Metaphors Of Light:

The Elemental Dialectic of Light and Darkness Anna-Teresa Tymieniecka, 2013-04-17 The dialectic of light and darkness studied in this collection of essays reveals itself as a primal factor of life as well as the essential element of the specifically human world From its borderline position between physis and psyche natural growth and techne bios and ethos it functions as the essential factor in all the sectors of life at large We see its crucial role in all sectors of life while prompted by man s creative imagination it enhances and spurs his vital as well as societal and spiritual life This rare collection contains studies by Thomas Ryba Krystina G rniak Kocikowska Lois Oppenheim Sydney Feshback Eldon van Lieve Sitansu Ray Theodore Litman Peter Morgan Colette Michael Christopher Lalonde L Findlay Christopher Eykman Beverly Schlack Randles Jorge Garc a G mez William Haney Sherilyn Abdoo David Brottman Alan Pratt Hans Rudnick George Scheper Freema Gottlieb Marlies Kronegger **Textures of Light** Cathryn Vasseleu, 2002-01-31 Textures of Light draws on the work of Luce Irigaray Maurice Merleau Ponty and Emmanuel Levinas to present an outstanding and ground breaking study of the vital importance of light in Western thought Since Plato s allegory of the cave light and the role of sight have been accorded a unique position in Western thought They have stood as a metaphor for truth and objectivity and the very axis of modern rationalism More recently however this status has come under significant criticism from continental and feminist thought which has stressed the privileging of subjectivity and masculinity in such a metaphor Preaching Types & Metaphors (Keach) Benjamin Keach, Introduction by Herbert W Lockyer An exhaustive analysis of the significance of each type and metaphor and the practical application they offer us today **Corpus Approaches to Critical Metaphor Analysis** Jonathan Charteris-Black, 2004-02-17 In a stimulating and novel approach this book explains why metaphors are persuasive suggesting that they are ideologically effective because they are cognitively plausible and evoke an emotional response Critical Metaphor Analysis is then developed in a series of corpus based studies in which analysis of collocations provides insight into the cognitive motivation and expressive connotation of metaphor By unifying traditional and cognitive semantic with pragmatic approaches the reader becomes aware of the importance of metaphor in persuasive language Metonymies and Metaphors for Death Around the World Wojciech Wachowski, Karen Sullivan, 2021-11-29 This book reflects on the ways in which metonymy and metaphor are used conceptually and linguistically to mitigate the more difficult dimensions of death and dying setting out a unique line of research within Conceptual Metaphor Theory The volume argues that metonymic and metaphoric descriptions of death and dying reflect taboos concealment and other considerations not found in figurative descriptions of life producing distinct forms of euphemism frames and mental spaces particular to conceptualizations of death The first part takes a closer look at metonymy to illuminate the ways in which it allows a person to zoom in on death s more inoffensive dimensions or zoom out from its more troubling aspects The second part focuses on the more palatable concepts which metaphorically structure and help to better understand death A wide range of classical and modern examples

from European Asian Australian and African languages and cultures showcase points of overlap and divergence Opening up new lines of inquiry into research on death and dying and offering a linguistically focused complement to anthropological and religious studies on the topic this book will be of interest to scholars in cognitive linguistics sociolinguistics cross cultural communication and cultural studies

The Void and the Metaphors Yasunori Sugimura,2008 This book aims to revise the traditional interpretation of William Golding s fiction The author investigates Golding s complicated metaphors which fluctuate so widely as to make consistent readings almost impossible The study reveals that these fluctuating metaphors are created around a void which is depicted not only as a gap but also as an impenetrable dark spot or a counter gaze The characters in Golding s fiction endeavour to symbolise the void but it ultimately resists symbolisation Mainly from the perspective of semiotics psychoanalysis and philosophy the book looks at the way in which the elements excluded from the symbolic system react against it and leave this void The author then focuses on the void s significance in the creation of unique metaphors

Aspects of Metaphor in Physics Hanna Pulaczewska,2011-05-03 With reference to copious case studies this book attempts to give a broad and comprehensive view of the multiplicity of forms taken by metaphor in physics A diachronic presentation of the views hitherto advanced on the role of metaphor in the natural sciences provides an introduction to the crucial issues By means of a broad definition of metaphor as a lexical semantic and conceptual phenomenon metaphor is identified at various levels of physics discourse in metatheory and methodology in the sociology of the origin and evolution of science in theory and conceptualization including physics models in education and finally in linguistic expression including terminology Whereas historians and theoreticians of science reduce the question of metaphor in physics to the question of the role of scientific models where one area of physics provides concepts and structures for another area the perspective adopted here is that of cognitive semantics The study inquires into the way in which concept formation and terminology in physics avails itself of the metaphoric bent immanent in everyday language conceptualizing abstract ideas in spatial terms inanimate things as intelligent measurable phenomena in terms of the visual Attention is also given to the way in which metaphoric processes make it possible to integrate new knowledge into old and sometimes obsolete structures rather than eliminating those structures altogether

The Moral Metaphor System Ning Yu,2022 This book uses conceptual metaphor theory to explore moral metaphors in English and Chinese Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language and explores the potential commonalities that define moral cognition and the differences that characterize distinct cultures

Tropologia; a key to open Scripture metaphors, etc Benjamin KEACH,1855 *The Metaphorical Use of Language in Deuterocanonical and Cognate Literature* Markus Witte,Sven Behnke,2014-12-17 Metaphors are a vital linguistic component of religious speech and serve as a cultural indicator of how groups understand themselves and the world The essays compiled in this volume analyze the use function and structure of metaphors in Jewish writings from the Hellenistic Roman period including the

works of Philo and the texts of Qumran as well as in apocryphal early Christian texts and inscriptions **Mapping**

