slavery's specificity most usefully through considering its defining dimensions together with those of wage laborers and guest workers. Gordon concludes that appreciation of the situation of the stateless and of the enslaved should fundamentally orient our thinking about viable contemporary conceptions of consent and of the kinds of twenty-first-century political institutions that would make it harder

for some to make the vulnerability of others so lucrative Gaming Representation Jennifer Malkowski, TreaAndrea M. Russworm, 2017-07-03 Recent years have seen an increase in public attention to identity and representation in video games including journalists and bloggers holding the digital game industry accountable for the discrimination routinely endured by female gamers queer gamers and gamers of color Video game developers are responding to these critiques but scholarly discussion of representation in games has lagged far behind Gaming Representation examines portrayals of race gender and sexuality in a range of games from casuals like Diner Dash to indies like Journey and The Binding of Isaac to mainstream games from the Grand Theft Auto BioShock Spec Ops The Last of Us and Max Payne franchises Arguing that representation and identity function as systems in games that share a stronger connection to code and platforms than it may first appear the contributors to this volume push gaming scholarship to new levels of inquiry theorizing and imagination
