Wasserman,1975 **"Sculptors and Design Reform in France, 1848 to 1895 "** Claire Jones,2017-07-05 Challenging distinctions between fine and decorative art this book begins with a critique of the Rodin scholarship to establish how the selective study of his oeuvre has limited our understanding of French nineteenth century sculpture The book s central argument is that we need to include the decorative in the study of sculpture in order to present a more accurate and comprehensive account of the practice and profession of sculpture in this period Drawing on new archival sources sculptors and objects this is the first sustained study of how and why French sculptors collaborated with state and private luxury goods manufacturers between 1848 and 1895 Organised chronologically the book identifies three historically situated frameworks through which sculptors attempted to validate themselves and their work in relation to industry industrial art decorative art and objet d art Detailed readings are offered of sculptors who operated within and outside the Salon including S n Ch t Carrier Belleuse and Rodin and of diverse objects and materials from S es vases to pewter plates by Desbois and furniture by Barbedienne and Carabin By contesting the false separation of art from industry Claire Jones s study restores the importance of the sculptor manufacturer relationship and of the decorative to the history of sculpture **The Work of Augustus Saint-Gaudens** John H. in this book The distinctive formal and technical conventions of archaic art especially Greek art particularly affected sculptors some frankly modernist others staunchly conservative and a few who like American Paul Manship negotiated the distance between tradition and modernity Susan Rather considers the theory practice and criticism of early twentieth century sculpture in order to reveal the changing meaning and significance of the archaic in the modern world To this end and against the background of Manship's career she explores such topics as the archaeological resources for archaism the classification of the non Western art of India as archaic the interest of sculptors in modern dance Isadora Duncan and Ruth St Denis and the changing critical perception of archaism Rather rejects the prevailing conception of archaism as a sterile and superficial academic style to argue its initial importance as a modernist mode of expression The early practitioners of archaism including Aristide Maillol Andr Derain and Constantin Brancusi renounced the rhetorical excess overrefined naturalism and indirect techniques of late nineteenth century sculpture in favor of nonnarrative stylized and directly carved works for which archaic Greek art offered an important example Their position found implicit support in the contemporaneous theoretical writings of Emmanuel Levy Wilhelm Worringer and Adolf von Hildebrand The perceived relationship between archaic art and tradition ultimately compromised the modernist authority of archaism and made possible its absorption by academic and reactionary forces during the 1910s By the 1920s Paul Manship was identified with archaism which had become an important element in the aesthetic of public sculpture of both democratic and totalitarian societies Sculptors often employed archaizing stylizations as ends in themselves and with the intent of evoking the foundations of a classical art diminished in potency by its ubiquity and obsolescence Such stylistic archaism was not an empty formal exercise but an urgent affirmation of traditional values under siege Concurrently archaism entered the mainstream of fashionable modernity as an ingredient in the popular and commercial style known as Art Deco Both developments fueled the condemnation of archaism and of Manship its most visible exemplar by the avant garde Rather's exploration of the critical debate over archaism finally illuminates the uncertain relationship to modernism on the part of many critics and highlights the problematic positions of sculpture in the modernist discourse
