Metamorphoses Of The Body:

Metamorphoses of the Body José Gil, 1998 Explores the relationship between power and the body This investigation of power and the body is a brilliantly original account of the nature of force as it functions in religious rituals sorcery political relations and other social domains Laying the foundation for an anthropology of forces it is crucial reading for anyone interested in how bodies and power circulate in a range of human contexts and cultures For Jose Gil the body with its capacity to translate forces into signs is the source of power Analyzing the language of mime and gestures comparing magical cures to psychiatric ones contrasting the flayed body of Kafka s In the Penal Colony with the anatomical body in Vesalius s De Humani Corporis Fabrica he develops a typology of metamorphoses of the body as they correspond to systems of signs A major intervention that marks the first appearance of Gil s work in English **Metamorphoses of the Body** gives us an entirely new way of looking at relationships between bodies forces politics and people **The Body as Medium and**

Metaphor Hannah Westley, 2008 Reconsidering the relationship between autobiography and self portraiture **The Body as Medium and Metaphor** explores the intertextuality of self representation in twentieth century French art Situating the body as the nexus of intersections between the written word and the visual image this book rethinks the problematic status of the self Starting at the twentieth century s departure from figurative and mimetic representation this study discusses the work of seminal artists and writers including Marcel Duchamp Michel Leiris Francis Bacon Bernard No l Gis le Prassinou Louise Bourgeois and Orlan to articulate the twentieth century s radical revisions of subjectivity that originated from and returned to representations of the word the image and the body This volume will be of interest to students of both French Literature and Art History particularly those who are interested in the interdisciplinary exchanges between visual arts and literature

Ovid and the Renaissance Body Goran V. Stanivukovic, 2001-01-01 This collection of original essays uses contemporary theory to examine Renaissance writers reworking of Ovid s texts in order to analyze the strategies in the construction of the early modern discourses of gender sexuality and writing **Metamorphoses** Turid Karlsen Seim, Jorunn Økland, 2009 How were ideas and experiences of transformation expressed in early Christianity and early Judaism This volume explores the social and philosophical frameworks within which transformative ideas such as resurrection and practices of becoming a new being were shaped It also explores the analogies and parameters by which transformation was being observed noted and asserted The focus on transformation helps to connect topics that tend to be studied separately such as cosmology resurrection aging gender and conversion The textual material is wide ranging and there are new readings of core passages Ideas and experiences of transformations in early Christianity and early Judaism Connects topics that tend to be studied separately cosmology resurrection aging gender conversion With wide ranging textual material **Metamorphosis** David Gallagher, 2009-01-01 The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid s *Metamorphoses* grouped roughly on an ascending evolutionary scale invertebrates birds animals and mermaids

Whilst a broad range of mythological legendary fairytale and folktale traditions have played an appreciable part Ovid's *Metamorphoses* is still an important comparative analysis and reference point for nineteenth and twentieth century German language narratives of transformations Metamorphosis is most often used as an index of crisis an existential crisis of the subject or a crisis in a society's moral social or cultural values Specifically selected texts for analysis include Jeremias Gotthelf's *Die schwarze Spinne* 1842 with the terrifying metamorphoses of Christine into a black spider the metamorphosis of Gregor Samsa in Kafka's *Die Verwandlung* 1915 ambiguous metamorphoses in E T A Hoffmann's *Der goldne Topf* 1814 Hermann Hesse's *Piktors Verwandlungen* 1925 *Der Steppenwolf* 1927 and Christoph Ransmayr's *Die letzte Welt* 1988 Other mythical metamorphoses are examined in texts by Bachmann Fouqué Fontane Goethe Nietzsche Nelly Sachs Thomas Mann and Wagner and these and many others confirm that metamorphosis is used historically scientifically for religious purposes to highlight identity sexuality a dream state or for metaphoric metonymic or allegorical reasons

