

Merlin: Sorcerer's Guide to Survival in College (Freshman Orientation)

Monte, Christopher F.

Note: This is not the actual book cover

Merlin The Sorcerers Guide To Survival In College

Russell G. Warren

Merlin The Sorcerers Guide To Survival In College:

Merlin Christopher F. Monte, 1990 This book should be of interest to students of psychology

The Adult Learner's Guide to College Laurence Smith, Timothy Walter, 1994 This book is designed to build the confidence of adult learners and to present strategies for basic skills such as classroom learning studying reading notetaking time management and test taking Rather than saying here's how you did it in high school and here's how you do it now the focus is here are your assumptions about what you think you need to do to succeed here's what you really need to be concerned about and here's what to do to deal with academic and personal adjustments on your life

Beneath the Mask Robert N. Sollod, Christopher F. Monte, 2008-01-22 Beneath the Mask presents classic theories of human nature much as each theorist might if the theorist were to teach his or her ideas to people encountering them for the first time Through a theorist by theorist approach this Eighth Edition continues to explore the ideas of personality theorists developmentally incorporating the personal origins of ideas to illuminate links between the psychology of each theorist and that theorist's own psychology of persons Beneath the Mask presents the sequence of thinking for more than 20 theorists and demonstrates how the thinking that led to major theories is nested in the life experience of the theorists within the context of the surrounding culture The authors emphasize each theorist's life history as the basis for the ideas that constitute his or her theories making them easier to understand as pictures of human nature John P Wilson has revised the text in a manner that preserves and improves upon the best features of the late Robert N Sollod and Christopher Monte's work

Orientation to College Learning Dianna L. Van Blerkom, 1995 This text contains 15 chapters covering major survival and study skills It provides adequate examples to support discussions although it is briefer than similar texts for this type of course The text is extensively class tested exhibiting the authors wide teaching experience and real understanding of students needs

Carpe Diem Russell G. Warren, 1996 Carpe Diem was written to transform student attitudes about their studies from those of hourly workers sitting in lectures and dutifully taking notes to an attitude which reflects student ownership of their education The motivation for this book comes from compelling evidence that being an active rather than a passive learner will make a significant difference in life's successes This book emphasizes that acquiring factual information is critically important but knowing facts is not enough Successful people must also acquire broad skills including writing speaking interpersonal skills initiative time management assertiveness and reasoning ability The specific teaching and learning techniques discussed include the discussion method computer assisted instruction laboratory instruction simulation the case method intensive reading and writing student journals and cooperative learning including student affairs activities Carpe Diem also provides the rationale for these learning techniques In addition it helps students develop a personal plan and connects that plan with active learning outcomes Finally the book offers appendices on the relevance of specific general education subjects and on how to choose a college that supports active learning

The College Learner Mary Renck Jalongo, 1996

Toolkit for College Success Daniel R. Walther, 1993-12-31

This is a highly practical text with a highly innovative design Icons for theory tips tools and templates help students to easily navigate their way through this worktext to find the help they need to have success with their academics **Ready for the Real World** William C.
