Music, Encounter, Togetherness Nicholas Cook, 2024-04-23 Modern Western musical thought tends to represent music as a thing a pattern a structure even an organism than as a human practice Music Encounter Togetherness focusses on music as something people do as a mode of encounter between individuals and cultures and as an agent of interpersonal and social togetherness It presents music as a utopian dimension of everyday life **Early Modern Tales of Orient** Kenneth

Parker, 1999 Early Modern Tales of Orient challenges the widely held assumption that English travelers originally went to the Orient to colonize Gathered together for the first time this collection of Renaissance traveler s tales presents startling evidence that early modern journeys were oftentimes made not to conquer exotic foreign countries but instead to beg favors Entertaining and highly readable these ten stories of exploration diplomacy commerce and tourism were extremely popular in their own time Though 400 years old the stories bring to light issues that resonate today Islamophobia English nationalism representations of Turks and Persians and the Catholic Protestant divide **Scripted Geographies** Gayle R. Nunley, 2007

This study offers the first book length exploration of travel narratives by nineteenth century Spanish authors Focusing on texts produced during a crucial period in the development of Spain s modern consciousness at the close of its imperial age Scripted Geographies shows how writers strategies of travel representation reflected and participated in this process of cultural transformation The first two chapters devoted to travel within Europe explore constructions of Spain s sometimes problematic encounter with Western society and traditions The final chapters shift to orientalist travel allowing reflection on how Spanish renderings of the non Western other intersect with patterns found in the better known corpus of orientalist literature produced in then ascendant imperial powers like Britain and France These textual constructions of cultural difference reflect at a profound level their authors preoccupations and hopes for Spain as well as their strong awareness of both the powers and dangers inherent in the process of representing real world experience via language Professor of Spanish at the University of Vermont **The Orient and the Young Romantics** Andrew Warren, 2014-11-06 Through close readings of major poems this book examines why the second generation Romantic poets Byron Shelley and Keats stage so much of their poetry in Eastern or Orientalized settings It argues that they do so not only to interrogate their own imaginations but also as a way of criticizing Europe s growing imperialism For them the Orient is a projection of Europe s own fears and desires It is therefore a charged setting in which to explore and contest the limits of the age s aesthetics politics and culture Being nearly always self conscious and ironic the poets treatment of the Orient becomes itself a twinned criticism of Romantic egotism and the Orientalism practised by earlier generations The book goes further to claim that poems like Shelley s Revolt of Islam Byron s Eastern Tales or even Keats s Lamia anticipate key issues at stake in postcolonial studies more generally **Peeps at Many Lands: Turkey** Julius R.
