Metaphor ,1985-01-01 The aim of the present bibliography is to provide the student of metaphor with an up to date and comprehensive albeit not exhaustive overview of recent publications dealing with various aspects of metaphor in a variety of disciplines Where the emphasis is primarily on specific works about metaphor mainly in philosophy linguistics and psychology the list has been supplemented with references to studies where metaphor is explicitly recognized as an instrument of research or analysis e g in literature or in the elaboration of scientific and religious models or where its use is illustrated Metaphor, and Related Subjects Owen Paul Thomas,1969 *Metaphor* Jeffery S. Mio,Albert N.

Katz,2018-10-24 Research on metaphor has been dominated by Aristotelian questions of processes in metaphor understanding Although this area is important it leaves unasked Platonic questions of how structures of the mind affect such processes Moreover there has been relatively little work on how metaphors affect human behavior Although there are numerous postdictive or speculative accounts of the power of metaphors to affect human behavior in particular areas such as clinical or political arenas empirical verification of these accounts has been sparse To fill this void the editors have compiled this work dedicated to empirical examination of how metaphors affect human behavior and understanding The book is divided into four sections metaphor and pragmatics clinical uses of metaphor metaphor and politics and other applications of metaphor Chapters contained within these sections attempt to merge Aristotelian questions with Platonic ones **Way**

Metaphors and Way Topics in Isaiah 40-55 Øystein Lund,2007 Oystein Lund gives a new approach to texts in Isaiah 40 55 that deal with ways and desert transformation Earlier exegesis has mainly read these texts in a literal way In recent years exegetes have pointed out that the so called exodus texts should rather be interpreted metaphorically The author supports this and accordingly seeks to continue this discourse by systematizing intensifying and deepening the argumentation for a metaphorical reading He argues that most of the way texts in Isaiah 40 55 are interrelated and gradually contribute to explore questions regarding the way situation of the people The way theme appears in the prologue and in 40 27 a problem approach is established when the people is addressed How can you say O Jacob and speak O Israel My way is hidden from the LORD and my right passes by my God Several subsequent way texts are related to this text and together these draw a coherent picture in which the problematic way situation of the people in the past and present is transformed JHWH establishes new ways in which he leads his people through their difficult landscape Oystein Lund argues that such a coherent reading of the way texts gives good meaning which is consistent with the over all message of Isaiah 40 55 **Metaphor,**

Metonymy, and Experientialist Philosophy Verena Haser,2011-12-22 The present book provides a detailed criticism of experientialist semantics focusing both on philosophical issues connected with experientialism and on cognitive approaches to metaphor and metonymy Particular emphasis is placed on the works of George Lakoff and Mark Johnson but other cognitivists are also taken into consideration Verena Haser proposes a new approach to the distinction between metaphor

and metonymy which contrasts with familiar cognitivist models but also builds on some insights gained in cognitivist research She also offers an account of metaphorical transfer which dispenses with the notion of conceptual metaphors in the sense of Lakoff and Johnson She argues that conceptual metaphors are not a useful construct for explaining metaphorical transfer and that the clustering of metaphorical expressions is better accounted for in terms of family resemblances between metaphorical expressions Another major goal of this work is a reassessment of the relationship between experientialism and traditional Western philosophy often subsumed under the vague term objectivism This book contrasts with most other critical approaches to experientialism by providing close readings of key passages from the works of Lakoff and Johnson which enables the author to pinpoint theory internal inconsistencies and other shortcomings not noted in previous publications This book will be relevant to students and scholars interested in semantics and cognitive linguistics and also in psychology and philosophy of language

