The Methodology of Herbert Blumer Kenneth Baugh (Jr.),1990 Dilemma Qualitative Method Martyn Hammersley,2003-09-02 First Published in 1990 Originally published in 1989 The Dilemma of Qualitative Method is a stimulating guide to the discussion of qualitative versus quantitative approaches to social research originated in nineteenth century debates about the relationship between the methods of history and natural science One of the key theorists in this area was Chicago sociologist Herbert Blumer The book analyses the historical context of the dispute and provides a detailed account and systematic analysis Blumer's methodological writings including his doctoral thesis The strategies for qualitative research advocated by Blumer within the Chicago tradition are reviewed and assessed *Reflexive Methodology* Mats Alvesson,Kaj Sköldbörg,2009-09-02 Praise for the First Edition Reflexive Methodology is a textbook indispensable to any young researcher It does not tell its readers how to do research It does something much more important It shows how research has been done in the qualitative tradition thus encouraging the readers to make their own choices Barbara Czarniawska Göteborg University I would go so far as to argue that this book should be on the reading list of all social scientists and philosophers with an interest in the theory and practice of research Prometheus Reflexive Methodology established itself as a groundbreaking success providing researchers with an invaluable guide to a central problem in research methodology how to put field research and interpretations in perspective paying attention to the interpretive political and rhetorical nature of empirical research Now thoroughly updated the Second Edition includes a new chapter on positivism social constructionism and critical realism and offers new conclusions on the applications of methodology It also provides further illustrations and updates that build on the acclaimed and successful first edition Reflexivity is an essential part of the research process In this book Mats Alvesson and Kaj Skoldberg make explicit the links between techniques used in empirical research and different research traditions giving a theoretically informed approach to qualitative research The authors provide balanced reviews and critiques of the major schools of grounded theory ethnography hermeneutics critical theory postmodernism and poststructuralism discourse analysis genealogy and feminism This book points the way to a more

open minded creative interaction between theoretical frameworks and empirical research It continues to be essential reading for students and researchers across the social sciences *Essential Guide to Qualitative Methods in Organizational Research* Catherine Cassell, Gillian Symon, 2004-05-26 This text covers an array of methods needed for undertaking qualitative data collection analysis It includes 30 chapters each focusing on a specific technique including chapters on traditional methods analysis techniques intervention methods the latest developments in research methods Cultural Psychology and Qualitative Methodology Carl Ratner, 2013-03-09 Qualitative methodologies in cultural psychology often lack the objective and verifiable character of quantitative analysis Author Carl Ratner corrects this shortcoming by rigorously systematizing qualitative methods The book discusses for example means of systematizing such subjective reports as interviews letters and diaries which often yield valuable data that is not easily quantified Ratner argues that complex psychological phenomena are expressed through extended responses and hence are best studied by new more regularized qualitative methods that go beyond measuring simple overt responses *Mixed Methodology* Abbas Tashakkori, Charles Teddlie, 1998-06-24 Authors Abbas Tashakkori and Charles Teddlie explore the most resourceful way to combine qualitative and quantitative methodologies Researchers wanting to learn how to think about and utilize mixed methods in their studies will find this an indispensable guide for their work **A Handbook of Qualitative Methodologies for Mass Communication Research** Nicholas W.
