Metaphysical Wit A. J. Smith, 1991 This 1992 book seeks the reason for the central importance of wit in the thinking of the metaphysical poets

Metaphysical Wit A. J. Smith, 2006-12-14 English metaphysical poetry from Donne to Marvell is conspicuously witty A J Smith seeks the central importance of wit in the thinking of the metaphysical poets and argues that metaphysical wit is essentially different from other modes of wit current in Renaissance Europe Formal theories and rhetorics of wit are considered both for their theoretical import and their appraisals of wit in practice Prevailing fashions of witty invention are scrutinized in Italian French and Spanish writings so as to bring out the nature and effect of various forms of wit conceited hieroglyphic transformational and others from which the metaphysical mode is distinguished He locates the basis of Renaissance wit in the received conception of the created order and a theory of literary innovation inherent in Humanist belief which led to novel couplings of time and eternity body and soul man and God Yet he finds that metaphysical wit distinctively works to discover a spiritual presence in sensible events and he traces its demise in the 1660s to changes in the understanding of the natural world associated with the rise of empirical science

Early Modern Metaphysical Literature Michael Morgan Holmes, 2001-01-19 Early Modern Metaphysical Literature illuminates now obscured aspects of cultural negotiation and denaturalization germane to numerous Metaphysical texts Examining poetry and prose by Donne Marvell Lanyer Crashaw and Edward Herbert this book challenges readers to recognize the provocative strangeness of these writings in their original contexts and today

The Metaphysical Poets David Reid, 2014-06-11 The Metaphysical Poets provides an introduction to the work of six strikingly various and original poets Donne Herbert Crashaw Vaughan Marvell and Traherne By closely examining how the poems work the book aims to help readers at all stages of proficiency and knowledge to enjoy and critically appreciate the ways in which fantastic and elaborate styles may express private intensities The emphasis is on the differences covered by the term Metaphysical and on the rich and strange diversity of the poets inner lives The book

examines the expressive forms of interiority the characteristic inward turn of Metaphysical wit and compares the wit of its six poets with the non introspective wit of poets such as Cowley the Cavaliers and the Augustans The discussion of each poet is preceded by a Life in which the biographical facts personal cultural and political are treated with a view to illuminating the concerns of the poems

Metaphysical and Mid-Late Tang Poetry: A Baroque Comparison Pengfei Wang, 2020-03-05

Wishing to expand on the minimal scholarship on the topic of Metaphysical and Mid Late Tang poets under the general category of Baroque this book offers a comparative analysis of poems from the Metaphysical poets John Donne Andrew Marvell and Richard Crashaw and a selection of Tang poetry by Meng Jiao Li He and Li Shangyin By following Nietzsche's definition of Baroque as a poetic style found in any period and country and the concept of art as allegory the author approaches the analysis of these poems using allegorical reading The application of this non traditional method of investigation and analysis has produced ground breaking implications in the area of literary criticism paving the way for future additions to the growing body of work on Baroque poetry Therefore it is likely to hold great appeal to literature researchers and scholars as well as those studying Tang poetry Metaphysical poetry and Comparative Studies

John Donne and the Line of Wit P. G. Stanwood, 2008

John Donne and the Line of Wit From Metaphysical to Modernist is a study of influence adaptation historical imitation and invention In his own time Donne was celebrated for his distinctive style especially for what his contemporaries recognized as strong lines that is witty conceits or unusual often unexpected and surprising comparisons Donne's metaphysical wit fell out of fashion in the later seventeenth century not to be significantly explored and revived until the early twentieth century and then notably by the modernist movement in the years that followed Eliot's *Waste Land* 1922 Among the most important and earliest of poets and critics to respond to this movement are the self styled Fugitives of the southern United States As fugitives they stood against what seemed old and shop worn language and they gave their name and talent to the literary journal published at Vanderbilt University from 1922-25 The Fugitive provided an outlet for the work of John Crowe Ransom Robert Penn Warren Allen Tate and others who discovered a new modernism that might be shaped out of the old metaphysical mode of Donne Their poetry is characteristically concerned with verbal or metaphysical invention usually composed with metrical formality and from an objective detached point of view Paul Stanwood concludes his study with close readings of several Fugitive poems especially Ransom's *The Equilibrists* which consciously recollects Donne's *Extasie*

Logodaedalus Alexander Marr, Raphaële Garrod, José Ramón Marcaida, Richard J. Oosterhoff, 2019-02-15

Before Romantic genius there was ingenuity Early modern ingenuity defined every person not just exceptional individuals as having their own attributes and talents stemming from an inborn nature that included many qualities not just intelligence Through ingenuity and its family of related terms early moderns sought to understand and appreciate differences between peoples places and things in an attempt to classify their ingenuities and assign professions that were best suited to one's abilities Logodaedalus a prehistory of genius explores the various ways this language of

ingenuity was defined used and manipulated between 1470 and 1750 By analyzing printed dictionaries and other lexical works across a range of languages Latin Italian Spanish French English German and Dutch the authors reveal the ways in which significant words produced meaning in history and found expression in natural philosophy medicine natural history mathematics mechanics poetics and artistic theory *Literary Criticism of 17th Century England* Edward W.

