Organizational Learning In The Automotive Sector:

Organisational Learning in the Automotive Sector Dr Penny West, Penny West, 2002-01-04 This book considers the concepts of organisational learning and the learning organisation and critically examines their take up within the context of four contemporary work organisations in the European automotive sector Within this dynamic environment the pursuit and implementation of approaches that encourage individuals to learn and challenge existing orthodoxy are now dominant on the management agenda Changes to processes structures cultures and the employment relationship per se

Organizational Learning and Continuous Quality Improvement in an Automotive Manufacturing Organization Carole K. Barnett, 1994

Towards a new order in the global automotive industry: How Asian companies catch up to their western peers Daniel Wäldchen, 2014-02-01 The global automotive industry faces the most influential changes since the revolutionary introduction of mass production a century ago Latecomer firms from Asia are challenging the western incumbents They can change the rules of the game in the industry by leapfrogging several steps in their development process This study seeks to contribute to the discussion of latecomer firms by gaining insights into the catch up processes of five automotive companies in the passenger car segment namely BYD PRC Chery PRC Geely PRC Tata Motors India and Mahindra Mahindra India Based on learning theories and the core processes of car manufacturers the author develops a catch up framework in order to compare automotive latecomers The Korean manufacturer Hyundai serves as an example for a successful catch up and provides a contextual framing for catch up processes in the automotive sector An analysis of empirical data provides evidence for the evaluation of the catch up status of the five challenger firms The author emphasizes the influence of institutional settings in China and India and the role of business groups that can act as facilitators for the catch up process Finally the study clusters the catch up strategies of the five observed companies in order to compare their approach

Handbook of Organizational Learning and Knowledge Meinolf Dierkes, 2003 In an era of far reaching changes organizational learning and knowledge creation are high on the agenda of social scientists managers and consultants worldwide as they seek to adapt to new environments The Handbook of Organizational Learning and Knowledge provides a comprehensive overview of how the concept of organizational learning emerged how it has been used and debated and where it may be going It summarizes the state of the art and provides a full account of the diverse approaches themes issues and debates of the field The handbook unites a distinguished team of international authors who examine both the central themes and key emerging issues The coverage extends beyond the American tradition to include the experiences of Europe Asia and the Middle East The book opens with chapters drawing insights from various social science approaches The following sections examine fundamental issues concerning the external triggers factors and conditions agents and processes of organizational learning Subsequent chapters review the subject within a global context looking in particular at processes of interorganizational learning and knowledge transfer The next sections examine the development of learning practices and

provide case studies to illustrate organizational learning and knowledge creation The book concludes with an analysis of the state of the art and an agenda for the future This handbook will be an invaluable reference tool for scholars and students in the social sciences as well as for professional involved in organizational development learning and change Understanding Human Resource Development Jim McGoldrick, Jim Stewart, Sandra Watson, 2003-09-02 This edited volume contains original chapters by some of the leading researchers and writers in HRD It provides a definitive work on the design and conduct of research in HRD and identifies and examines the possibilities and limitations of particular methods and techniques Emerging debates on the purpose nature and practice and theoretical base of HRD are examined Each chapter is structured with Statement of aims Description of theoretical and empirical context Identification and examination of methodological issues Description and evaluation of research design Critical analysis and evaluation Key learning points **Handbook of Research on the Learning Organization** Anders Örtengren, 2013-09-30 This timely Handbook establishes the contextualization of the learning organization idea as a research field Knowledge Management, Organizational Culture and Organizational Learning on Innovation in Automotive Industry Kambiz Abdi, 2016 Proceedings of IAC 2020 in Budapest Group of Authors, 2020-03-13 International Academic Conference on Teaching Learning and E learning International Academic Conference on Management Economics and Marketing International Academic Conference on Transport Logistics Tourism and Sport Science **Work Organizational Reforms and Employment Relations in the Automotive Industry** Kenichi Shinohara, 2022-05-26 General Motors GM s attempt to adapt the renowned Toyota production system for its own automotive manufacturing plants had historically produced disappointing results Why was it not sufficiently successful This book aims to shed insights into GM s failed attempt through the analysis of work organization reforms and labor management relations on production system efficiency The book examines collective bargaining agreements between automakers and the United Auto Workers union and the arbitration rulings in retrospect to illuminate the critical role continuous improvement activities initiated by production workers would play in enhancing performance management It also looks at the impact of the meritocratic system in Japanese auto plants on performance success As GM begins operations at its new electric vehicle assembly plant Factory Zero the book analyses the challenges of such production for both employment relations and workforce deployment The book will be a useful reference for those interested in a comparative study of management styles and a better understanding of Japanese manufacturing practices Capability Building and Global Innovation Networks Michael Gastrow, Glenda Kruss, 2017-10-02 This book explores the dynamics of global innovation networks and their implications for development Knowledge is often seen as the main determinant of economic growth competitiveness and employment There is a strong causal interaction between capability building and the growth in demand for and supply of technical and organizational innovation This complex of skills knowledge and innovation holds great potential benefit for development particularly in the context of developing countries However despite evidence of

the increasing importance of knowledge and innovation there has been relatively little research to understand the distribution and coordination of innovation and knowledge intensive economic activities on a global scale and what this might mean for economic development Each chapter though sharing an underlying conception of innovation systems innovation networks and their relation to capability building and development takes a different theoretical stance The authors explore the emerging relationship between competence building and the structure of global innovation networks thus providing a valuable new perspective from which to critically assess their development potential This book was originally published as a special issue of Innovation and Development
