About Psychiatric Core Measures

ABOUT HBPS:

- Is a major national leadership effort to improve quality, safety, and performance of hospital-based inpatient psychiatric services through the collaboration of hospitals, physicians, and consumers.
- Is part of The Joint Commission accreditation (TJC) process, as of October 2008, the measures were made available for hospitals to use to fulfil the requirements of performance measurement reporting.
- Core measures for hospital-based inpatient psychiatric services (HBIPS) are one of several sets of core measures available. In addition to HBIPS measures, core measure sets exist for general medical conditions such as acute myocardial infarction, heart failure, pneumonia, children's asthma care, pregnancy and related conditions, surgical care improvement, and hospital outpatient.
- HBIPS core measures were developed with the same rigor as core measures for other medical specialties.

MEASURE SETS:

- HBIPS core measures focus on critical issues that affect the course of an individual's psychiatric hospitalization – from the moment they enter the facility through discharge:
 - the screening process (HBIPS-1),
 - admission and admission (HBIPS-2 and HBIPS-3),
 - the use of antipsychotic medications (HBIPS-4 and HBIPS-5),
 - continuity of care planning (HBIPS-6 and HBIPS-7).
- The measures are evidence-based and have a direct impact on the quality of care received.

VALUE OF HBIPS:

- Responds to steadily growing demand for psychiatric quality measurement by public and private purchasers by enabling comparisons across organizations using standardized, evidence-based measures.
- Is promoting consensus building around hospital-based psychiatric services performance measurement between the public and private sectors, and among all the various stakeholders.
- Creates standardization of measures, data specifications, and definitions to help hospitals compare their performance within hospital-based psychiatric services to that of their peers.
- This focus on consensus-driven measures is demonstrating change in clinical practice in very positive ways.

HISTORY:

- Project grew from a historic public-private partnership among the National Association of Psychiatric Health Systems (NAPHS), the National Association of State Mental Health Program Directors (NASMHPD), and the NASMHPD Research Institute, Inc. (NRI) in collaboration with the American Psychiatric Association (APA). The partnership approached
