## **Method Statistics Of Southern European:**

Southern European Challenger Parties against the Mainstream Davide Vittori, 2023-07-18 This book focuses on the rise of new challenger parties and the magnitude of their impact on political systems and the existing political order in Southern Europe in the aftermath of the Great Recession Examining Podemos Spain SYRIZA Greece and M5S Italy it highlights the differences and commonalities between them and their voters The book reveals whether these parties were effectively able to change the status quo represented by mainstream parties and secondly whether they created novel organizational structures capable of bring the people in that is of re mobilizing disenfranchised voters and of re inventing the concept of participation within the political party This book will be of key interest to scholars and students of party politics representation leadership political elites public opinion populism and more broadly to comparative politics European studies and contemporary European history

**Singlewomen in the European Past, 1250-1800** Judith M. Bennett, Amy M. Froide, 2013-02-01 When we think about the European past we tend to imagine villages towns and cities populated by conventional families married couples and their children Although most people did marry and pass many of their adult years in the company of a spouse this vision of a preindustrial Europe shaped by heterosexual marriage deceptively hides the well established fact that in some times and places as many as twenty five percent of women and men remained single throughout their lives Despite the significant number of never married lay women in medieval and early modern Europe the study of their role and position in that society has been largely neglected Singlewomen in the European Past opens up this group for further investigation It is not only the first book to highlight the important minority of women who never married but also the first to address the critical matter of differences among women from the perspective of marital status Essays by leading scholars among them Maryanne Kowaleski Margaret Hunt Ruth Mazo Karras Susan Mosher Stuard Roberta Krueger and Merry Wiesner deal with topics including the sexual and emotional relationships of singlewomen the economic issues and employment opportunities facing them the differences between the lives of widows and singlewomen the conflation of singlewomen and prostitutes and the problem of female slavery The chapters both illustrate the roles open to the singlewoman in the thirteenth through eighteenth centuries and raise new perspectives about the experiences of singlewomen in earlier times

**Handbook of Emergent Methods** Sharlene Nagy Hesse-Biber, Patricia Leavy, 2013-10-15 Social researchers increasingly find themselves looking beyond conventional methods to address complex research questions This is the first book to comprehensively examine emergent qualitative and quantitative theories and methods across the social and behavioral sciences Providing scholars and students with a way to retool their research choices the volume presents cutting edge approaches to data collection analysis and representation Leading researchers describe alternative uses of traditional quantitative and qualitative tools innovative hybrid or mixed methods and new techniques facilitated by technological advances Consistently formatted chapters explore the strengths and limitations of each method for studying different types of research questions
