Social Science Methodology John Gerring, 2001-09-10 This book offers a one volume introduction to social science methodology relevant to the disciplines of anthropology economics history political science psychology and sociology It is written for beginning students long time practitioners and methodologists and applies to work conducted in qualitative and quantitative styles It synthesizes the vast and diverse field of methodology in a way that is clear concise and comprehensive While offering a handy overview of the subject the book is also an argument about how we should conceptualize methodological problems Tasks and criteria the author argues not fixed rules of procedure best describe the search for methodological adequacy Thinking about methodology through this lens provides a new framework for understanding work in the social sciences

Personality Research, Methods, and Theory Patrick E. Shrout, Susan T. Fiske, 2014-04-04 Donald W Fiske's professional life and collaborations are themselves a textbook in the development of the field of personality From the field's early origins in personnel selection rating accuracy and psychotherapy outcomes to its current status of theoretical and methodological maturity complete with mid life crises the field has been fundamentally changed by Fiske's work and the changes have influenced generations of scholars This festschrift is a celebration of Fiske's impact but not merely of his impact on the history of personality research Instead the volume focuses on ongoing debates and issues that have been framed or influenced by Fiske's work The festschrift's three sections are organized around three themes in Fiske's writings themes that also correspond to three periods in his career This volume examines current thinking about what can be known about personality how constructs relevant to personality psychology are best measured and how to approach specific research problems in personality and related fields The contributors create an eminent cross section of the development and current status of personality methods In addition to Fiske's eminent contemporaries the contributors to this volume include Fiske's former students collaborators and his two children both of whom are behavioral scientists The accomplishments of his students colleagues and children testify to the range of psychologists who have benefited from his scholarly and practical wisdom This collection is a valuable textbook for an advanced graduate course as well as appealing as a scholarly resource Many of the contributors are renowned psychological leaders who have made available their latest original thoughts The book concludes with an essay by Fiske offering his perspective on the central themes behavioral and social science metatheory methods and strategies

Pluralism Gregor McLennan, 1995 Pluralism today is not much a particular school of thought or coherent body of theory McLennan argues that pluralism is an indispensable reference point across a

spectrum of social scientific debates *Selection Theory and Social Construction* Cecilia Heyes, David L. Hull, 2001-08-02

Controversy in Marketing Theory: For Reason, Realism, Truth and Objectivity Shelby D. Hunt, 2016-09-16 In this book distinguished theorist and author Shelby D Hunt analyzes the major controversies in the philosophy debates raging throughout the field of marketing Using an historical approach Hunt argues against relativism and for scientific realism as a philosophy for guiding marketing research and theory He also shows how the pursuit of truth and objectivity in marketing research are both possible and desirable Specific controversies analyzed in the book include Does positivism dominate

marketing research Does positivism imply quantitative methods Is relativism an appropriate foundation for marketing research Does relativism imply pluralism tolerance and openness Should marketing pursue the goal of objective research An ideal companion to Hunt's classic text *Foundations of Marketing Theory* this volume will be equally useful on its own in any graduate level course on marketing theory **Secular Theories on Religion** Tim Jensen, Mikael Rothstein, 2000 Scholars of religious studies from Europe and North America explore what a secular or scientific study of religion should be like what methods it should apply what aims and what kind of scientific thinking should be pursued They also consider scholars as public intellectuals operating within and influenced by general societal developments The 18 essays provide a survey of current thinking in the field Distributed in the US by ISBS c Book News Inc *The Method of Multiple Hypotheses* Charles S. Reichardt, 2021-10-20 This book illustrates the method of multiple hypotheses with detailed examples and describes the limitations facing all methods including the method of multiple hypotheses as the means for constructing knowledge about nature Author Charles Reichardt explains the method of multiple hypotheses using a range of real world applications involving the causes of crime traffic fatalities and home field advantage in sports The book describes the benefits of utilizing multiple hypotheses and the inherent limitations within which all methods must operate because all conclusions about nature must remain tentative and forever subject to revision Nonetheless the book reveals how the method of multiple hypotheses can produce strong inferences even in the face of the inevitable uncertainties of knowledge The author also explicates some of the most foundational ideas in philosophy of science including the notions of the underdetermination of theory by data the Duhem-Quine thesis and the theory-ladenness of observation This book will be important reading for advanced undergraduates graduates and professional researchers across the social behavioral and natural sciences wanting to understand this method and how to apply it to their field of interest Dynamic Assessment, Intelligence and Measurement Raegan Murphy, 2011-01-06 Dynamic Assessment Intelligence and Measurement paves the way for the development of dynamic assessment by applying this unique approach to the assessment of human potential Explores the relationship that dynamic assessment shares with intelligence and measurement Outlines a new approach to the assessment of human intelligence while remaining rooted within the scientific realm of psychology Fuses philosophy science methodology and meta-theory to offer an innovative framework for the assessment of models and theories dynamic assessment intelligence measurement theory and statistical significance testing Provides the theoretical underpinnings that can lead to a new way forward for the movement of dynamic assessment Problem Behavior Theory and the Social Context Richard Jessor, 2017-06-19 This third and final volume of Richard Jessor's collected works explores the central role of the social context in the formulation and application of Problem Behavior Theory It discusses the effect of the social environment especially the social context of disadvantage and limited opportunity on adolescent behavior health and development The book examines the application of the theory in social contexts as diverse as the inner cities of the United States the slums of

