**Four British Fantasists** Charles Butler, 2006-04-25 *Four British Fantasists* explores the work of four of the most successful and influential fantasy writers of the generation who rose to prominence in the second Golden Age of children's literature in Britain Susan Cooper Alan Garner Diana Wynne Jones and Penelope Lively Drawing on history archeology social geography anthropology and postcolonial theory as well as literary criticism Butler provides a series of new perspectives through which to view these writers' achievements He begins by highlighting some points of biographic coincidence e g all four authors were children during WWII all were born within a year or two of each other and all attended Oxford University in the early 1950s when C S Lewis and J R R Tolkien were publishing their seminal fantasies and questions if these factors play any significant role in the development of these fantasy writers The author then uses this question as the springboard for a case study in the assessment of biographical and literary influence The book also considers the role played by Britain itself in determining the shape and preoccupations of these writers' fiction Britain is a land with a long history in which

contemporary life is constantly juxtaposed with evidence of the past in the form of ancient buildings historic sites and archeological remains By placing the work of Cooper Garner Jones and Lively in the context of British culture and of their own time Butler provides a key to their fascination with history mythology and magic and to the ways in which that fascination has found expression in their fiction Students of children s literature and of fantasy literature as well as readers who are interested in the lives of these four subject authors will find this an insightful read *A Companion to J. **The Obits: New York Times Annual 2012** William McDonald, 2011-11-11 The obits It's the first section many of us turn to when we open the paper not to see who died but rather to find out about who lived to discover the interesting lives of people who've made a mark A new annual that collects nearly 300 of the best of The New York Times obituaries from the previous year The Obits Annual 2012 is a compelling addictive as salted peanuts who's who of some of the most fascinating people of the twentieth century Written by top journalists each entry is a jewel a miniature nuanced biography filled with the facts we love to read with the surprise and serendipity of life There's David L Wolper the producer of Roots and the story of how he got his start purchasing film footage from Sputnik The jazz singer Abbey Lincoln and her change from glamorous performer she owned a dress of Marilyn Monroe's to civil rights activist she burned the Monroe dress Owsley Stanley the quirky perfecter of LSD who blamed a heart attack on the fact that his mother made him eat broccoli as a child Patricia Neal known by most as a movie star but her real life filled with tragedy adversity and incredible professional ups and downs is almost a surreal play of triumph and tragedy Arranged chronologically like the obits themselves it's a deliciously random walk through the recent past meeting the philosophers newsmen spies publishers moguls soul singers baseball managers Nobel Prize winners models and others who've shaped the world

**Written on Stone** Joanne Parker, 2009-10-02 This collection of essays is not interested in the unresolved questions about the origin original use and authentic meaning of the prehistoric monuments of the British Isles It is not concerned with their prehistory Rather it deals with the history of barrows standing stones and stone circles with the ways in which they have been viewed the meanings that have been attributed to them and the significant impact that they have had over the centuries on British life and culture from motivating artists authors musicians and film makers to inspiring New Age religions It is thus as interested in stones commonly believed to be megaliths like the foundation stones of the chapel in the Dartmoor village of South Zeal as in real remains In her recent study of Stonehenge the historian Rosemary Hill asserted Stonehenge does not belong to archaeology or not to archaeology alone Likewise this book is not written primarily for archaeologists or not for the interest of archaeologists alone It will also be of interest to social and cultural historians to those interested in fine art literature or film and to anyone fascinated by the construction of national local or counter cultural identities It should also intrigue anybody who lives near one of the thousands of prehistoric

remains that add beauty and mystery to Britain's countryside The book surveys over eight hundred years of rediscovery study superstition inspiration fear restoration and destruction investigating how different generations saw their own anxieties beliefs and concerns reflected in the mysterious lives of the prehistoric builders By discussing the many different ways in which prehistoric remains have been treated in different periods the book interrogates any notion of objective approaches to archaeology Instead it asserts that what we think of as the past is in fact multiple and man made Thus if we are to effectively interpret and fully understand the prehistoric remains of the past a variety of disciplines and a range of approaches both traditional and unconventional will need to work together For this reason this book has been produced as a jointly authored text a collaboration between archaeologists folklorists historians journalists and literary critics
