ways in which we can theorise particular emotional states authors ask how certain emotions are linked to culture and society and what roles they play in politics and contemporary life With examples and case studies taken from research into media culture and social life *Emotions in Culture and Everyday Life* will appeal to scholars of sociology anthropology psychology media and cultural studies and philosophy with interests in the emotions

Murdoch on Truth and Love Gary Browning, 2018-06-19 This book reviews Iris Murdoch s thought as a whole It surveys the breadth of her thinking taking account of her philosophical works her novels and her letters It shows how she explored many aspects of experience and brought together apparently contradictory concepts such as truth and love The volume deals with her notions of truth love language morality politics and her life It shows how she offers a challenging provocative way of seeing things which is related to but distinct from standard forms of analytical philosophy and Continental thought Unlike so many philosophers she does offer a philosophy to live by and unlike many novelists she has reflected deeply on the kind of novels she aimed to write The upshot is that her novels and her philosophy can be read together productively as contributions to how we can see others and the world

Sociological Abstracts Leo P. Chall,1998 **Continuity & Change Among Canadian Mennonite Brethren** Peter M. Hamm,1987-03-09 More than 450 years after their birth in the Anabaptist movement 125 years after their secession from Russian Mennonitism and 60 years after their immigration to Canada the Mennonite Brethren exhibit specific and measurable signs of sectarian viability and religious vitality To explain the persistence of the sect Hamm analyses the process of sacralization within the Canadian Mennonite Brethren Church which safeguards identity a system of meaning or a definition of reality and the process of secularization which erodes boundaries dislodges stable structures and destroys identity It is an oversimplification the author argues to insist that the factors of continuity ethical and cognitive norms family solidarity ethnicity worship evangelism community and church structures and service agencies are solely integrative and that the factors of change urbanization education occupational change and economic affluence are solely disruptive Instead a complex dialectic between the two processes is at work that prevents restrictive rigidity within the sect and excessive accommodation to the host society According to the author this analysis of the Canadian Mennonite Brethren becomes a case study to test the utility of an identity theory of religion which hinges on the integration differentiation dialectic It is at the same time a serious self study in religious sociology by which the author seeks to gain a better understanding of the processes of growth and decline of continuity and change and of the ongoing tension resulting from the religious movement s confrontation with society 21st Century Sociology: A Reference Handbook Clifton D.
