J. Pettijohn, P. E. Potter, R. Siever, 2012-12-06 This book is the outgrowth of a week long conference on sandstone organized by the authors first held at Banff Alberta in 1964 under the auspices of the Alberta Association of Petroleum Geologists and the University of Alberta and again in 1965 at Bloomington Indiana under the sponsorship of the Indiana Geological Survey and the Department of Geology Indiana University A 2 page syllabus was prepared for the second conference and published by the Indiana Geological Survey Continuing interest in and demand for the syllabus prompted us to update and expand its contents The result is this book We hope this work will be useful as a text or supplementary text for advanced undergraduate and graduate courses in sedimentation sedimentary petrology or general petrology and perhaps will be helpful to the teachers of such courses Though we have focussed on sandstones we have necessarily included much of interest to students of all sediments We hope also that it will be a useful reference work for the professional geologist especially those concerned with petroleum ground water and economic geology either in industry or government Because the subject is so closely tied to surface processes it may also be of interest to geo morphologists and engineers who deal with beaches and rivers where sand is in transit Bodmin Moor: An archaeological survey: Volume 2 Peter Herring, Adam Sharpe, John R. Smith, Colum Giles, Nicholas Johnson, 2014-06-30 Bodmin Moor is an upland landscape heavily protected farmed extensively and with an increasingly light touch and enjoyed by many as a retreat from busier modern worlds But it is also a place of industry and the home of busy agricultural communities Well preserved remains of streamworking mining quarrying clay working turf cutting and more intensive farming were subjected to archaeological survey and historical research as part of the wider ranging survey partly covered in the first volume on prehistoric and medieval landscapes Supplementing the survey text are aerial photographs and detailed line drawings mainly plans and elevations but also reconstructions of sites and schematic representations of processes as well as large scale maps of key areas **Revue de métallurgie**, 1928 *Revue scientifique*, 1913 **Revue scientifique illustrée**, 1909 La Revue scientifique de la France et de l'étranger Revue des cours scientifiques de la France et de l'étranger, 1906 **Bibliographie de la France**, 1902 Bibliographie de l'Empire français ou Journal général de l'imprimerie et de la librairie *Dynamique et méthodes d'...* Association des sédimentologues
