## Metaphysics Of Sex:

Eros and the Mysteries of Love Julius Evola, 1991-04 A controversial philosopher and critic of modern Western civilization Julius Evola 1898 1974 writes about the mystical and spiritual expression of sexual love This in depth study explores the sexual rites of sacred traditions and shows how religion mysticism folklore and mythology all contain erotic forms in which the deep potentialities of human beings are recognized **The Metaphysics of Sex ...in a Changing World!** Christopher Alan Anderson, 2014-07-16 Is sex metaphysical This is to say does it have a purpose and a nature that is encoded in the very construct of the universe These are the questions the author takes up in this day and age where most everything is up for grabs This writing is not without an examination of sensitive issues and explicit terms Think of it as a third way if you will It resides between the fixed identity of our declining religions and the fluid identity of the emerging L G B T Q movement In that it presents to us all another choice In the end it is about a construct for sexual balance that any reader can understand and use as a guide for his or her life Keywords Metaphysics Sex Relationship Procreation Soul Life Birth Love Desire Healing

**The Metaphysics of Sex** Julius Evola, 1983 Julius Evola sheds new light on the mystical and spiritual expression of sexual love This in depth study explores the sexual rites of sacred traditions and shows how religion mysticism folklore and mythology all contain erotic forms in which the deep potentialities of human beings are recognized *The Philosophy of Sex* Alan Soble, Nicholas P. Power, Raja Halwani, 2008 Thirty contemporary essays that explore philosophically conceptually and theologically the nature social meanings and morality of contemporary sexual phenomena From publisher description

*The Metaphysics of Sex* Bayer, Valerie Townsend Bayer, Explorations in Love and Sex Irving Singer, 2001 Beginning with a discussion of Kant Schopenhauer and others about the morality of sex and the morality of compassion Explorations in Love and Sex offers a panoramic view of the philosophy of love from its beginnings in Plato up to the present It examines the nature and limitations of sexual pluralism and elaborates on Irving Singer's earlier ideas about appraisal and bestowal The book's chapters are both philosophical and historical and speak to general readers who wish to better understand the curious set of emotions called love Applied Metaphysics of Sex Edward Drinker Cope, 1885 The Philosophy of Sex Alan Soble, 2002 Leading philosophers discuss a range of issues relating to sex in this revised and expanded version of Alan Soble's popular anthology of essays New material includes date rape and sexual harassment **The Philosophy of Sex** Raja Halwani, Alan Soble, Sarah Hoffman, Jacob M. Held, 2017-09-15 This best selling volume examines the nature morality and social meanings of contemporary sexual phenomena Updated and new discussion questions offer students starting points for debate in both the classroom and the bedroom The Path of Cinnabar Julius Evola, 2009 Julius Evola was a renowned Dadaist artist Idealist philosopher critic of politics and Fascism mystic anti modernist and scholar of world religions Evola was all of these things but he saw each of them as no more than stops along the path to life's true goal the realisation of oneself as a truly absolute and free individual living one's life in accordance with the eternal doctrines of the Primordial

Tradition Much more than an autobiography The Cinnabar Path in describing the course of Evola's life illuminates how the traditionally oriented individual might avoid the many pitfalls awaiting him in the modern world More a record of Evola's thought process than a recitation of biographical facts one will here find the distilled essence of a lifetime spent in pursuit of wisdom in what is surely one of his most important works

**Sex, Love, and Friendship**, 2022-07-18 This collection joins together sixty essays on the philosophy of love and sex Each was presented at a meeting of The Society for the Philosophy of Sex and Love held between 1977 and 1992 and later revised for this edition Topics addressed include ethical and political issues AIDS abortion homosexual rights and pornography conceptual matters the nature essence or definition of love friendship sexual desire and perversion the study of classical and historical figures Plato Aristotle Spinoza Kant and Kierkegaard and issues in feminist theory sexual objectification the social construction of female sexuality reproductive and marital arrangements Authors include Jerome Shaffer Sandra Harding Michael Ruse Richard Mohr Russell Vannoy Claudia Card M C Dillon Gene Fendt Steven Emmanuel T F Morris Timo Airaksinen and Sylvia Walsh The editor who is the author of Pornography 1986 The Structure of Love 1990 and Sexual Investigations 1996 has also contributed six pieces and an Introduction

