Cleansing the City Michelle Elizabeth Allen, 2008

*Cleansing the City* Sanitary Geographies in Victorian London explores not only the challenges faced by reformers as they strove to clean up an increasingly filthy city but the resistance to their efforts Beginning in the 1830s reform minded citizens under the banner of sanitary improvement plunged into London's dark and dirty spaces and returned with the material they needed to promote public health legislation and magnificent projects of sanitary engineering Sanitary reform however was not always met with unqualified enthusiasm While some improvements such as slum clearances the development of sewerage and the embankment of the Thames may have made London a cleaner place to live these projects also destroyed and reshaped the built environment and in doing so altered the meanings and experiences of the city From the novels of Charles Dickens and George Gissing to anonymous magazine articles and pamphlets resistance to reform found expression in the nostalgic appreciation of a threatened urban landscape and anxiety about domestic autonomy in an era of networked sanitary

services Cleansing the City emphasizes the disruptions and disorientation occasioned by purification a process we are generally inclined to see as positive By recovering these sometimes oppositional sometimes ambivalent responses Michelle Allen elevates a significant undercurrent of Victorian thought into the mainstream and thus provides insight into the contested nature of sanitary modernization
