Seeing Japan:

Seeing Japan Charles T. Whipple, 2005 The scenes and images that best typify Japan are showcased in this lavish production full colour photographs throughout with a succinct and illuminating text Part 1 presents the tremendous range of landscapes and customs in the various distinctive regions of this surprisingly large and diverse nation while Part 2 concentrates on the arts and traditions of a culture that has been nurtured over centuries Part 3 offers essential background on the country's history language and people *Film Resources on Japan* University of Michigan. Audio-Visual Education Center, United States. Office of Education, 1975 *About Japan*, 1916 The Japan-British Exhibition of 1910 A. Hotta-Lister, 2013-10-23 The rapid development of Japan at the turn of the last century including the defeat of Russia in 1904 intrigued the western Imperial powers but also aroused reactions of contempt and suspicion Britain was the most important of the powers upon which Japan earnestly wished to impress herself to mitigate the rising tide of anti Japanese sentiment An exhibition in London therefore was seen as a timely event by the Meiji Government to advance Japanese agendas in political economic and educational terms This is the first major study of this remarkable venture fully reviewed and documented and concerned principally with the Japanese side of the story *A History of Japan ...* James Murdoch, 1926

Transactions and Proceedings of the Japan Society, London Japan Society (London, England), 1916 **Transactions and Proceedings of the Japan Society, London** Japan Society of London, 1918 **Rethinking Sino-Japanese Alienation** Barry Buzan, Evelyn Goh, 2020-01-09 Bitterly contested memories of war colonisation and empire among Japan China and Korea have increasingly threatened regional order and security over the past three decades In Sino Japanese relations identity territory and power pull together in a particularly lethal direction generating dangerous tensions in both geopolitical and memory rivalries Buzan and Goh explore a new approach to dealing with this history problem First they construct a more balanced and global view of China and Japan in modern world history Second building on this they sketch out the possibilities for a 21st century great power bargain between them Buzan puts Northeast Asia's history since 1840 into both a world historical and a systematic normative context exposing the parochial nature of the China Japan history debate in relation to what is a bigger shared story about their encounter with modernity and the West within which their modern encounter with each other took place Arguing that regional order will ultimately depend substantially on the relationship between these two East Asian great powers Goh explores the conditions under which China and Japan have been able to reach strategic bargains in the course of their long historical relationship and uses this to sketch out the main modes of agreement that might underpin a new contemporary great power bargain between them in a variety of future scenarios for the region The frameworks adopted here consciously blend historical contextualisation enduring concerns with wealth power and interest and the complex relationship between Northeast Asian states evolving encounters with each other and with global international society A History of Japan: The Tokugawa epoch, 1652-1868, rev. and ed. by Joseph H. Longford.

1926 James Murdoch, Isao Yamagata, 1926 *Japan's Reluctant Realism* M. Green, 2001-05-17 In *Japan's Reluctant Realism* Michael J Green examines the adjustments of Japanese foreign policy in the decade since the end of the Cold War Green presents case studies of China the Korean peninsula Russia and Central Asia Southeast Asia the international financial institutions and multilateral forums the United Nations APEC and the ARF In each of these studies Green considers Japanese objectives the effectiveness of Japanese diplomacy in achieving those objectives the domestic and exogenous pressures on policy making the degree of convergence or divergence with the United States in both strategy and implementation and lessons for more effective US Japan diplomatic cooperation in the future As Green notes its bilateral relationship with the United States is at the heart of Japan's foreign policy initiatives and Japan therefore conducts foreign policy with one eye carefully on Washington However Green argues it is time to recognize Japan as an independent actor in Northeast Asia and to assess Japanese foreign policy in its own terms

Sino-Japanese Relations Ming Wan, 2006 This book examines the transformation of the Sino Japanese relationship since 1989

Rethinking Japanese Security Peter J. Katzenstein, 2008-03-11 Since the unexpected end of the Cold War standard arguments about power politics can no longer be adopted uncritically This has led to a renewed interest in Japan's unusually peaceful security policy Japan's championing of comprehensive security is central to this collection Peter J Katzenstein's essays explore this concept which not only encompasses traditional military concerns but also domestic aspects of security The book's focus on counter terrorism and national security highlights a policy approach which over decades Japan has developed with political patience and diplomatic finesse These essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the exploration of novel lines of argument Additionally the book features an entirely new substantial introduction that explores and elaborates the themes of the collection while bringing it up to date This collection will be of significant interest to students and scholars of Japanese politics security studies and international relations

