Seeing Things Hidden:

Seeing Things Hidden Malcolm Bull, 1999 The multiplicity of the self and the inaccessibility of truth are commonplaces of contemporary thought But in *Seeing Things Hidden* they become key features of a philosophy of history that reunites emancipatory political theory with the apocalyptic tradition Apocalyptic is the revelation of things hidden But what does it mean to be hidden And why are things hidden in the first place By gently teasing out the meanings of hiddenness this book develops a new theory of apocalyptic and explores its relation to the writings of Kant Hegel Benjamin and Derrida Exploiting affinities between the work of Lukács and recent American philosophers like Rorty and Cavell Bull argues that the central dynamic of late modernity is the coming into hiding of the contradictory identities generated through political and social emancipation Drawing on analytic and Continental philosophy he articulates the most ambitious philosophy of history since Francis Fukuyama's *The End of History* presenting fresh interpretations of such icons of modernity as Hegel's master slave dialectic Benjamin's angel of history Du Bois's concept of double consciousness and Rawls's veil of ignorance

Jesus and Myth Peter John Barber, 2021-02-15 Is Jesus mythological And is he a mere product of his cultural milieu Through narratological and social scientific analysis of the gospel account Barber systematically demonstrates that there are two opposing patterns structuring the gospel The first is the pattern of this world which is the combat myth with a typical sequence of motifs having mythological meanings It is lived out by everyone else in the accounts except Jesus because this pattern of the world is the pattern of myth culture which is the pattern of the old Adam and sin nature The pattern of Jesus is the pattern intended for Adam to walk in and is the unique pattern of the new Adam Jesus Christ Jesus's pattern inverts the sequence and subverts the significance of each and every motif and episode of the myth culture's pattern Barber shows that Jesus's failure to conform to this world's mythological pattern establishes that he is not mythological and not a product of his culture As the apostle Peter states we did not follow cleverly devised tales myths when we made known to you the power and

coming of our Lord Jesus Christ but we were eyewitnesses of his majesty 2 Pet 1 16 The Scarlet Woman and the Red Hand Joshua T. Searle, 2014-04-16 This book provides a comprehensive description of how evangelicals in Northern Ireland interpreted the Troubles 1966-2007 in the light of how they read the Bible The rich and diverse landscape of Northern Irish evangelicalism during the Troubles is ideally suited to this study of both the light and dark sides of apocalyptic eschatology Searle demonstrates how the notion of apocalypse shaped evangelical and fundamentalist interpretations of the turbulent events that characterized this dark yet fascinating period in the history of Northern Ireland The book uses this case study to offer a timely reflection on some of the most pressing issues in contemporary negotiations between culture and religion Given the current resurgence of religious fundamentalism in the wake of 9/11 together with popular conceptions of a clash of civilizations and the so called War on Terror this book is not only an engaging academic study it also resonates with some of the defining cultural issues of our time **From Every People and Nation** David M. Rhoads, A diverse group of New Testament scholars and theologians offer myriad paths to a better understanding of the Book of Revelation They discuss topics such as Hispanic Cuban American and African American perspectives ecological issues postcolonial themes and liberation theology The book also provides a set of guidelines for intercultural Bible study The volume's contributors include Brian K Blount Justo Gonzalez Harry O Maier Clarice J Martin James Okoye Tina Pippin Pablo Richard Barbara R Rossing Victor Westhelle Khio Khng Yeo *Antagonistic Tolerance* Robert M. Hayden, Aykan Erdemir, Tuğba Tanyeri-Erdemir, Timothy D. Walker, Devika Rangachari, Manuel Aguilar-Moreno, Enrique López-Hurtado, Milica Bakić-Hayden, 2016-03-22 *Antagonistic Tolerance* examines patterns of coexistence and conflict amongst members of different religious communities using multidisciplinary research to analyze groups who have peacefully intermingled for generations and who may have developed aspects of syncretism in their religious practices and yet have turned violently on each other Such communities define themselves as separate peoples with different and often competing interests yet their interaction is usually peaceable provided the dominance of one group is clear The key indicator of dominance is control over central religious sites which may be tacitly shared for long periods but later contested and even converted as dominance changes By focusing on these shared and contested sites this volume allows for a wider understanding of relations between these communities Using a range of ethnographic historical and archaeological data from the Balkans India Mexico Peru Portugal and Turkey *Antagonistic Tolerance* develops a comparative model of the competitive sharing and transformation of religious sites These studies are not considered as isolated cases but are instead woven into a unified analytical framework which explains how long term peaceful interactions between religious communities can turn conflictual and even result in ethnic cleansing **In Theory. What Is Love?** Jordan Alexander Ford, 2022-05-10 Six years after his brother was tragically murdered Jay Arthos King is living in Havensdale a small neighborhood in Queens New York During the daylight he sits by the window while working to preserve his spirit good health and an enduring power At night he dreams of a homeland and a sky where there are many

