Seizure Of Political Power In A Century:

The Seizure of Political Power in a Century of Revolutions Feliks Gross,1970 **The seizure of political power in a century of revolution** Feliks Gross,1979 **Max Weber, Critical Assessments 2** Peter Hamilton,1991 *Modern Revolutions* John Dunn,1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves *Revolution* Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more [Decentering European Intellectual Space](#) ,2018-05-15 Decentering European Intellectual Space challenges the conventional view of intellectual history as a debate over the interpretation of a limited number of texts produced by a small group of prominent scholars writers and intellectuals from the cultural centers of Europe Addressing the question What is European intellectual space this collection of essays seeks to demonstrate how this space is shaped ordered and communicated between Europe s fluctuating cores and peripheries Focusing on the asymmetrical relations between large and small centers and peripheries cores and margins in scholarly and other forms of interaction and within Europe as well as globally the volume brings forth a variety of trajectories and strategies developed by intellectuals outside the culturally dominant centers Contributors are David Cottington Narve Fuls s Tommaso Giordani Marja Jalava Zs fia L rand ukasz Miko ajewski Diana Mishkova Stefan Nyg rd Emilia Palonen Manolis Patiniotis Johanna Rainio Niemi Tore Rem Jos Mar a Rosales and Johan Strang **Social Movements** Paul Almeida,2019-02-26 Social Movements cleverly translates the art of collective action and mobilization by excluded groups to facilitate understanding social change from below Students learn the core components of social movements the theory and methods used to study them and the conditions under which they can lead to political and social transformation This fully class tested book is the first to be organized along the lines of the major subfields of social movement scholarship framing movement emergence recruitment and outcomes to provide comprehensive coverage in a single core text Features include use of real data collected in the U S and around the world the emphasis on student learning outcomes case studies that bring social movements to life examples of cultural repertoires used by

movements flyers pamphlets event data on activist websites illustrations by activist musicians to mobilize a group topics such as immigrant rights transnational movement for climate justice Women s Marches Fight for 15 Occupy Wall Street Gun Violence Black Lives Matter and the mobilization of popular movements in the global South on issues of authoritarian rule and neoliberalism With this book students deepen their understanding of movement dynamics methods of investigation and dominant theoretical perspectives all while being challenged to consider their own place in relation to social movements

and West Edhem Eldem, Daniel Goffman, Bruce Alan Masters, 1999-11-11 Studies of early modern Islamic cities have stressed the atypical or the idiosyncratic This bias derives largely from orientalist presumptions that they were in some way substandard or deviant The first purpose of this volume is to normalize Ottoman cities to demonstrate how on the one hand they resembled cities generally and how on the other their specific histories individualized them The second purpose is to challenge the previous literature and to negotiate an agenda for future study By considering the narrative histories of Aleppo Izmir and Istanbul the book offers a departure from the piecemeal methods of previous studies emphasizing their importance during the seventeenth and eighteenth centuries and highlighting their essentially Ottoman character While the essays provide an overall view each can be approached separately Their exploration of the sources and the agendas of those who have conditioned scholarly understanding of these cities will make them essential student reading

Court Cultures in the Muslim World Albrecht Fuess, Jan-Peter Hartung, 2014-06-03 Courts and the complex phenomenon of the courtly society have received intensified interest in academic research over recent decades however the field of Islamic court culture has so far been overlooked This book provides a comparative perspective on the history of courtly culture in Muslim societies from the earliest times to the nineteenth century and presents an extensive collection of images of courtly life and architecture within the Muslim realm The thematic methodology employed by the contributors underlines their interdisciplinary and comprehensive approach to issues of politics and patronage from across the Islamic world stretching from Cordoba to India Themes range from the religious legitimacy of Muslim rulers terminologies for court culture in Oriental languages Muslim concepts of space for royal representation accessibility of rulers the role of royal patronage for Muslim scholars and artists to the growing influence of European courts as role models from the eighteenth century onwards Discussing specific terminologies for courts in Oriental languages and explaining them to the non specialist chapters describe the specific features of Muslim courts and point towards future research areas As such it fills this important gap in the existing literature in the areas of Islamic history religion and Islam in particular

Mapping the Acehnese Past R. Michael Feener, Patrick Daly, Anthony Reed, 2011-01-01 Aceh has become best known in our times for its twin disasters the worst earthquake and tsunami of modern times in December 2004 and a long running separatist conflict that rent Indonesia for most of its independent history Although this book emerged from the process of recovery from those traumas it turns the spotlight on a more positive and neglected claim Aceh has on our attention as the Southeast Asian maritime state that most successfully and creatively maintained its independent place in the world until 1874 Like Burma Siam and Vietnam all better protected by geography Aceh has its own story to tell of a unique culture struggling for survival through the European colonial era Unfortunately the sources for this story are scattered since Aceh s own records have not well survived the ravages of climate

civil war and eventual foreign conquest To recover its cosmopolitan history an unparalleled range of sources and skills had to be brought together Aceh s central role in the creation of Malay literature out of Arabic Persian Indian and Indonesian elements had to be explored with reference to texts surviving in a dozen world libraries Teuku Iskandar Amirul Hadi The rich archeological record neglected through the long years of conflict had again to be brought into play Daniel Perret and the extensive relations of the Aceh sultanate with the Ottoman Empire Ismail G ksoy and Ismail Kad Andrew Peacock Annabel Gallop Portugal Jorge Alves England Annabel Gallop and the Netherlands Sher Banu and Jean Taylor had to be explored chiefly in European archives by experts in these respective fields The result of this combined work in this volume is the most comprehensive picture so far of sources for the history of Aceh The Call ,1965 **Mother Earth** ,1907