Metaphorical Discourse in the Fourth Gospel Beth M. Stovell, 2012-06-07 In *Mapping Metaphorical Discourse in the Fourth Gospel* Beth M Stovell examines the metaphor of Jesus as king throughout the Fourth Gospel using an interdisciplinary metaphor theory incorporating cognitive and systemic functional linguistic approaches with literary approaches Stovell argues that the theme of Jesus as king provides one of the unifying themes of John's overall message Examining the place of the Old Testament metaphors of Messiah eternal life life of the age shepherd and exaltation in the conceptual metaphorical network of John's Gospel Stovell asserts that John's Gospel describes the just character of Jesus kingship the subversion of power implicit in his crucified form of kingship and the necessity of response to Jesus as king and his reign *Light Shining Through a Veil* Edith van den Goorbergh, Theo H. Zweerman, 2000 The spirituality of Saint Clare of Assisi the soul mate of Saint Francis is the object of this book Her spirituality was inspired by Francis and she owes much to him like he to her This book is meant to be a contribution to the study of Clare and her thoughts In her four letters written to Saint Agnes of Prague Clare expresses herself more openly about her deepest motivations than in any other writing They concentrate on the heart of her choice of life and as such they reproduce the most beautiful gift which God gave her Clare's spirituality as it comes to the fore in these letters can only then be fully understood when we take into account their creative structure The specific aim of this book is to do justice to her texts in a method which to our knowledge was never applied before It consists in an elaborated analysis of the fine concentric structure of the letters to Agnes combined with an ongoing commentary in which historical data are also given attention *Emerson's Metaphors* David Greenham, 2023-11-13 Emerson's *Metaphors* is a fundamental reinterpretation of the major American writer Ralph Waldo Emerson and an interdisciplinary intervention in literary criticism This book draws on the methods and conclusions of the paradigm shifting Conceptual Metaphor Theory CMT which recognizes that metaphor is a cognitive form rather than a rhetorical or ornamental feature Closely reading Emerson's journals lectures and reassessing the major essays Emerson's *Metaphors* demonstrates that Emerson's prose thinks through its figurative language enabling the vital symbolic reconceptualizations of nature man and God that would prove so crucial for the emergence of American literature This monograph does not just have implications for Emerson scholarship but as the first full length study of a canonical writer to use CMT it provides a model for the interpretation of all literary works **Christ the Light** David L. Whidden (III), 2014 Light is one of the most ancient and significant metaphors adopted by Christianity by which to understand the significance of Jesus Christ This book establishes the theological network formed by the motif of light illumination in Aquinas from how theology operates to the systematic sacramental and moral coordinates in Aquinas theology **Mystical Luminosity Experience** Jonathan Dinsmore, 2024-07-01 Light of a divine or transcendent nature is widely revered in various religious and mystical traditions around the world and luminosity with mystical qualities such as love bliss peace and noetic realization is also frequently

reported by contemporary experiencers Despite being described as a profoundly significant sacred and transformative experience mystical luminosity has received relatively little attention in modern scholarship and scientific study and has only been examined empirically within isolated contexts such as NDEs or contemplative practices This study examines the phenomenology which binds mystical luminosity across various experiential contexts to construct a phenomenologically grounded theoretical model A three part mixed methods investigation using a new mystical luminosity experience scale based on this model is then summarized with findings generally supporting and further clarifying the model

Metaphors and Action Schemes Robert L. Schwarz, 1997 All our abstract ideas are based on metaphors and action schemes Jean Piaget did voluminous research on how thought develops in children through assimilation of action schemes George Lakoff and Mark Johnson have done pioneering work on metaphors and action schemes in everyday thinking This book builds on those foundations looking at the role played by metaphors and action schemes in the history of ideas The author begins his argument by taking a critical look at the philosophy of metaphor from Aristotle to the present While he sees metaphor as simply conceiving one thing in terms of another he points out that this is an inexhaustible process because the context in which the process takes place is always changing Change opens up new possibilities of similarity Thus the metaphor is an open door into a space of infinite possibilities

Quaker Quicks - Hearing the Light Rhiannon Grant, 2021-09-24 Quaker Quicks Hearing the Light begins with the foundations of Quaker theology which is based in the Quaker method of unprogrammed silent worship This act of gathering as a community to wait and listen to God is at the heart of Quakerism and essential to understanding Quaker theology which is embedded in the practice as well as explained by it Rhiannon Grant shows how Central Quaker theological claims such as that everyone has that of God within them that God offers support and guidance to all who choose to listen and that Quakers as a community are led by God to treat everyone equally resist war and live simply can be understood through a consideration of this distinctive worship practice Rhiannon Grant also explores what it means to say that this form of theology is liberal although many Quakers are politically liberal they have also been called conservative radicals Kenneth Boulding and the liberalism involved is not mainly political but an attitude towards diversity of thought opinion and especially religious belief While united by the practice of unprogrammed worship Quakers have no

written creed and no specific beliefs are required of members. Instead, there is a prevailing attitude of continued searching and acceptance that new evidence may appear and a willingness to learn from others, including members of other faith communities. At a time of great religious and political division, this radical approach to faith and learning that Grant sheds light upon has never been more prescient. *Preaching from the Types and Metaphors of the Bible* Benjamin Keach, 2014-09-26 In this classic work, Benjamin Keach explores the rich tapestry of types and metaphors woven throughout the Bible. With a keen eye for detail and a deep understanding of Scripture, Keach illuminates the profound spiritual truths hidden within the vivid imagery of God's Word. This book is a treasure trove for pastors, theologians, and anyone seeking to uncover the depths of biblical symbolism and its application to the Christian life.
