Metaphor And Material Culture

Gregory Whistance-Smith

Metaphor And Material Culture:

Metaphor and Material Culture Christopher Tilley, 1999 This book provides an innovative contribution to debates about the use of metaphor in the social sciences written by one of today's foremost archaeological theorists Christopher Tilley combines theoretical interpretation with practical examples to show the significance of the concept of metaphor in the study and writing of material forms The first part of the book provides an overview of the use and value of the notion of metaphor in its broadest sense Tilley argues that without metaphor human communication would be almost impossible and he shows how metaphors provide the basis for an interpretative understanding of the world He then presents three archaeological and ethnographic studies of metaphors chosen to demonstrate the richness of the concept for understanding texts objects and artworks Part III of the book examines metaphor more specifically in relation to the social construction of landscape and the meaning of place in the prehistoric past and the present The author concludes by developing elements of a theory of material forms as solid metaphor The book will be of interest to all those examining metaphor in its various applications

Metaphors and Analogies in Sciences and Humanities Shyam Wuppuluri, A. C. Grayling, 2022-05-30 In this highly interdisciplinary volume we systematically study the role of metaphors and analogies in shaping our understanding of the world Metaphors and Analogies occupy a prominent place in scientific discourses as they do in literature humanities and at the very level of our thinking itself But when misused they can lead us astray blinding our understanding inexorably How can metaphors aid us in our understanding of the world What role do they play in our scientific discourses and in humanities How do they help us understand and skillfully deal with our complex socio political scenarios Where is the dividing line between their use and abuse Join us as we explore some of these questions in this volume

Metaphor Wars Raymond W. Gibbs, Jr, 2017-05-04 The study of metaphor is now firmly established as a central topic within cognitive science and the humanities We marvel at the creative dexterity of gifted speakers and writers for their special talents in both thinking about certain ideas in new ways and communicating these thoughts in vivid poetic forms Yet metaphors may not only be special communicative devices but a fundamental part of everyday cognition in the form of conceptual metaphors An enormous body of empirical evidence from cognitive linguistics and related disciplines has emerged detailing how conceptual metaphors underlie significant aspects of language thought cultural and expressive action Despite its influence and popularity there have been major criticisms of conceptual metaphor This book offers an evaluation of the arguments and empirical evidence for and against conceptual metaphors much of which scholars on both sides of the wars fail to properly acknowledge

Visual Metaphors and Aesthetics Michalle Gal, 2022-05-19 This book offers a new definition of metaphor as an ontological and visual construction whose roots are external visual forms and its motivation is our attachment to forms This definition which Michalle Gal names visualist challenges the ruling conceptualist theory of metaphors and places a new emphasis on how we experience rather than understand metaphors In doing so she responds to

the visual turn that is taking place in literature and the media demanding that the visual become a site of philosophical analysis This focus on the external visual world allows Gal to employ visual theories to capture the essence of metaphor She looks beyond conceptual or semantic mechanism and returns to theories of Arnheim and Gombrich and the current evolution of ideas about the visual or material and embodied cognition Proposing to see visual metaphors in their basic form she uses a new externalist terminology of ontology visuality composition affordance construction and emergence Setting out a new theory that takes into account that humans are visual no less than cognitive creatures Visual Metaphors and Aesthetics lays the foundation for a new vocabulary to talk about metaphors

The Oxford Handbook of History and Material Culture

Ivan Gaskell, Sarah Anne Carter, 2020-04-07 Most historians rely principally on written sources Yet there are other traces of the past available to historians the material things that people have chosen made and used This book examines how material culture can enhance historians understanding of the past both worldwide and across time The successful use of material culture in history depends on treating material things of many kinds not as illustrations but as primary evidence Each kind of material thing and there are many requires the application of interpretive skills appropriate to it These skills overlap with those acquired by scholars in disciplines that may about history but are often relatively unfamiliar to historians including anthropology archaeology and art history Creative historians can adapt and apply the same skills they honed while studying more traditional text based documents even as they borrow methods from these fields They can think through familiar historical problems in new ways They can also deploy material culture to discover the pasts of constituencies who have left few or no traces in written records The authors of this volume contribute case studies arranged thematically in six sections that respectively address the relationship of history and material culture to cognition technology the symbolic social distinction and memory They range across time and space from Paleolithic to Punk

Bodies of Maize, Eaters of Grain: Comparing material worlds, metaphor and the agency of art in the Preclassic Maya and Mycenaean early civilisations

Marcus Jan Bajema, 2017-09-30 This book offers a comparative study of the civilisations of the Late Preclassic lowland Maya and Mycenaean Greece The approach used here seeks to combine traditional iconographic approaches with more recent models on metaphor and the social agency of things

Mind as Metaphor Adam Toon, 2023 Mind as Metaphor shows that mental fictionalism can make sense of our concept of mind avoiding the difficulties faced by alternative approaches such as behaviourism or instrumentalism Adam Toon sheds light on a range of issues from the mind s capacity to represent the world to the way in which new practices expand the limits of inquiry