**The Mismeasure of Desire** Edward Stein, 2001-04-12 In recent years scientific research popular opinion have favoured the idea that sexual orientations are determined at birth but Edward Stein argues that this may be wrong This book offers an examination of contemporary thinking on this issue

A Companion to Applied Philosophy Kasper Lippert-Rasmussen, Kimberley Brownlee, David Coady, 2016-11-14 Applied philosophy has been a growing area of research for the last 40 years Until now however almost all of this research has been centered around the field of ethics A Companion to Applied Philosophy breaks new ground demonstrating that all areas of philosophy including epistemology metaphysics philosophy of science and philosophy of mind can be applied and are relevant to questions of everyday life This perennial topic in philosophy provides an overview of these various applied philosophy developments highlighting similarities and differences between various areas of applied philosophy and examining the very nature of this topic It is an area to which many of the towering figures in the history of philosophy have contributed and this timely Companion demonstrates how various historical contributions are actually contributions within applied philosophy even if they are not traditionally seen as such The Companion contains 42 essays covering major areas of philosophy the articles themselves are all original contributions to the literature and represent the state of the art on this topic as well as offering a map to the current debates

The Oxford Handbook of Feminist Philosophy Ásta, Kim Q. Hall, 2021-05-07 This exciting new Handbook offers a comprehensive overview of the contemporary state of the field in feminist philosophy The editors introduction and forty five essays cover feminist critical engagements with philosophy and adjacent scholarly fields as well as feminist approaches to current debates and crises across the world Authors cover topics ranging from the ways in which feminist philosophy attends to other systems of oppression and the gendered racialized and classed assumptions embedded in philosophical concepts to

feminist perspectives on prominent subfields of philosophy The first section contains chapters that explore feminist philosophical engagement with mainstream and marginalized histories and traditions while the second section parses feminist philosophy's contributions to numerous philosophical subfields for example metaphysics and bioethics A third section explores what feminist philosophy can illuminate about crucial moral and political issues of identity gender the body autonomy prisons among numerous others The Handbook concludes with the field's engagement with other theories and movements including trans studies queer theory critical race theory postcolonial theory and decolonial theory The volume provides a rigorous but accessible resource for students and scholars who are interested in feminist philosophy and how feminist philosophers situate their work in relation to the philosophical mainstream and other disciplines Above all it aims to showcase the rich diversity of subject matter approach and method among feminist philosophers Theorizing Culture

Barbara Adam, Stuart Allan, 2006-04-07 This highly original and timely volume engages scholars from the breadth of social science and the humanities to provide a critical perspective on cultural forms practices and identities It looks beyond the postmodern debate to reinstate the critical dimension in cultural analysis providing a student friendly introduction to key contemporary issues such as the body AIDS race the environment and virtual reality Theorizing Culture is essential reading for undergraduate courses in cultural and media studies and sociology and will have considerable appeal for students and scholars of critical theory gender studies and the history of ideas **The Wrong of Injustice** Mari Mikkola, 2016-07-01 This book examines contemporary structural social injustices from a feminist perspective It asks what makes oppression discrimination and domination wrongful Is there a single wrongness making feature of various social injustices that are due to social kind membership Why is sexist oppression of women wrongful What does the wrongfulness of patriarchal damage done to women consist in In thinking about what normatively grounds social injustice the book puts forward two related views First it argues for a paradigm shift in focus away from feminist philosophy that is organized around the gender concept woman and towards feminist philosophy that is humanist This is against the following theoretical backdrop Politically effective feminism requires ways to elucidate how and why patriarchy damages women and to articulate and defend feminism's critical claims In order to meet these normative demands an influential theoretical outlook has emerged for emancipatory purposes feminist philosophers should articulate a thick conception of the gender concept woman around which feminist philosophical work is organized However Part I of the book argues that we should resist this move and that feminist philosophers should reframe their analyses of injustice in humanist terms Second the book spells out a humanist alternative to the more prevalent gender focus in feminist philosophy This hinges on a notion of dehumanization which Part II of the book develops The argued for understanding of dehumanization is used to explicate the wrongness making feature of social injustices both in general and of those due to patriarchy Dehumanization is not another form of injustice rather it is that which makes forms of social injustice unjust The book's second part then provides a regimentation of social injustice