Taylor, 2000-07-07 This collection of writings by English Renaissance poets and essayists includes poems and essays by Ben Jonson George Chapman and Samuel Daniel Excerpts from Francis Bacon John Milton William Drummond George Herbert Andrew Marvell Abraham Cowley The book also surveys the origins range and development of literary taste and practice in 16th and 17th century England Then as now poets anchored their lines between the poles of tradition and inspiration loyalty and liberty art and truth Edward W Taylor is the emeritus Lionel Trilling Professor in the Humanities at Columbia University His other books include *Nature and Art in the Renaissance* *Milton Poetry* and *Donne Idea of a Woman* p he selection is excellent The introduction is most admirable and Taylor wisely is generous with explanations and identifications His most volume supplants Sringarn as THE best collection of seventeenth century criticism p *Seventeenth Century News* Winter 1967

Glossalalia is not a conventional glossary or dictionary. Although arranged alphabetically, it is a cutting edge introduction to the state of theory today. Here 26 newly commissioned definitions of theoretical keywords are presented in a playful A-Z format ranging from Animality to Zero. Leading theorists and critics including J. Hillis Miller, Gayatri Chakravorty Spivak, Simon Critchley, Ernesto Laclau, and many others provide unusual and insightful interpretations of a range of unexpected terms such as Zero, X, and Yarn. They also reflect with renewed vigor upon such familiar concerns as Difference, Jouissance, Nation, and Otherness. Like a standard glossary, the volume invites the reader to start almost anywhere. But Glossalalia takes steps far beyond the parameters of a standard reference work that is simply about theory, by encouraging readers to actively engage with and enjoy theory and to consider the future possibilities of theory in the twenty-first century.

Dissenters and Mavericks Margery Sabin, 2002-10-24 *Dissenters and Mavericks* reinvestigates the interdisciplinary study of literature history and politics through an approach to reading that allows the voices heard in writing a chance to talk back to exert pressure on the presuppositions and preferences of a wide range of readers. Offering fresh and provocative interpretations of both well-known and unfamiliar texts from colonial writers such as Horace Walpole and Edmund Burke to twentieth-century Indian writers such as Nirad Chaudhuri, V. S. Naipaul, and Pankaj Mishra, the book proposes a controversial challenge to prevailing academic methodology in the field of postcolonial studies.

A Study of Elizabethan and Jacobean Tragedy T. B. Tomlinson, 2011-02-03 This study combines a consideration of the general issues affecting Elizabethan and Jacobean tragedy with particular comment on plays.

The Journal of English and Germanic Philology, 1915 *Essays on English and American Literature* Leo Spitzer, 2015-12-08 The late Leo Spitzer enjoyed a reputation as one of the twentieth century's outstanding philologists and linguists. His writings in the field of the romance languages and of comparative philology have been always stimulating, often controversial. This collection presents his essays in English and American literature which appeared in various journals and other publications during his lifetime. They range from an explication de texte of three great Middle English poems through close scrutiny of writings of Donne, Milton, Keats to a consideration of Edgar Allan Poe and Whitman, and finally to one of Yeats's poems. Each of the essays in this collection is illuminated and heightened by Professor Spitzer's careful and imaginative exegesis. The delightful *American Advertising Explained as Popular Art* is included as a sample of Professor Spitzer's commentary on American culture. John Donne and Baroque Allegory Hugh Grady, 2017-08-10 John Donne has been one of the most controversial poets in the history of English literature his complexity and intellectualism provoking both praise and censure In this major reassessment of Donne's poetry Hugh Grady argues that his work can be newly appreciated in our own era through Walter Benjamin's theory of baroque allegory Providing close readings of *The Anniversaries* *The Songs and Sonnets* and selected other lyrics this study reveals Donne as being immersed in the aesthetic of fragmentation that define both the baroque and the postmodernist aesthetics of today Synthesizing cultural criticism and formalist analysis Grady illuminates Donne afresh as a great poet for our own historical moment
