Mui, 2025-08-19. Around the world, growing populations of older adults need social care. Aging is typically associated with steady physical and cognitive decline; the practice of narrative therapy, by contrast, focuses on the resilience of the older adults by encouraging the construction of meaningful life stories. Practitioners engage participants to revisit their personal journeys to uncover their life lessons, finding core beliefs and values to help cope with new challenges. Ultimately, narrative therapy helps older adults recover meaning in life by inviting them to recollect and commemorate their life experiences. This book is an in-depth guide to narrative therapy for students and practitioners in health care, social work, gerontology, and counseling, showing readers how to develop a culturally sensitive practice framework with older adults. It presents a step-by-step manual on the therapeutic use of narrative, describing the theories, methods, skills, and techniques of transformative narrative practice with older people in individual, family, group, and collective settings. Drawing on extensive clinical practice with older adults in Hong Kong and New York City, the authors explore narrative methods in divergent cultural contexts to advance a globally minded approach. Bringing narrative therapy to gerontological practice in culturally sensitive ways, this book foregrounds alternative models of aging that celebrate a life worth living. 3 *Steps to Recovery* Dan Farish, 2011-06. 3 *Steps To Recovery: One Man's Triumph Over Alcohol And Drugs: A Simple Approach to Overcome Any Addiction* **Doin' Drugs** William H. James, Stephen L. Johnson, 2010-01-01. Throughout the African American community, individuals and organizations ranging from churches to schools to drug treatment centers are fighting the widespread use of crack cocaine. To put that fight in a larger cultural context, *Doin' Drugs* explores historical patterns of alcohol and drug use from pre-slavery Africa to present-day urban America. William Henry James and Stephen Lloyd Johnson document the role of alcohol and other drugs in traditional African cultures among African slaves before the American Civil War and in contemporary African American society, which has experienced the epidemics of marijuana, heroin, crack cocaine, and gangs since the beginning of this century. The authors zero in on the interplay of addiction and race to uncover the social

and psychological factors that underlie addiction James and Johnson also highlight many culturally informed programs particularly those sponsored by African American churches that are successfully breaking the patterns of addiction The authors hope that the information in this book will be used to train a new generation of counselors ministers social workers nurses and physicians to be better prepared to face the epidemic of drug addiction in African American communities