from a feminist perspective in order to spell out the specifics of the proposed humanist feminism and to demonstrate how it improves some non feminist analyses of injustice too *What Is Sexual Difference?* Mary C. Rawlinson, James Sares, 2023-06-06 Luce Irigaray has written that sexual difference is one of the major philosophical issues if not the issue of our age Spanning metaphysics phenomenology and psychoanalysis her work examines how sexual difference structures being and subjectivity organizes our experience of the world and affects the images and discourses involved in knowledge production and practical action No other philosopher has paid such careful attention to the consequences of the elision of sexual difference in philosophical thought However at a time when notions of sexual and gender difference are hotly contested Irigaray's thought has often been dismissed as essentialist or reductively binary This book brings together leading scholars to consider the philosophical implications of Irigaray's writing on sexual difference particularly for issues of gender and race Their essays directly confront the charge of essentialism exploring how Irigaray's thought opens new possibilities for understanding the complexity of gender identities including nonbinary and trans experiences as well as alternative configurations of masculinity and femininity Though Irigaray is sometimes accused of a failure to appreciate racial difference contributors show the productive role of her work in thinking race This book also illuminates how Irigaray's work provides creative practices that help realign human experience and our relations with nature and each other *The Metaphysics of the Sexual Love* Arthur Schopenhauer, 2018-12-12 Schopenhauer innovates by introducing the issue of sexuality into western philosophy Of course his assessment of it is not an encouraging one For him it embodies the will to life more strongly than any other urge or desire hence it is responsible for the misery of the human condition more than anything else Even the most elevated form of romantic love is nothing but a mental addition or justification for the natural need for sex and the species desire to maintain itself After succumbing to our sexual desires he says we realize that we have once again been deceived by the instinct of survival that seeks procreation through us The lessening of sexual desire with age is thus to be welcomed as a liberation Needless to say Schopenhauer remained celibate throughout his life Schopenhauer New world encyclopedia

*Visible Identities* Linda Martín Alcoff, 2005-12-22 In the heated debates over identity politics few theorists have looked carefully at the conceptualizations of identity assumed by all sides *Visible Identities* fills this gap Drawing on both philosophical sources as well as theories and empirical studies in the social sciences Martín Alcoff makes a strong case that identities are not like special interests nor are they doomed to oppositional politics nor do they inevitably lead to conformism essentialism or reductive approaches to judging others Identities are historical formations and their political implications are open to interpretation But identities such as race and gender also have a powerful visual and material aspect that eliminativists and social constructionists often underestimate *Visible Identities* offers a careful analysis of the political and philosophical worries about identity and argues that these worries are neither supported by the empirical data nor grounded in realistic understandings of what identities are Martín Alcoff develops a more realistic characterization of identity in

general through combining phenomenological approaches to embodiment with hermeneutic concepts of the interpretive horizon Besides addressing the general contours of social identity Mart n Alcoff develops an account of the material infrastructure of gendered identity compares and contrasts gender identities with racialized ones and explores the experiential aspects of racial subjectivity for both whites and non whites In several chapters she looks specifically at Latino identity as well including its relationship to concepts of race the specific forms of anti Latino racism and the politics of mestizo or hybrid identity

**Decolonial Thinking** María Lugones, Patrick M. Crowley, 2025-05-06 Decolonial Thinking delves into the intricate web of colonial practices terms and ideas that have woven themselves into people s lives It seeks to understand how the tendrils of coloniality have insidiously attached themselves to the very fabric of self understanding From the mundane to the profound this exploration sheds light on our relationship with all that constitutes life Editors Mar a Lugones and Patrick M Crowley have meticulously curated 11 unique articles by interdisciplinary theorists These thought provoking pieces compellingly address questions surrounding colonial legacies Organized into five sections the book navigates themes ranging from sexualities and multiple worlds to differential topographies It also examines the relation between women of color politics to decoloniality exploring resistance coalition building and pluriversality As decolonial theory gains global recognition it has emerged as a critical lens through which we view capitalism racism gender discrimination violence and Eurocentrism Decolonial Thinking boldly rejects oppressive rationalities prompting fresh strategies for shared meanings These strategies diverge radically from dominant disciplinary and academic categories of knowledge inviting us to reimagine our understanding of the world
