Metaphysics Of Religious Belief:

Belief and Metaphysics Conor Cunningham, Peter M. Candler, 2007 This is an exciting distinguished and indeed brave volume on the relation between belief and metaphysics The volume of twenty essays is exciting in that the points of entry to the question of relation and styles of discourse are so varied while less established voices are allowed to sound with the more established it is distinguished not simply because of its many famous names but because it unites in one volume analytic and continental philosophical approaches to the issue to the common purpose of retrieving yet also reconceiving metaphysics and it is brave in that not only does it refuse to indulge the contemporary prejudice against metaphysics and the necessity for belief to forgo the comfort of relation but brings to the surface postmodernity's own penchant for axiomatics and its containment of the religious by uncoupling it from metaphysical commitments Cyril O'Regan Catherine F Huisking Professor of Theology Department of Theology Notre Dame Without metaphysics theology is boring some one says in this book without theology metaphysics goes nowhere some one else says Of course it depends what you mean by metaphysics and for that matter theology There is more than enough here to interest entertain and even enrage philosophers and especially theologians A MARVELLOUS COLLECTION Fergus Kerr O P Honorary Fellow in the School of Divinity at the University of Edinburgh This is a truly splendid collection of essays admirable not only for its range but for its depth It would be hard to assemble a more distinguished cast of contributors and harder still to find another volume that offers comparably rich and varied reflections on the profound relation between faith and metaphysical reasoning David Bentley Ha Religion, Metaphysics, and the Postmodern Christopher Ben Simpson, 2016-08-05 William Desmond's original and creative work in metaphysics is attracting more and more attention from philosophers of religion Putting Desmond in conversation with John D Caputo an important philosopher of religion from the Continental tradition Christopher Ben Simpson casts new light on Desmond's complex multifaceted and nuanced thought The comparative approach allows Simpson to get at the core of recent debates in the philosophy of religion He develops a rich understanding of how ethics and religion are informed by metaphysics and contrasts this approach to the decidedly anti metaphysical stance in Continental philosophy Religion Metaphysics and the Postmodern presents a systematic analysis of Desmond's thought as it advances work on Caputo's thinking and on the philosophy of religion *The Experience of Atheism: Phenomenology, Metaphysics and Religion* Claude Romano, Robyn Horner, 2022-12-29 Religious and atheistic belief are presented anew in a volume of essays from leading phenomenologists in both France and the UK Atheism often presented as the negation of religious belief is here engaged with from a phenomenologically informed notion of experience The focus on experience sparks new debates in readings of belief faith and atheism as they relate to and complicate each other What unites the contributors is their relationship to phenomenology as it has developed in France in the wake of Heidegger and Husserl Leading French intellectuals from this context Jean Luc Nancy Quentin Meillassoux and Catherine Malabou amongst others contribute arresting ideas on atheistic

faith the death of God and anarchic faith opening up new areas of understanding in a field whose parameters and core concepts are ever shifting Revealing the extent to which religious and atheistic belief must be seen to influence and on a fundamental level to co create one another the pluralistic society in which religious belief is counted as one option amongst many is given primacy The fact that religious faith has become not only optional but also in many contexts strangely alienated from society deeply modifies the experience of the believer as much as that of the non believer A focus on experience over and above belief moves us towards a mode of experiential knowledge which refuses to privilege the atheistic believer and deride the reality of religious belief

Experience, Explanation and Faith Anthony O'Hear, 2013-05-02 In this book Anthony O Hear examines the reasons that are given for religious faith His approach is firmly within the classical tradition of natural theology but an underlying theme is the differences between the personal Creator of the Bible or the Koran and a God conceived of as the indeterminate ground of everything determinate Drawing on several religious traditions and on the resources of contemporary philosophy specific chapters analyse the nature of religious faith and of religious experience They examine connections between religion and morality and religion and human knowledge the cosmological teleological and ontological arguments process thought and the problem that evil presents for religion The final chapter returns to the inherently dogmatic nature of religious faith and concludes that rational people should look beyond religion for the fulfilment of their spiritual needs

