A Guide to Self-Help Workbooks for Mental Health Clinicians and Researchers Luciano L'Abate, 2014-01-14. Never has the need for a compendium of self-help workbooks been so great. From the founder of the world's first PhD program in Family Psychology comes an extensive guide to nearly all of the mental health workbooks published through 2002. Each self-help workbook is reviewed according to specific criteria: contents, structure, specificity, goal level of abstraction, a subjective evaluation. Usually concludes the review of the workbook. *A Guide to Self-Help Workbooks for Mental Health Clinicians and Researchers* also includes an in-depth introduction discussing the need for workbooks in mental health practices, indices for subject as well as author, an address list of the publishing houses for the workbooks, annotated in the bibliography, an Informed Consent Form to verify compliance with ethical and professional regulations before administering a workbook to a client. *A Guide to Self-Help Workbooks for Mental Health Clinicians and Researchers* offers you a complete resource to self-help workbooks for all mental health subjects. Dr. L'Abate's highly selective review process helps you find exactly what you need.