worlds While reflecting on his brother's life and death his own existence and his relationship with his loving companion of five years a grief stricken Jay contemplates the inner workings of the mind the power of the heart to create things the world has never known and how in the shadows of pain one can create a new way to live heal and be Even as he spends the majority of his days by the window Jay feels an urge to learn more about life the world around him and love As he transforms into a thinking man Jay becomes devoted to forever learning and understanding as he determinedly attempts to find a path forward without his brother In *Theory What Is Love* is the poignant story of a young man's journey of self discovery after his brother is tragically murdered

Intra-Muslim Polemics in South India Nandagopal R. Menon, 2024-03-14 How do we understand differences and disputes among various branches of Islam This book places intimacies rather than radical incompatibilities at the centre of its in depth ethnographic account of mass publicized theological polemics among Sunni Muslims in the south Indian state of Kerala What unites Muslims of different Sunni groups also divides them and incites polemics Islam as a shared system of knowledge and practices bonds of kinship and other social relations and the common condition of being a beleaguered religious minority in a Hindu majoritarian democracy Diverging from works that have focused on how Islamic practices like ritual prayers facilitate the fashioning of theologically grounded pious selves the book argues that intra Muslim polemics marginalize theology and have little to do with cultivating piety Instead polemics constitute inter and intra religious socialities enable Muslims to articulate their connections to India and other imaginaries and produce Islam as a public religion in a secular nation state

Apocalyptic Political Theology Thomas Lynch, 2019-01-24 Hegel's philosophy of religion contains an implicit political theology When viewed in connection with his wider work on subjectivity history and politics this political theology is a resource for apocalyptic thinking In a world of climate change inequality oppressive gender roles and racism Hegel can be used to theorise the hope found in the end of that world Histories of apocalyptic thinking draw a line connecting the medieval prophet Joachim of Fiore and Marx This line passes through Hegel who transforms the relationship between philosophy and theology by philosophically employing theological concepts to critique the world Jacob Taubes provides an example of this Hegelian political theology weaving Christianity Judaism and philosophy to develop an apocalypticism that is not invested in the world Taubes awaits the end of the world knowing that apocalyptic destruction is also a form of creation Catherine

Malabou discusses this relationship between destruction and creation in terms of plasticity Using plasticity to reformulate apocalypticism allows for a form of apocalyptic thinking that is immanent and materialist Together Hegel Taubes and Malabou provide the resources for thinking about why the world should end The resulting apocalyptic pessimism is not passive but requires an active refusal of the world

William Faulkner Richard Godden, 2009-01-10 In *William Faulkner* Richard Godden traces how the novelist's late fiction echoes the economic and racial traumas of the South's delayed modernization in the mid twentieth century As the New Deal rapidly accelerated the long term shift from tenant farming to modern agriculture many African Americans were driven from the land and forced to migrate north At the same time white landowners exchanged dependency on black labor for dependency on northern capital Combining powerful close readings of *The Hamlet* *Go Down Moses* and *A Fable* with an examination of southern economic history from the 1930s to the 1950s Godden shows how the novel's literary complexities from their narrative structures down to their smallest verbal emphases reflect and refract the period's economic complexities By demonstrating the interrelation of literary forms and economic systems the book describes in effect the poetics of an economy Original in the way it brings together close reading and historical context *William Faulkner* offers innovative interpretations of late Faulkner and makes a unique contribution to the understanding of the relation between literature and history **Communication Yearbook 10** Margaret McLaughlin, 2012-05-23 The *Communication Yearbook* annuals publish
