## Metaphysics Of Love:

**The Metaphysics of Love** Frederick D. Wilhelmsen, 2017-07-05 The Metaphysics of Love develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbour and God This volume is part of Transaction's Library of Conservative Thought series [The Metaphysics Of The Love Of The Sexes](#) Arthur Schopenhauer, 2013-09-28 Is Love an Illusion What is the relationship between Love and Sexual Impulse Schopenhauer gives us a new way of thinking about relationships between men and women *The Metaphysics of Sexual Love* Arthur Schopenhauer, 1986-10 [The Metaphysics of Love](#) William Borman, 1987 **The Metaphysics of Intimate Love** Arthur Schopenhauer, 1989-11-01 [The Metaphysics of the Sexual Love](#) Arthur Schopenhauer, 2018-12-12 Schopenhauer innovates by introducing the issue of sexuality into western philosophy Of course his assessment of it is not an encouraging one For him it embodies the will to life more strongly than any other urge or desire hence it is responsible for the misery of the human condition more than anything else Even the most elevated form of romantic love is nothing but a mental addition or justification for the natural need for sex and the species desire to maintain itself After succumbing to our sexual desires he says we realize that we have once again been deceived by the instinct of survival that seeks procreation through us The lessening of sexual desire with age is thus to be welcomed as a liberation Needless to say Schopenhauer remained celibate throughout his life Schopenhauer New world encyclopedia *The Metaphysics of Love* Albert James Smith, 1985-01-28 The author presents a wide ranging account of the evolution of ideas of love from the twelfth to the seventeenth century *Explorations in Love and Sex* Irving Singer, 2001 Beginning with a discussion of Kant Schopenhauer and others about the morality of sex and the morality of compassion Explorations in Love and Sex offers a panoramic view of the philosophy of love from its beginnings in Plato up to the present It examines the nature and limitations of sexual pluralism and elaborates on Irving Singer's earlier ideas about appraisal and bestowal The book's chapters are both philosophical and historical and speak to general readers who wish to better understand the curious set of emotions called love **A Metaphysics of Love**

George Pattison, 2021 As the third part of a philosophy of Christian life this study builds on a view of Christian life as shaped by the dynamic of call response and promise Leading scholar George Pattison argues that love is the ultimate content of this dynamic and considers how far this claim extends *The Enlightened Relationship* Steve Smith LMFT, 2014-07-18 As humanity evolves into higher states of consciousness so must our model of partner relationships Author Steve Smith LMFT explains the benefits of transforming the faulty beliefs and assumptions we currently hold into the emerging paradigm of relationships This new frontier includes a practical knowledge of metaphysical principles and how they directly impact our experiences The author recounts his personal realization that at our very core exists the unconditional love of creation which is the thread that binds us all together With lighthearted humor he describes how to cultivate this love and apply it in our lives so that we can experience the beauty and glory of an enlightened relationship **The Metaphysics of Love** Stella Sandford, 2000-01-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas's thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford's book is at the same time a powerful feminist critique of both Levinas's gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory **The Metaphysics of Love** Booker T. Washington, 2017-07-05 *The Metaphysics of Love* develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbour and God This volume is part of Transaction's Library of Conservative Thought series *Love in Sufi Literature* Omneya Ayad, 2023-09-27 Focused on A mad Ibn Aj ba an eighteenth century Moroccan Sufi scholar renowned for his contribution to Sufi Qur'anic exegesis this book engages critically with his theory of divine love to elucidate his impact on the wider field of Qur'anic scholarship The principal source of analysis is Ibn Aj ba's *Oceanic Exegesis of the Qur'an* which connected theoretical works on the concept of divine love to their practical application a breakthrough in Sufi literature

Close analysis of this text is supplemented by a comparative approach focusing on several other eminent Sufi commentaries including those of Ab al Q sim al Qushayr and R zbih n Baql Sh r z This comparative approach situates Ibn Aj ba s thought in theological and historical perspective engaging with his mystical approach which integrates his theory of divine love with other Sufi doctrines in an accessible manner This approach it is argued left an indelible impact on future generations of Qur nic exegetes within North Africa and across the Islamic world The book will prove an important resource for academic researchers who wish to explore the vast intellectual heritage that Ibn Aj ba left as well as to those interested in Sufi literature and Islamic theology in general

**The Wisdom of Love** Raymond Ruthford McGinnis (m.a.),1951 **Sexuality and the Metaphysics of Love** Okwudili Ogbu,2004 *Boundless Love* Andrew Ray Williams,2021-07-22 Clark H Pinnock 1937 2010 was arguably one of the most noted productive and provocative Christian theologians in North American evangelical Christianity in the late twentieth century Considering how challenging he is to classify and yet how significant his work has been Pinnock should be widely studied today However for many their first introduction to Pinnock s writing is facilitated through various critical sources For too long Pinnock s theology has been stuck within the confines of tired stereotypes and overly simplistic summaries Andrew Ray Williams then gives Pinnock a fresh and fair hearing outlining some of his major themes while also providing an accessible point of entry into his theology In doing so this book is usable and profitable for both longtime fans as well as critics of Pinnock while also offering first time readers of Pinnock an open minded position from which to read him

**Its All About Love** Fran Wellgood,2019-04-25 What if we loved ourselves more than we could imagine We are told to love ourselves but we don t know how or even why What if we learned actual techniques that helped us love ourselves and align our energy with our Higher Self and the Universe for a more joyous life It s possible and it just takes willingness and practice When we learn and use real tools we are better able to surf the waves of life and meet life with grace When we learn how we are resisting loving ourselves and learn how to allow the love we are to flow through us we utilize the buoyant loving energy of the Universe to flow more smoothly and joyously through life Everything is energy including us When our energy is in balance and flows smoothly we feel harmonious peaceful and aligned with our true nature our Higher Self part of the Universe This is our natural state Daily life often seems to interrupt our connection with our true state of being By working with our energy and metaphysical principles we can remember who we really are we realign with our true self which is pure Love and experience the ease peace and joy that results Metaphysics is about using the energy we are beyond our body in a practical way while we are in this body By understanding that we are both human and Divine and having compassion for how challenging it is to live in this world we begin to understand Love the most powerful force in the Universe This is not mysterious this is very real and very available to each of us The keys to healing are Love and Willingness The keys are yours for the taking

**A Metaphysics of Love** George Pattison,2021 As the third part of a philosophy of Christian life A Metaphysics of Love builds on a view of Christian life as shaped by the dynamic of call response and promise

It argues that love is the ultimate content of this dynamic and considers how far this claim extends Taking its bearings from Dante's vision of divine love as the power that moves the sun and other stars this study explores the requirement that love is both human and cosmic uniting being and beings Cognizant of much recent philosophy's desire to overcome or move beyond a metaphysics of being it examines some of the formal structures that make love possible including language time social being forgiveness and ultimacy Following on from the earlier volumes extensive use is made of the idea of the poetic as the eminent mode of Christian witness contextualized within the prose of everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis vis both classical theism and existential atheism
