Finding Metaphor in Grammar and Usage Gerard Steen, 2007 Cognitive linguists have proposed that metaphor is not just a matter of language but of thought and that metaphorical thought displays a high degree of conventionalization In order to produce converging evidence for this theory of metaphor a wide range of data is currently being studied with a large array of methods and techniques *Finding Metaphor in Grammar and Usage* aims to map the field of this development in theory and research from a methodological perspective It raises the question when exactly evidence for metaphor in language and thought can be said to count as converging It also goes into the various stages of producing such evidence conceptualization operationalization data collection and analysis and interpretation The book offers systematic discussion of eight distinct areas of metaphor research that emerge as a result of approaching metaphor as part of grammar or usage language or thought and symbolic structure or cognitive process

Cuyckens,2003-01-01 Topics covered in this volume include extreme subjectification English tense and modals schemas and lexical blends valency and diathesis functions of the preposition kuom in Dholou and grammaticalization of postpositions in German Routledge Encyclopedia of Narrative Theory David Herman,Manfred Jahn,Marie-Laure Ryan,2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource *Specialized Communication* Thorsten Roelcke,Ruth Breeze,Jan Engberg,2025-06-02 Specialized communication in science technology or institutions is one of the most important and exciting fields of applied linguistics The handbook captures the current and relevant knowledge of specialized languages and professional communication It promotes international communication on central issues where dialogue is urgently needed concerning both their intellectual underpinning and the day to day practices associated with them *Metaphor in Specialist Discourse* J. Berenike Herrmann,Tony Berber Sardinha,2015-12-15 Metaphor in Specialist Discourse presents multiple perspectives on metaphor use in specialist and popularized discourse contexts Using genre and register as starting parameters for deeper exploration and pushing the boundaries further to open up new areas and possibilities ten independent articles investigate metaphor use across a range of specialist domains of discourse such as biology research articles psychological counseling soccer commentaries workfloor communication and penal policy documents Framed by two theoretical chapters the book is a contribution to the study of metaphor use in distinct discourse settings that will be of value to linguists and metaphor scholars of different persuasions graduate students of linguistics and related disciplines and practitioners of specialized areas with an interest in verbal or gestural language use in their areas of expertise It shows that aspects of discourse variation are the beginning of not an afterthought to accurate empirical metaphor studies *Multimodal Metaphor* Charles Forceville,Eduardo Urios-Aparisi,2009 Metaphor pervades discourse and may govern how we think and act But most studies only discuss its verbal varieties This book examines metaphors drawing on combinations of visuals language gestures sound and music Investigated texts include ad Change of Paradigms - New Paradoxes Jocelyne Daems,Eline Zenner,Kris Heylen,Dirk Speelman,Hubert Cuyckens,2015-10-16 In Paradigm and Paradox Dirk Geeraerts formulated many of the basic tenets that were to form what Cognitive Linguistics is

today Change of Paradigms New Paradoxes links back to this seminal work exploring which of the original theories and ideas still stand strong which new questions have arisen and which ensuing new paradoxes need to be addressed It thus reveals how Cognitive Linguistics has developed and diversified over the past decades Chinese Lexical Semantics Minghui Dong, Jia-Fei Hong, Jingxia Lin, Peng Jin, 2024-02-27 This book constitutes the refereed proceedings of the 24th Workshop on Chinese Lexical Semantics CLSW 2023 held in Singapore during May 19 21 2023 The 61 full papers and 15 short papers included in this book were carefully reviewed and selected from 215 submissions They are organized in the following topical sections lexical semantics and related fields including Theoretical Linguistics Applied Linguistics Computational Linguistics Computational Lexicography Psychological Linguistics and Sociological linguistics Perspectives on Prepositions Hubert Cuyckens, Günter Radden, 2013-07-31 In the past two decades the study of prepositions has grown steadily The papers collected in this volume bring together the multifaceted perspectives on prepositions that have been developed in contemporary linguistics Some papers mainly discuss syntactic and morphological aspects of prepositions other papers predominantly focus on cognitive aspects All the papers are however concerned with the semantics of prepositions This volume evolved from a workshop on prepositions held at Hamburg University on June 26 and 27 1998 **Metaphor and Writing** Philip Eubanks, 2010-11-04 This volume explains how metaphors metonymies and other figures of thought interact cognitively and rhetorically to tell us what writing is and what it should do Drawing on interviews with writing professionals and published commentary about writing it argues that our everyday metaphors and metonymies for writing are part of a figurative rhetoric of writing a pattern of discourse and thought that includes ways we categorize writers and writing stories we tell about people who write conceptual metaphors and metonymies used both to describe and to guide writing and familiar yet surprisingly adaptable conceptual blends used routinely for imagining writing situations The book will give scholars a fresh understanding of concepts such as voice self clarity power and the most basic figure of all the writer

Visual Metaphor and Embodiment in Graphic Illness Narratives Elisabeth El Refaie, 2019 Metaphors help us understand abstract concepts emotions and social relations through the concrete experience of our own bodies Conceptual Metaphor Theory CMT which dominates the field of contemporary metaphor studies is centered on this claim According to this theory correlations in the way the world is perceived in early childhood e.g. happy good is up understanding is seeing persist in our conceptual system influencing our thoughts throughout life at a mostly unconscious level What happens though when ordinary embodied experience is disrupted by illness In this book Elisabeth El Refaie explores how metaphors change according to our body's alteration due to disease She analyzes visual metaphor in thirty-five graphic illness narratives book-length stories about disease in the comics medium re-examining embodiment in traditional CMT and proposing the notion of dynamic embodiment Building on recent strands of research within CMT and engaging relevant concepts from phenomenology psychology semiotics and media studies El Refaie demonstrates how the experience of our own bodies is

constantly adjusting to changes in our individual states of health socio cultural practices and the modes and media by which we communicate This fundamentally interdisciplinary work also proposes a novel classification system of visual metaphor based on a three way distinction between pictorial spatial and stylistic metaphors This approach will enable readers to advance knowledge and understanding of phenomena involved in shaping our everyday thoughts interactions and behavior

Toward a Motivation Model of Pragmatics Rong Chen, 2022-07-18 With the discursive turn has come a distrust a complete rejection by some of theories that seek deeper reasons for surface phenomena Rong Chen argues that this distrust with its accompanying overemphasis on specificity and fluidity of linguistic meaning and social values is unwarranted and unhelpful Drawing on insights from social theories and various strands of pragmatics he proposes a motivation model of pragmatics MMP contending that language use can be adequately coherently and elegantly studied via the motivation behind it in its varied and dynamic contexts The model with its well laid out components is then applied to im politeness research cross cultural pragmatics diachronic pragmatics discourse and genre analysis conversation analysis identity construction and the study of metaphor sarcasm parody and lying MMP is thus a framework aimed at accounting for fluidity with stable notions specificity with general principles and differences with similar underlying factors As such the book should appeal to students of pragmatics im politeness conversation analysis sociolinguistics applied linguistics communication sociology and psychology