Japan's Rise as a Regional and Global Power, 2013-2023 Gilbert Rozman, Brad Glosserman, 2024-06-03 Rozman and Glosserman follow a momentous decade in the transformation of Japanese foreign policy from 2013 to 2023 that unveils Japan in a new light as a leading power more closely aligned with the United States than ever before but with distinct aspirations The book presents a comprehensive chronology a broad sweep of relations with regional partners and an unprecedented look at new relations with Europe Zeroing in on the legacy of Abe Shinzo it pays special attention to the leadership of Kishida Fumio in response to the Biden administration the Ukraine war the growing alarm about China the swings in ties to South Korea and the hopes to be a bridge with Southeast Asia and India It is a vital read for students of international relations in the Indo Pacific and of Japan and advanced undergraduate courses on Japanese foreign policy Asian regional studies and comparative international

Chinese

Foreign Policy Think Tanks and China's Policy Towards Japan Xuanli Liao, 2006 Examines Chinese foreign policy think tanks and their influence in China's foreign policy towards Japan between the late 1970s and late 1990s Through case studies this book demonstrates a growing pluralistic trend in post Mao China's foreign policy making process **Travellers' Visions** Akane Kawakami, 2005-01-01 Travellers Visions adds another perspective to ongoing debates over colonialism with an examination of the intercultural relations between France a major colonial empire for nearly three centuries and Japan a country that has remained mostly autonomous throughout its existence In this analytic history of French literary images of Japan from soon after its reopening to the West to the present day Kawakami examines the work of many of France's most revered authors including Marcel Proust Paul Claudel and Roland Barthes along with other lesser known writers and artists such as Loti and Farr re as they embarked on journeys literary and real to this exotic land Authors are discussed according to type journalists diplomats or collectors for example and the close readings are accompanied by G rard Mac's beautiful and rarely seen photographs Travellers Visions offers new clarity to current intellectual debates and will be a valuable resource to students and scholars of French literature and Asian history alike Nationalism, Political Realism and Democracy in Japan Fumiko Sasaki, 2012 Masao Maruyama was the most influential and respected political thinker in post WWII Japan He believed that the collective mentality inherent in the traditional Japanese way of thinking was a key reason for the defeat in WWII and was convinced that such thought needed to be modernized In this book Fumiko Sasaki argues that the cause of the prolonged political economic and social decline in Japan since the early 1990s can be explained by the same characteristics Maruyama identified after 1945 Using Maruyama's thought Sasaki explores how the Japanese people see their role in their nation the democracy imposed by the US and the relationship between power and international relations Further Sasaki also considers what the essence of national security is and how much it has been forgotten in current Japanese political thought The book solves the puzzle of how Maruyama a teacher of political realism who emphasized the importance of power could insist on the policy of unarmed neutrality for Japan's national security and in doing so illuminates how traditional Japanese thought has impacted development in Japan Despite his status within Japan there are few English language books available on Maruyama and his thought on national security This book therefore will be an essential resource for students and scholars of Japanese Politics and Political Thought **Japan's Global Health Policy** Haruko Sugiyama, Ayaka Yamaguchi, Hiromi Murakami, 2013-05-30 Recent years have seen a considerable shift in the sources of financial assistance for global health activities With the private sector as well as emerging economies joining the more developed nations as major players the balance of power is changing leading to a momentous shift in perceptions of global health Japan has yet to adopt a comprehensive approach that acknowledges the new global health reality With political changes natural disasters and a sluggish economy dominating the policy scene in recent years there has been little appetite among decision makers to develop in a practical sense more effective ways to strategically support global health activities in facilitating a greater

impact of Japan's foreign policy Japan must develop a comprehensive perspective of global health in order to maximize aid effectiveness and to promote transparency in order to boost the overall effectiveness of the country's initiatives and benefit the people of Japan as well