Metaphor and Intercultural Communication Andreas Musolff, Fiona MacArthur, Giulio Pagani, 2014-05-20 Metaphor and Intercultural Communication examines in detail the dynamics of metaphor in interlingual contact translation and globalization processes Its case studies which combine methods of cognitive metaphor theory with those of corpus based and discourse oriented research cover contact linguistic and cultural contacts between Chinese English including Translational English and Aboriginal English Greek Kabyle Romanian Russian Serbian and Spanish Part I introduces readers to practical and methodological problems of the intercultural transfer of metaphor through empirical corpus based and experimental studies of translators experiences and strategies in dealing with figurative language in a variety of contexts Part II explores the universality relativity dimension of cross and intercultural metaphor on the basis of empirical data from various European and non European cultures Part III investigates the socio economic and political consequences of figurative language use through case studies of communication between aboriginal and mainstream cultures in the media in political discourse and gender related discourses Special attention is paid to cases of miscommunication and of deliberate re and counter conceptualisation of clichés from one culture into another The results open new perspectives on some of the basic assumptions of the classic cognitive paradigm e.g. regarding metaphor understanding linguistic relativity and concept construction

Metaphors and Action Schemes Robert L. Schwarz, 1997 All our abstract ideas are based on metaphors and action schemes Jean Piaget did voluminous research on how thought develops in children through assimilation of action schemes George Lakoff and Mark Johnson have done pioneering work on metaphors and action schemes in everyday thinking This book builds on those foundations looking at the role played by metaphors and action schemes in the history of ideas The author begins his argument by taking a critical look at the philosophy of metaphor from Aristotle to the present While he sees metaphor as simply conceiving one thing in terms of another he points out that this is an inexhaustible process because the context in which the process takes place is always changing Change opens up new possibilities of similarity Thus the metaphor is an open door into a space of infinite possibilities

FARJAMI,2023-01-25 Kierkegaard's Metaphors Jamie Lorentzen,2001 Kierkegaard's Metaphors offers an explanation of a more accessible way to understand Kierkegaard by analyzing his persistent use of metaphors **Optimality-theoretic Syntax, Semantics, and Pragmatics** Géraldine Legendre,Michael T. Putnam,Henriëtte de Swart,Erin Zaroukian,2016 This book investigates the morphosyntactic semantic and pragmatic properties of language and the interactions between them from the perspective of Optimality Theory It integrates optimization processes into the formal and functional study of grammar interpreting optimization as the result of conflicting violable ranked constraints Unlike previous work on the topic this book also takes into account the question of directionality of grammar A model of grammar in which optimization processes interact bidirectionally allows both language generation the process of selecting the optimal form of a given meaning and language interpretation the process of optimal interpretation of a given form to be taken into account Chapters in this volume explore the consequences of both symmetric unidirectional and asymmetric bidirectional versions of Optimality Theory investigating the syntax semantics interface first language acquisition and sequential bilingual grammars The volume presents cutting edge research in Optimality Theoretic syntax and semantics as well as demonstrating how optimization processes as modelled in this formalism serve as a viable approach for linguists and scholars in related fields

Metaphor in Use Fiona MacArthur,José Luis Oncins-Martínez,Manuel Sánchez-García,Ana María Piquer-Píriz,2012-10-17 Metaphor is a fascinating phenomenon but it is also complex and multi faceted varying in how it is manifested in different modes of expression languages cultures or time scales How then can we reliably identify metaphors in different contexts How does the language or culture of speakers and hearers affect the way metaphors are produced or interpreted Are the methods employed to explore metaphors in one context applicable in others The sixteen chapters that make up this volume offer not only detailed studies of the situated use of metaphor in language gesture and visuals around the world providing important insights into the different factors that produce variation but also careful explication and discussion of the methodological issues that arise when researchers approach metaphor in diverse real world contexts The book constitutes an important contribution to applied metaphor studies and will prove an invaluable resource for the novice and experienced metaphor researcher alike **Consumable Metaphors** Ceri Crossley,2005 This book studies the various definitions of animal nature proposed by nineteenth century currents of thought in France It is based on an examination of a number of key thinkers and writers some well known for example Michelet and Lamartine others largely forgotten for example Gleizes and Reynaud At the centre of the book lies the idea that knowledge of animals is often knowledge of something else that the primary referentiality is overlaid with additional levels of meaning In nineteenth century France thinking about animals their future and their past became a way of thinking about power relations in society for example about the status of women and the problem of the labouring classes This book analyses how animals as symbols externalize

and mythologize human fears and wishes but it also demonstrates that animals have an existence in and for themselves and are not simply useful counters functioning within discourse

