Metal Sites in Proteins and Models H.A.O. Hill,P.J. Sadler,A.J. Thomson,1999-04-01 Biological chemistry is a major frontier of inorganic chemistry Three special volumes devoted to Metal Sites in Proteins and Models address the questions how unusual entatic are metal sites in metalloproteins and metalloenzymes compared to those in small coordination complexes and if they are special how do polypeptide chains and co factors control this The chapters deal with iron with metal centres acting as Lewis acids metals in phosphate enzymes with vanadium and with the wide variety of transition metal ions which act as redox centres They illustrate in particular how the combined armoury of genetics and structure determination at the molecular level are providing unprecedented new tools for molecular engineering

Proteins Ruth Hogue Angeletti, 1998-09-14 Proteins Analysis and Design focuses solely on individual experimental approaches rather than on specific classes of proteins The book provides insight into the important issues in protein science and how one can cope with them These include all issues which explore the detailed relationship of protein structure to function Provides problems and technical solutions Includes posttranslational modifications Uses synthetic peptides as biological models Details mutagenesis and protein engineering Covers design of protein structure and function

Electron Paramagnetic Resonance Bruce C Gilbert, N M Atherton, M J Davies, 2007-10-31 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research Written by experts in their specialist fields the series creates a unique service for the active research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry For over 80 years the Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry which originally took the form of Annual Reports However by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical

Reports was born The Annual Reports themselves still existed but were divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry For more general coverage of the highlights in chemistry they remain a must Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry Some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued The current list of Specialist Periodical Reports can be seen on the inside flap of this volume

Biomolecular NMR Spectroscopy Andrew J. Dingley, A. J. Dingley, Steven M. Pascal, 2011 Nuclear Magnetic Resonance NMR spectroscopy is the most powerful technique for characterisation of biomolecular structures at atomic resolution in the solution state This timely book entitled Biomolecular NMR Spectroscopy focuses on the latest state of the art NMR techniques for characterisation of biological macromolecules in the solid and solution state The editors Dr Andrew Dingley University of Auckland New Zealand and Dr Steven Pascal Massey University New Zealand have organised the book into four sections covering the following topics i sample preparation ii structure and dynamics of proteins iii structure and dynamics of nucleic acids and protein nucleic acid complexes and iv rapid and hybrid techniques including the latest advances in NMR data acquisition and structural analysis and approaches that combine NMR data with data from complementary physical techniques The book will be a valuable resource for experienced scientists in academia government and public services and in industry It will also be suitable for newcomers and graduate students entering the field of biomolecular NMR spectroscopy

Protein Folding and Metal Ions Claudio M. Gomes, Pernilla Wittung-Stafshede, 2016-04-19 The role of metal ions in protein folding and structure is a critical topic to a range of scientists in numerous fields particularly those working in structural biology and bioinorganic chemistry those studying protein folding and disease and those involved in the molecular and cellular aspects of metals in biological systems Protein Folding and

Biomedical Index to PHS-supported Research, 1995 **Chemistry of Iron** J. Silver, 2012-12-06 This book is designed to be of use to the reader in two different ways First it is intended to provide a general introduction to all aspects of iron chemistry for readers from a variety of different scientific backgrounds It has been written at a level suitable for use by graduates and advanced undergraduates in chemistry and biochemistry and graduates in physics geology materials science metallurgy and biology It is not designed to be a dictionary of iron compounds but rather to provide each user with the necessary tools and background to pursue their individual interests in the wide areas that are influenced by the chemistry of iron To achieve this goal each chapter has been written by a contemporary expert active in the subject so that the reader will benefit from their individual insight Although it is generally assumed that the reader will have an understanding of bonding theories and general chemistry the book is well referenced so that any deficiencies in the reader's background can be addressed The book was also designed as a general reference book for initial pointers into a scientific literature that is growing steadily as the understanding and uses of this astonishingly versatile element continue to develop To meet this aim

the book attempts some coverage of all aspects of the chemistry of iron not only outlining what understanding has been achieved to date but also identifying targets to be aimed at in the future

Metalloproteins Art E. Cho, William A. Goddard III, 2015-04-17 Numerous essential biological functions involve metalloproteins therefore understanding metalloproteins and how to manipulate them is significant in the biological and medical fields An examination of current research Metalloproteins Theory Calculations and Experiments explores the interplay between theory and experiment detailing the role

Methods and Algorithms for Molecular Docking-Based Drug Design and Discovery Dastmalchi, Siavoush, Hamzeh-Mivehroud, Maryam, Sokouti, Babak, 2016-05-03 The role of technology in the medical field has resulted in significant developments within the pharmaceutical industry Computational approaches have emerged as a crucial method in further advancing drug design and development Methods and Algorithms for Molecular Docking Based Drug Design and Discovery presents emerging research on the application of computer assisted design methods for drugs emphasizing the benefits and improvements that molecular docking has caused within the pharmaceutical industry Focusing on validation methods search algorithms and scoring functions this book is a pivotal resource for professionals researchers students and practitioners in the field of theoretical and computational chemistry

Proteins—Advances in Research and Application: 2012 Edition, 2012-12-26 Proteins Advances in Research and Application 2012 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Proteins The editors have built Proteins Advances in Research and Application 2012 Edition on the vast information databases of ScholarlyNews You can expect the information about Proteins in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Proteins Advances in Research and Application 2012 Edition has been produced by the world's leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>
