

A person wearing a blue shirt is walking away from the camera through a narrow, dimly lit cave. The cave walls are rugged and illuminated with warm orange and purple light, creating a dramatic atmosphere. The person is walking towards a bright opening at the end of the tunnel.

Metaphysical thinking will always no doubt
be a strong element in her mentality, and it is
to be hoped that she will never lose her
great, her sovereign powers in that direction.

Jürgen Habermas

Metaphysical Thinking:

Postmetaphysical Thinking Jürgen Habermas, 2015-10-07 In this new collection of recent essays Habermas takes up and pursues the line of analysis begun in *The Philosophical Discourse of Modernity* He begins by outlining the sources and central themes of twentieth century philosophy and the range of current debates He then examines a number of key contributions to these debates from the pragmatic philosophies of Mead Perice and Rorty to the post structuralism of Foucault Like most contemporary thinkers Habermas is critical of the Western metaphysical tradition and its exaggerated conception of reason But he cautions against the temptation to relinquish this conception altogether In opposition to the radical critics of Western philosophy Habermas argues that postmetaphysical thinking can remain critical only if it preserves the idea of reason while stripping it of its metaphysical trappings Habermas contributes to this task by developing further his distinctive approach to problems of meaning rationality and subjectivity This book will be of particular interest to students of philosophy sociology and social and political theory and it will be essential reading for anyone interested in the continuing development of Habermas s project **The Nature of Metaphysical Thinking** NA NA, 2015-12-25 The Nature of Metaphysical Thinking Dorothy Mary Emmet, 1945 *The Nature of Metaphysical Thinking* Dorothy Mary Emmet, 1957

The Nature of Metaphysical Thinking Dorothy Mary Emmet, 1966 *Metaphysical Aporia and Philosophical Heresy* Stephen David Ross, 1989-01-01 From Descartes to the present there has been a call for a new beginning in philosophy Contemporary continental philosophy and American pragmatism continue to proclaim the end of one philosophic tradition and the beginning of another The basis for many of these developments is the repudiation of metaphysics The purpose of this book is to rethink the metaphysical traditions in terms of the continental and pragmatist critiques rejecting a single view The major works in the tradition are viewed as heretical Philosophy has recurrently acknowledged aporia moments in the movement of thought in which it finds itself faced with unconquerable obstacles resulting from conflicts in its understanding of its own intelligibility A chapter is devoted to each of the eight major philosophers and movements in the Western canonical tradition the pre Socratics Plato Aristotle Spinoza Leibniz empiricism Kant and Hegel The last three chapters are devoted to contemporary discussions of the end of metaphysics including the development of a local metaphysics that is able to express its own locality and aporia **Metaphysics and Its Task** Jorge J. E. Gracia, 1999-07-29 Systematically analyzes the nature of metaphysics

Metaphysical Thinking Elmer Sprague, 1978 **Nature of Metaphysical Thinking** Dorothy Emmet, 1966 **The Fundamental Concepts of Metaphysics** Martin Heidegger, 1995 This book the text of Martin Heidegger s lecture course of 1929 30 is crucial for an understanding of Heidegger s transition from the major work of his early years *Being and Time* to his later preoccupations with language truth and history First published in German in 1983 as volume 29 30 of Heidegger s collected works *The Fundamental Concepts of Metaphysics* presents an extended treatment of the history of metaphysics and an elaboration of a philosophy of life and nature Heidegger s concepts of organism animal

behavior and environment are uniquely developed and defined with intensity Of major interest is Heidegger s brilliant phenomenological description of the mood of boredom which he describes as a fundamental attunement of modern times

The Nature of Metaphysical Knowledge George F. McLean,Hugo Anthony Meynell,1988 *Metaphysics* T.