Knowledge Representation and Metaphor E. Cornell Way, 1991-03-31 This series will include monographs and collections of studies devoted to the investigation and exploration of knowledge information and data processing systems of all kinds no matter whether human other animal or machine Its scope is intended to span the full range of interests from classical problems in the philosophy of mind and philosophical psychology through issues in cognitive psychology and sociobiology concerning the mental capabilities of other species to ideas related to artificial intelligence and computer science While primary emphasis will be placed upon theoretical conceptual and epistemological aspects of these problems and domains empirical experimental and methodological studies will also appear from time to time The problems posed by metaphor and analogy are among the most challenging that confront the field of knowledge representation In this study Eileen Way has drawn upon the combined resources of philosophy psychology and computer science in developing a systematic and illuminating theoretical framework for understanding metaphors and analogies While her work provides solutions to difficult problems of knowledge representation it goes much further by investigating some of the most important philosophical assumptions that prevail within artificial intelligence today By exposing the limitations inherent in the assumption that languages are both literal and truth functional she has advanced our grasp of the nature of language itself J R F

Sexual and Marital Metaphors in Hosea, Jeremiah, Isaiah, and Ezekiel Sharon Moughtin-Mumby, 2008-06-05 Sharon Moughtin Mumby considers the often unrecognised impact of different approaches to metaphor on readings of the prophetic sexual and marital metaphorical language She outlines a practical and consciously simplified approach to metaphor placing strong emphasis on the influence of literary context on metaphorical meaning Drawing on this approach she read Hosea 4 14 Jeremiah 2 1 4 4 Isaiah Ezekiel 16 and 23 and Hosea 1 3 with fresh eyes Her lucid new readings reveal the way in which scholarship has repeatedly stifled the prophetic metaphorical language

by reading it within the default contexts of the marriage metaphor and cultic prostitution which for so many years have been simply assumed Readers are encouraged instead to read these diverse metaphors and similes within their distinctive literary contexts in which they have the potential to rise vividly to life provoking the question how are we to respond to these disquieting powerful texts in the midst of the Hebrew Bible

Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives

Ilaria Rizzato, Valentina Cuccio,Aletta Gesina Dorst,2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios

The Pauline Metaphors of the Holy Spirit

Erik Konsmo,2010 In the Pauline literature of the New Testament the characteristics of the Spirit and Christian life are described through the use of metaphor An interpreter of Paul must understand his metaphors in order to arrive at a complete understanding of the Pauline pneumatological perspective Thus The Pauline Metaphors of the Holy Spirit examines how the

Pauline Spirit metaphors express the intangible Spirit's tangible presence in the life of the Christian Rhetoricians prior to and contemporary with Paul. This book discusses the appropriate usage of metaphor. Aristotle's thoughts provided the foundation from which these rhetoricians framed their arguments. In this context, *The Pauline Metaphors* surveys the use of metaphor in the Greco-Roman world during the NT period and also studies modern approaches to metaphor. The modern linguistic theories of substitution, comparison, and verbal opposition are offered as representative examples, as well as the conceptual theories of interaction, cognitive linguistics, and the approach of Zoltán Kövecses. In examining these metaphors, it is important to understand their systematic and coherent attributes. These can be divided into structural, orientational, and ontological characteristics, which are rooted in the conceptual approach of metaphor asserted by George Lakoff and Mark Johnson. This book evaluates these characteristics against each of the Pauline Spirit metaphors.