The Rhetoric of the Body from Ovid to Shakespeare Lynn Enterline, 2000-05-11 This persuasive book analyses the complex often violent connections between body and voice in Ovid's *Metamorphoses* and narrative lyric and dramatic works by Petrarch Marston and Shakespeare Lynn Enterline describes the foundational yet often disruptive force that Ovidian rhetoric exerts on early modern poetry particularly on representations of the self the body and erotic life Paying close attention to the trope of the female voice in the *Metamorphoses* as well as early modern attempts at transgendered ventriloquism that are indebted to Ovid's work she argues that Ovid's rhetoric of the body profoundly challenges Renaissance representations of authorship as well as conceptions about the difference between male and female experience This vividly original book makes a vital contribution to the study of Ovid's presence in Renaissance literature

On the Corposphere José Enrique Finol, 2021-06-08 The book presents and analyzes some of the most important issues related to the body seen as a rich and complex anthropological and semiotic object capable of playing a decisive role in the meaning making processes of cultural and social life The analysis presented in this book opens a whole set of new venues for the study of body performances and representations and shows how the embodiment of social and cultural life shape our world In all of its relationships and in itself our body works in a sort of corposphere which is in turn part of the semiosphere defined by Lotman as a continuum occupied by different types of semiotic formations It is from in by the body that all semiosis begins and ends it is in its presence and absence in its being and in its presentation amidst the lived situational life where we might discover and shape the senses of the world Many different academic fields will find in this book deep insights about how the body is at the center of cultural and social processes

The Grotesque Body in Early Christian Discourse Istvan Czachesz, 2014-10-14 Early Christian apocryphal and conical documents present us with grotesque images of the human body often combining the playful and humorous with the repulsive and fearful First to third century Christian literature was shaped by the discourse around and imagery of the human body This study analyses how the iconography of bodily cruelty and visceral morality was

produced and refined from the very start of Christian history The sources range across Greek comedy Roman and Jewish demonology and metamorphosis traditions The study reveals how these images originated were adopted and were shaped to the service of a doctrinally and psychologically persuasive Christian message

Pestilence and the Body Politic in Latin Literature Hunter H. Gardner, 2019-07-11 Scientists journalists novelists and filmmakers continue to generate narratives of contagion stories shaped by a tradition of disease discourse that extends to early Greco Roman literature Lucretius Vergil and Ovid developed important conventions of the western plague narrative as a response to the breakdown of the Roman res publica in the mid first century CE and the reconstitution of stabilized government under the Augustan Principate 31 BCE 14 CE relying on the metaphoric relationship between the human body and the body politic these authors used largely fictive representations of epidemic disease to address the collapse of the social order and suggest remedies for its recovery Theorists such as Susan Sontag and Ren Girard have observed how the rhetoric of disease frequently signals social psychological or political pathologies but their observations have rarely been applied to Latin literary practices *Pestilence and the Body Politic in Latin Literature* explores how the origins and spread of outbreaks described by Roman writers enact a drama in which the concerns of the individual must be weighed against those of the collective staged in an environment signalling both reversion to a pre historic Golden Age and the devastation characteristic of a post apocalyptic landscape Such innovations in Latin literature have impacted representations as diverse as Carlo Coppola s paintings of a seventeenth century outbreak of bubonic plague in Naples and Margaret Atwood s *Maddaddam Trilogy* Understanding why Latin writers developed these tropes for articulating contagious disease and imbuing them with meaning for the collapse of the Roman body politic allows us to clarify what more recent disease discourses mean both for their creators and for the populations they afflict in contemporary media

Body Technologies in the Greco-Roman World Maria Gerolemou, Giulia Maria Chesi, 2023-11-16 A collection of papers that introduces the notion of the technosoma techno body into discussions on the representations of the body in classical antiquity By applying the category of the technosoma to the natural body this volume explicitly narrows down the discussion of the technical and the natural to the physiological body In doing so the present collection focuses on body technologies in the specific form of beautification and body enhancement techniques as well as medical and surgical treatments The volume elucidates two main points Firstly ancient techno bodies show that the categories of gender and sexuality are at the core of the intersection of the natural and the technical and intersect with notions of race age speciesism class and education and dis ability Secondly the collection argues that new body technologies have in fact a very ancient history that can help to address the challenges of contemporary technological innovation To this end the volume showcases the intersection of natural bodies with technology gender sexuality and reproduction On the one hand techno bodies tend to align with normative ideas about gender and sexuality On the other hand body modification and or enhancement techniques work hand in hand with economic and political power and knowledge thus they often produce

