An Introduction to Human Evolutionary Anatomy Leslie Aiello, Christopher Dean, 1990-09-11 An anthropologist and an anatomist have combined their skills in this book to provide students and research workers with the essentials of anatomy and the means to apply these to investigations into hominid form and function Using basic principles and relevant bones conclusions can be reached regarding the probable musculature stance brain size age weight and sex of a particular fossil specimen The sort of deductions which are possible are illustrated by reference back to contemporary apes and humans and a coherent picture of the history of hominid evolution appears Written in a clear and concise style and beautifully illustrated An Introduction to Human Evolutionary Anatomy is a basic reference for all concerned with human evolution as well as a valuable companion to both laboratory practical sessions and new research using fossil skeletons

Biological Affinity in Forensic Identification of Human Skeletal Remains Gregory E. Berg, Sabrina C Ta'ala, 2014-12-13 Ancestry determination in the identification of unknown remains can be a challenge for forensic scientists and anthropologists especially when the remains available for testing are limited There are various techniques for the assessment of ancestry ranging from traditional to new microbiological and computer assisted methods Biological Affinity in Forensic Identification of Human Skeletal Remains Beyond Black and White presents a range of tools that can be used to identify the probable socio cultural race category of unknown human remains Gathering insight from those who have made recent improvements and scientific advances in the field the book begins with the historical foundations of the concept of biological affinity and the need for increased research into methods for determining ancestry of skeletal remains The contributors cover a range of topics including Ancestry estimation from the skull using morphoscopic and morphometric traits and variables Innovative methods from metric analyses of the postcrania and new approaches to dental non metric variation The biological diversity of Hispanic populations and use of discriminant function analysis and 3D ID software to determine ancestry Methods of age progression and facial reconstructions to create two dimensional 2D and three dimensional 3D facial composites for missing people The preparation of skeletal remains for DNA extraction and sampling and mtDNA methods that are available for identification of haplogroups e.g. ancestral populations No single method or technique is adequate in the assessment of ancestry For accurate determinations the use of traditional and new techniques combined yields better results This book demonstrates the large repertoire of tools available to those tasked with these challenging determinations

The Bioarchaeology of Socio-Sexual Lives Pamela L. Geller, 2016-07-28 This volume uses bioarchaeological remains to examine the complexities and diversity of past socio sexual lives This book does not begin with the presumption that certain aspects of sex gender and sexuality are universal and longstanding Rather the case studies within extend from Neolithic Europe to pre Columbian Mesoamerica to the nineteenth century United States highlight the importance of culturally and historically contextualizing socio sexual beliefs and practices The Bioarchaeology of Socio Sexual Lives highlights a major shortcoming in many scholarly and popular presentations of past socio sexual lives They reveal little about the ancient or historic group under study and much about Western society s modern state of heteronormative affairs To interrogate commonsensical thinking about socio sexual identities and interactions this volume draws from critical feminist and queer studies Reciprocally bioarchaeological studies extend social theorizing about sex gender and sexuality that emphasizes the modern conceptual and discursive Ultimately The Bioarchaeology of Socio Sexual Lives invites readers to think more deeply about humanity s diversity the naturalization of culture and the past s presentation in mass media communications

An Introduction to Social Anthropology Clark Wissler, 1929 *The Paleobiology of Australopithecus* Kaye E. Reed, John G Fleagle, Richard E Leakey, 2013-03-15 Australopithecus species have been the topic of much debate in palaeoanthropology since Raymond Dart described the first species Australopithecus africanus in 1925 This volume synthesizes the geological and paleontological context of the species in East and South Africa covers individual sites such as Dikika Hadar Sterkfontein and Malapa debates the alpha taxonomy of some of the species and addresses questions regarding the movements of the species across the continent Additional chapters discuss the genus in terms of sexual dimorphism diet reconstruction using microwear and isotopic methodologies postural and locomotor behavior and ontogeny

History of Physical Anthropology Frank Spencer, 1997 The comparative study of humans as biological organisms their evolution and their physiological and anatomical functions and ecology of primates surveys the entire field and summarizes and organizes the basic knowledge fundamental principles and development

Anthropology through the Experience of the Physical Body Kaori Fushiki, Ryoko Sakurada, 2023-12-22 This book seeks to break new ground both empirically and conceptually in examining changing understandings of the physical human body from a variety of anthropological perspectives In doing so it interrogates how the body has been and continues to be conceptualised experienced and interacted with After an introductory appraisal of recent approaches to understanding the body the book provides empirically rich accounts from East and Southeast Asia of how cultural environmental and social norms shape human physicality The contributions are organised in four broad themes Part I Body and Space offers two contrasting case studies from Malaysia both of which examine gender norms associated with marriage and pregnancy including the taboos associated with these rites of passage Part II Imperfect Bodies Communication and the Body as Media analyses two case studies Deaf people in Japan and masked theatre performance in Bali Indonesia to reflect on changing attitudes towards disability which reflect broader social norms and

cultural beliefs about the nature of disability and its place in society Part III The Body and Image provides a pair of case studies from Singapore on male fans of the popular manga boys love genre and on ways that the Chinese zodiac system is determined from birth and continues to be spiritually embedded in the body of a Chinese individual through ritual practices Part IV The Body as Container Taming the Bodies presents a single case study from Thailand of spirit possession among schoolchildren Though wide ranging all the case studies posit that the body is a site of constant negotiation The way the body is presented and the way it is seen are shaped by a complex array of social cultural political and ideational factors Anthropology through the Experience of the Physical Body is a valuable interdisciplinary work for advanced students and researchers interested in representations of the body in East and Southeast Asia and for those with wider interests in the field of critical anthropology The Human Evolution Source Book Russell L. Ciochon, John G. Fleagle, 1993 M CREATED