Ando,2012-12-06 In the summer of 1960 I visited Oxford and stayed there several months This book was written as some slight memorial of my days in that ancient seat of learning It is my pleasant duty to acknowledge the great debt I own to Mr D Lyness in the task of putting it into English In addition I remember with gratitude Dr J L Ackrill of Brasenose College who gave me unfailing encouragement and also Dr R A Rees of Jesus College who read my manuscript through and subjected it to a minute revision Lastly for permission to quote from Sir W D Ross translation of Aristotle s Metaphysics I have to thank the editors of Oxford University Press Kyoto Japan T A 61 Sep 19 To answer the readers complaints that the first edition did not explain the author s attitude towards metaphysics one more chapter on new positivism was written in 1966 but the

publication was delayed till the second edition Special thanks are due to Mr E B Brooks for his assistance in writing English to Prof Philip P Wiener and to Dr R A Rees both for some kind services T A Okayama 1973 CONTENTS INTRODUCTION I I THE ORIGIN OF THE CONCEPT OF METAPHYSICS I Reimer s Theory 3 2 Aristotle s Metaphysics 6 II THE TRADITION OF THE CONCEPT OF METAPHYSICS Ancient Interpretations 1 Ontology in Heidegger and Deleuze G. Rae,2014-05-07 The

first book in English to offer an extended comparative analysis of Heidegger and Deleuze Those familiar with Heidegger s and Deleuze s thinking will find a detailed well researched book that comes to an innovative conclusion while those new to both will find a clear well written exposition of their key concepts **Metaphysics of Mystery** Marijn de Jong,2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God **Metaphysics or Modernity?** Simon Baumgartner,Thimo Heisenberg,Sebastian Krebs,2014-03-19

Introduction to Metaphysics Jean Grondin,2012 This history of metaphysics respects both the analytic and Continental schools while also transcending the theoretical limitations of each The book provides an overview restoring the value of metaphysics to contemporary audiences *Metaphysics and the Modern World* Donald Phillip Verene,2016-09-02

Metaphysics and the Modern World makes the abiding questions of the nature of the self world and God available for the modern reader Donald Phillip Verene presents these questions in both their systematic and historical dimensions beginning with Aristotle's claim in his Metaphysics that philosophy begins in wonder The first three chapters concern the origin of metaphysics as the transformation of the conception of reality in ancient Greek mythology the ontological argument as the basis of Christian metaphysics and the Renaissance cosmology of infinite worlds and the coincidence of contraries The final four chapters present the central issues of the metaphysics of history through the New Science of Vico the principle of true infinity of Hegel's Logic the dialectic of spirit and life in Cassirer's Metaphysics of Symbolic Forms and the conception of actual entities and God in Whitehead's Process and Reality In these discussions the reader will find a lively and learned account of a field of philosophy that is often thought difficult to access but in this work becomes most accessible and a pleasure to read

Touching Thought Ellen Mortensen, 2003-04-01 The blindness to ontological questioning in feminist theory has left a lacuna in scholarly study that Touching Thought a study at the intersection of ontological meditation and feminist theorizing on sexual difference seeks to fill Ellen Mortensen's new work critiques the language and theoretical pathways of contemporary feminist theorists such as Judith Butler Rosi Braidotti Elizabeth Grosz Luce Irigaray Theresa de Lauretis and Donna Haraway to reveal a problematic predilection for technological language at the expense of ontological inquiry The volume ranges across feminist epistemology and ethics the politics of performativity the aesthetics of body power and the question of sexual difference and concludes with an examination of the different philosophical and theoretical attempts at undertaking an ontological questioning of sexual difference This foundational work will serve as preparation for scholars of feminist and queer theory and continental philosophy seeking alternative pathways of feminist thought that encourage fundamental thinking on the subject of individual freedom

Metaphysics Theodor W. Adorno, Rolf Tiedemann, 2002-10-01 This volume makes available in English for the first time the famed lectures on metaphysics by one of the founders of the Frankfurt School of Critical Theory and one of the most influential thinkers of the 20th century It provides a unique introduction not only to metaphysics but also to Adorno's own intellectual standpoint

African Metaphysics, Epistemology and a New Logic Jonathan O. Chimakonam, L. Uchenna Ogbonnaya, 2021-05-06 This book focuses on African metaphysics and epistemology and is an exercise in decoloniality The authors describe their approach to decoloniality as an intellectual repudiation of coloniality using the method of conversational thinking grounded in Ezumezu logic Focusing specifically on both African metaphysics and African epistemology the authors put forward theories formulated to stimulate fresh debates and extend the frontiers of learning in the field They emphasize that this book is not a project in comparative philosophy nor is it geared towards making Africa's the object subjects of philosophy Rather the book highlights and discusses philosophical insights that have been produced from the African perspective which the authors argue must be further developed in order to achieve decoloniality in the field of philosophy more broadly