techno bodies that are shaped according to individual needs i.e. according to a certain lifestyle. Consequently, techno bodies threaten to alter traditional ideas of masculinity, femininity, male and female sexuality and beauty. Thinking the body as a basis, provocation and burden of life Gert Melville, Carlos Ruta, 2015-08-31. The body is at the same time a place where we express duration and or discontinuity in history, a witness of radical social changes and a factor of stabilization but also of the transformation of human life and therefore an eminent challenge for every human being. This book will contribute in a decisively interdisciplinary and cross-cultural way to a better understanding of the place, role and connection of the body within social, political and cultural shifts.

Medieval Monstrosity and the Female Body Sarah Alison Miller, 2010-07-02. Miller argues that one incarnation of monstrosity in the Middle Ages, the female body, exists in special relation to medieval conceptualizations of the monstrous. Because female corporeality is pervasive, proximate and necessary, it illustrates the supreme allure and danger of the monster, thereby highlighting the powers and problems of teratology.

Personified Body Parts in Cinema, Literature, and Visual Culture Gilad Padva, Yair Koren-Maimon, 2025-04-17. *Personified Body Parts in Cinema, Literature, and Visual Culture* investigates the power of personifying body parts in cinema, television, visual culture, literature, erotica, folklore and mystique. Culturally, socially and poetically exposing hidden aspects and subtleties of human existentialism, this book vigorously questions and problematizes numerous artistic, aesthetic, technological, naïve and macabre manipulations of body parts for various purposes. A diverse team of authors explore how scribing human traits to limbs, eyes, brains, genitalia, hearts and other inner organs is grotesque and aesthetically repelling and appealing, intimidating and intimate, rude and enjoyable, material and spiritual, surprising and mundane. Personified organs are interrelated with bodily integrity, visceral aesthetics, distorted nature, social anxiety and acceptability, cultural classifications and hierarchies and dissident innovativeness and radicalism. This interdisciplinary volume involves body studies, cinema, television and media studies, literature studies, cultural, intercultural and countercultural studies, mythology and folklore studies, gender, sexuality, trans and queer studies, ethnicities and postcolonialism and art history.

The Body in Early Modern Italy Julia L. Hairston, Walter Stephens, 2010-04. Human bodies have been represented and defined in various ways across different cultures and historical periods. As an object of interpretation and site of social interaction, the body has throughout history attracted more attention than perhaps any other element of human experience. The essays in this volume explore the manifestations of the body in Italian society from the fourteenth through the seventeenth centuries. Adopting a variety of interdisciplinary approaches, these fresh and thought-provoking essays offer original perspectives on corporeality as understood in the early modern literature, art, architecture, science and politics of Italy. An impressively diverse group of contributors comment on a broad range and variety of conceptualizations of the body, creating a rich dialogue among scholars of early modern Italy. Paul and the Citizen Body Janelle Peters ,2025-02-17 In this study Janelle Peters argues Paul s construction of an individual body and communal body in 1 Corinthians serves as an alternative to Roman and Greek models of citizenship She situates the athletics and veiling of 1 Corinthians within ancient authority and citizenship which prioritized having control over one s body and head Contrary to scholarly assumptions that these citizenship indicators would have restricted the previous freedom of all women in order to present conformity with Roman norms the author contends that the elements of bodily control Paul imposes on the Christian body construct a new citizen body that appeals to Roman and Greek notions of prestige in order to transform the experience of the Christian both in the present world and in the heavenly politeuma Unlike civic honors within Roman and Greek secular polities this citizen body is accessible to all regardless of social status A *Text-book of Chemical Physiology and Pathology* William Dobinson Halliburton,1891 *Biochemie* *Constructions of the Classical Body* James I.