Nairobi Kenya and the urban settings of Beijing China It also provides insight into how adolescents and young adults manage to succeed despite disadvantage limited opportunity and even dangers in their everyday life settings It illuminates how these youth manage to stay on track in school avoid unintended pregnancy and dropout keep clear of the criminal justice system and remain uninvolved in heavy drug use In addition the book discusses the conceptual and methodological issues entailed in engaging the social context including the role of subjectivity and meaning in an objective behavioral science the contribution of the perceived environment in determining behavior the continuity that characterizes adolescent growth and development the necessity for a social psychological level of analysis that avoids reductionism the importance of a framework that engages the larger social environment and the advantage of adhering to systematic theory for the explanatory generality it yields Topics featured in this volume include Home leaving and its occurrence among youth in impoverished circumstances The continuity of adolescent developmental change The impact of neighborhood disadvantage on successful adolescent development Successful adolescence in the slums of Nairobi Kenya Explaining both behavior and development in the language of social psychology Problem Behavior Theory and the Social Context is a must have resource for researchers professors clinicians and related professionals as well as graduate students in sociology social and developmental psychology criminology criminal justice public health and allied disciplines

Consilience E. O. Wilson, 2014-11-26 NATIONAL BESTSELLER A dazzling journey across the sciences and humanities in search of deep laws to unite them The Wall Street Journal One of our greatest scientists and the winner of two Pulitzer Prizes for *On Human Nature* and *The Ants* gives us a work of visionary importance that may be the crowning achievement of his career In *Consilience* a word that originally meant jumping together Edward O Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology the social sciences and the humanities Using the natural sciences as his model Wilson forges dramatic links between fields He explores the chemistry of the mind and the genetic bases of culture He postulates the biological principles underlying works of art from cave drawings to *Lolita* Presenting the latest findings in prose of wonderful clarity and oratorical eloquence and synthesizing it into a dazzling whole *Consilience* is science in the path clearing traditions of Newton Einstein and Richard Feynman

The Experimenting Society William N. Dunn, 2024-11-01 An experimenting society is one in which policy relevant knowledge is created It is then critically assessed and communicated in real life or natural settings with the aim of discovering new forms of public action to improve the problem solving capacities of society This latest volume of the distinguished Policy Studies Review Annual series probes evaluates and augments the work of Donald T Campbell on an experimental societies A basic assumption of this volume is that Campbell's perspective supplies a useful way to address increasingly complex and seemingly unmanageable problems facing the United States and other postindustrial societies This volume is also the fourteenth festschrift to be issued by Transaction The focus is on theoretical as well as practical options for creating an experimenting society The rationale for this focus is the belief increasingly shared

in the social science and policy making communities alike that researchers are essentially ignorant about how to solve many of the most pressing larger problems of this epoch This frank recognition of ignorance is a prerequisite of genuine scientific and professional curiosity without which knowledge gains are next to impossible to achieve and a precondition of an experimenting society Contributors to this original volume include Steve Fuller Duncan MacRae Jr Anthony S Bryk Robert A Beauregard Rita Mae Kelly Peter Gregware Burkart Holzner B Guy Peters C West Churchman and Ian I Mitroff Their multidisciplinary competencies are at once philosophical methodological and substantive They address such questions as What new or bold policies are available in domains such as education science and urban development In what ways can theoretical knowledge and practical action be fused so as to illuminate or alleviate policy problems What should be done Included are excerpts from Campbell s foundational paper The Experimenting Society as well as a recent article entitled Methods for the Experimenting Society which circulated in unpublished form for many years An unusual feature of the book is Campbell s responses to those who have addressed his work with candor and intelligence It will be of interest to policy studies scholars sociologists and social scientists