The Metaphysics of Religion Michael S. Jones, 2006 Lucian Blaga was an early twentieth century European philosopher whose work was suppressed at the height of his career by the creation of the Romanian Socialist Republic Blaga s philosophical writings are rich and creative spanning metaphysics epistemology philosophy of science philosophical anthropology aesthetics philosophy of culture philosophy of history and philosophy of religion Mircea Eliade wrote that Blaga was the most gifted and critical original thinker in the history of Romanian philosophy Because of historical circumstances Blaga s philosophy has not become known outside of his own country although within Romania it continues to be read and discussed Were it to become known outside of Romania Blaga s philosophy could provide interesting contributions to contemporary philosophical discussions The thesis of this book is that Blaga s philosophy can make valuable contributions to contemporary Anglo American philosophy In order to support this thesis Blaga s philosophical system is explained in detail so that the reader may see how it can be applied to a variety of philosophical issues philosophy of religion in order to demonstrate that it can contribute to contemporary Anglo American discussions Michael S Jones is Assistant Professor of Philosophy at Liberty University

Rationality, Religious Belief, and Moral Commitment Robert Audi, William J. Wainwright, 1986 This book is unified by three broad concerns the rationality of belief in God the relation between religion and morality and the explication of the concept of God The essays are however marked by diversity Some focus on historical figures such as Aquinas and Locke others bring recent epistemological and metaphysical developments to bear on problems of religious belief Some of the papers explore neglected issues central to

religious practice such as the question of how total devotion to God can permit other deep commitments others apply philosophical distinctions from within a religious tradition for example in setting out a Christian approach to the problem of evil

Philosophy and the Grammar of Religious Belief Timothy Tessin, Mario Von der Ruhr, 1995 The papers in this collection present a diversity of views on the epistemology of religious belief There is a diversity of views about the intelligibility of particular religious beliefs for example about the reality of God's existence and of miracles There is further disagreement concerning the reasonableness of religious belief itself Some contributors argue that locating grounds for believing in God is still a fruitful undertaking Both issues raise the problem of the philosopher's position vis a vis religious belief Are philosophers in a privileged position to determine either the reasonableness or the intelligibility of religious belief Or is philosophy properly understood a descriptive task The papers in this collection present a diversity of views on this issue too Drawing on the works of Kierkegaard a few of the contributors argue that philosophical description cannot be neatly divorced from religious persuasion Whatever their views on these issues however the contributors accept that philosophical discussion cannot proceed very far without attention to what religious believers say about their beliefs and the practices in which they take part

Wittgensteinian Values Emyr Vaughan Thomas, 2018-01-12 This title was first published in 2001 This work examines the self renouncing dimension which Wittgensteinian philosophy subscribes to ethico religious ideals Wittgensteinian values are explored through a range of literary and cultural illustrations from Wittgenstein's own European milieu The book also highlights an alternative model of self renouncing faith which has methodological implications for how a Wittgensteinian descriptivist approach should be carried out Wittgensteinian assumptions about the nature of self renunciation the religious believer's orientation to the world and the place of the metaphysical in religion are among some of the elements that need to be reappraised

The God of Metaphysics T. L. S. Sprigge, 2006-04-20 Can philosophy offer reasonable grounds for the existence of a God or Absolute possessing genuine even if not orthodox religious significance and not proposed simply as the solution to a purely intellectual philosophical problem Certainly many contemporary thinkers have insisted that no genuine religion could be based upon metaphysics In this book however T L S Sprigge examines sympathetically the most notable metaphysical systems of the last four centuries which purport to put religion on a rational footing and after a thorough examination of their claims considers what kind of religious outlook they might support and more briefly how they actually affected the lives of their proponents The thinkers studied include Spinoza Hegel T H Green Bernard Bosanquet together with a brief discussion of Bradley Josiah Royce A N Whitehead and Charles Hartshorne concluding with an exposition of the author's own viewpoint pantheistic absolute idealism and a general discussion on the relation between metaphysics and religion There is also a chapter on Kierkegaard as the most important critic of metaphysical religion