The Archaeology of Contextual Meanings Ian Hodder, 1987-08-06 This companion volume to Archaeology as Long term History focuses on the symbolism of artefacts It seeks at once to refine the theory and method relating to interpretation and show with examples how to conduct this sort of archaeological work Some contributors work with the material culture of modern times or the historic period areas in which the symbolism of mute artefacts has traditionally been thought most accessible However the book also

contains a good number of applications in prehistory to demonstrate the feasibility of symbolic interpretation where good contextual data survive from the distant past In relation to wider debates within the social sciences the volume is characterised by a concern to place abstract symbolic codes within their historical context and within the contexts of social actions In this respect it develops further some of the ideas presented in Dr Hodder's *Symbolic and Structural Archaeology* an earlier volume in this series

Metaphor and Metonymy across Time and Cultures Javier E. Díaz-Vera, 2014-12-11 This volume offers new insights into figurative language and its pervasive role as a factor of linguistic change The case studies included in this book explore some of the different ways new metaphoric and metonymic expressions emerge and spread among speech communities and how these changes can be related to the need to encode ongoing social and cultural processes in the language They cover a wide series of languages and historical stages

They Came to Stay Yvonne Brink, 2008-07-01 Massive brickwork resulting in a towering gable hollowing out a hillside in order to achieve a T plan adding a whole new T to the front of an old one in order to avoid ending up with a crooked H plan what did these owners have in mind when investing so much time energy and money in remodelling their farm dwellings to make them comply with certain set patterns The aim of this book is to find answers to this and a number of related questions in an endeavour to discover meaning in Cape colonial architecture through methods that involve more than relying on the study of archival documents only

Marketing Technologies Elena Simakova, 2013-05-07 Global corporations initiate join and maintain socio technological change and hence alter the ways in which we organize our lives Demanding significant investment of resources and time the development and implementation of new technologies on different levels must take into consideration these subtle processes As such it is particularly important that we have a greater insight into the practices of hi tech corporations in view of the often inflated promises of and concerns about the destiny of technological breakthroughs especially those promising sizeable economic outcomes and societal transformation Elena Simakova undertook a lengthy ethnographic study working alongside marketing managers in a global IT corporation in their Europe Middle East and Africa EMEA headquarters in the UK Using the experience gained through a close participation in their everyday corporate rituals and routines her account challenges common perceptions of how corporations make the world think and act with regard to technologies in particular ways The book contains an interesting case study on the launch of a radio frequency identification RFID based solution Unravelling the construction of expectations inclusions and exclusions around emerging technologies this reflexive account also tackles uneasy practical and methodological questions pertinent to corporate ethnography This book is an essential read for scholars in science and technology studies economic sociology anthropology as well as management and organizational studies and research policy

Interpreting Archaeology Alexandra Alexandri, Victor Buchli, John Carman, Ian Hodder, Jonathan Last, Gavin Lucas, Michael Shanks, 2013-11-19 This volume provides a forum for debate between varied approaches to the past The authors drawn from Europe North America Asia and Australasia represent many different strands

of archaeology They address the philosophical issues involved in interpretation and a desire among archaeologists to come to terms with their own subjective approaches to the material they study a recognition of how past researchers have also imposed their own value systems on the evidence which they presented Archaeological Semiotics Robert W. Preucel, 2010-04-26 This interdisciplinary book examines archaeology's engagement with semiotics from its early structuralist beginnings to its more recent Peircian encounters It represents the first sustained engagement with Peircian semiotics in archaeology as well as the first discussion of how pragmatic anthropology articulates with anthropological archaeology Its central thesis is that archaeology is a distinctive kind of semiotic enterprise one devoted to giving meaning to the past in the present through the study of materiality It compliments standard studies of linguistics and reformulates contemporary theories of material culture Providing an introduction to Saussure and a review of his legacy across structural symbolic and cognitive anthropology Preucel goes on to present the Peircian alternative and highlights its influence on pragmatic anthropology Of special interest are the discussions of the interrelations of structuralism and processual archaeology poststructuralism and postprocessual archaeologies and cognitive science and cognitive archaeology The author offers two original case studies demonstrating how material culture pragmatically mediates social relations one focusing on the aftermath of the Pueblo Revolt from 1680-1694 and the other on the New England utopian community of Brook Farm from 1842-1846 Throughout his analysis Preucel emphasizes the close links between archaeology and other social sciences But he also contends that archaeology by virtue of the powerful ideological character of the past can open up new spaces for discourse and dialogue about meaning and in the process make a valuable contribution to contemporary semiotics

Expressive Space Gregory Whistance-Smith, 2022-01-19 Video game spaces have vastly expanded the built environment offering new worlds to explore and inhabit Like buildings cities and gardens before them these virtual environments express meaning and communicate ideas and affects through the spatial experiences they afford Drawing on the emerging field of embodied cognition this book explores the dynamic interplay between mind body and environment that sits at the heart of spatial communication To capture the wide diversity of forms that spatial expression can take the book builds a comparative analysis of twelve video games across four types of space spanning ones designed for exploration and inhabitation kinetic enjoyment enacting a situated role and enhancing perception Together these diverse virtual environments suggest the many ways that video games enhance and extend our embodied lives **Judaism in Late Antiquity 3. Where we Stand: Issues and Debates in Ancient Judaism** Alan Avery-Peck, Jacob Neusner, 2015-11-02 What in Judaism a religion so concerned with social norms and public policy can we possibly mean by law That is the thoroughly fresh perspective with which this work commences It proceeds with two chapters on Second Temple Judaism and two on the special subject of the Dead Sea library Learning withers when criticism is substituted by political consensus and when other than broadly accepted viewpoints find a hearing only with difficulty if at all The editors therefore invited colleagues from the USA Europe and Israel to systematically

outline their views in one account and set it alongside contrary ones The several participants explain how in broad and sweeping terms they see the state of learning in their areas of special interest The volume provides first an overview followed by a systematic critical account of the fading consensus In a number of accounts the different perspectives are presented in scholarly debate Because of the willingness of contending parties to meet one another in a single frame of discourse the work is able to portray with considerable breadth the presently contending viewpoints concerning the use of Rabbinical literature for historical purposes Besides this sustained and vigorous debate precipitated by historical critical reading of the rabbinical literature other issues have attracted attention such as for example feminist interests Judaism in Late Antiquity Alan J.

Avery-Peck, Jacob Neusner, 2000-11-01 What in Judaism is meant by law is the fresh perspective in which this work is presented The volume provides first an overview followed by a systematic critical account of the fading consensus In a number of accounts the different perspectives are presented in scholarly debate **An Ethnography of the Neolithic** Christopher Tilley, 2003-10-30 Archaeological research in Sweden and Denmark has uncovered a startling array of evidence over the last 150 years but until now there has been no comprehensive synthesis and interpretation of the material An Ethnography of the Neolithic bridges this gap giving an accessible and up to date analysis of a wide range of evidence from landscapes to monumental tombs to portable artifacts Christopher Tilley also uses this material as a basis for a provocative and novel reconstruction of late Mesolithic and earlier Neolithic societies in southern Scandinavia over a period of 3 000 years His skilful integration of archaeological evidence with new anthropological approaches makes this book an original contribution to an important topic whose significance stretches outside Scandinavia and beyond the Neolithic **Judaism in Late Antiquity** Jacob Neusner, Alan Jeffery Avery-Peck, Bruce D. Chilton, 2001 Jacob Neusner vols 1 2 and 3 and his colleagues Alan Avery Peck vol 2 and Bruce Chilton vol 3 have assembled a stellar team of scholars in producing what has already become an essential reference work for the study of Judaism in Late Antiquity Originally written in nine separate volumes Judaism in Late Antiquity now appears unabridged in three The entire work seeks to offer readers both a broad perspective on the shape of Judaism while also opening the way to understanding unique issues Editors Neusner Avery Peck and Chilton must be commended for this generous gift both to the scholarly guild and to the general reader looking for a thought provoking overview of the central academic conversations Judaism in Late Antiquity I II III is also available in hardback Neanderthal Lifeways, Subsistence and Technology Nicholas J. Conard, Jürgen Richter, 2011-02-11 The 150th anniversary of the discovery of the famous Neanderthal fossils gave reason for an international and interdisciplinary symposium in Bonn Germany The present book arose from this congress and focuses on multiple aspects of archaeological investigation on Neanderthal lifeways In depth studies of top ranking scientists provide a detailed and comprehensive survey of contemporary research on our Pleistocene relatives Examinations and debates are embedded in a variety of regions and time frames Chronology subsistence land use and cultural adaptations among late Neanderthals form the major trajectories

of the book The wide range of approaches involved leads to an increasing understanding of the facets of and the variability of Neanderthal behavioural patterns The present volume is complemented by a paleontologically orientated publication of the same congress edited by Gerd Christian Weniger and Silvana Condemi **Early Human Kinship** Nicholas J. Allen, Hilary Callan, Robin Dunbar, Wendy James, 2011-01-04 Early Human Kinship brings together original studies from leading figures in the biological sciences social anthropology archaeology and linguistics to provide a major breakthrough in the debate over human evolution and the nature of society A major new collaboration between specialists across the range of the human sciences including evolutionary biology and psychology social cultural anthropology archaeology and linguistics Provides a ground breaking set of original studies offering a new perspective on early human history Debates fundamental questions about early human society Was there a connection between the beginnings of language and the beginnings of organized kinship and marriage How far did evolutionary selection favor gender and generation as principles for regulating social relations Sponsored by the Royal Anthropological Institute of Great Britain and Ireland in conjunction with the British Academy
