Prokofieff, 2013 2 lectures by Sergei O Prokofieff Bologna March 31 April 8 2011 A special conference took place in Bologna in spring 2011 marking the hundredth anniversary of a unique lecture Steiner delivered to a philosophically trained audience in the same city In his key exposition Steiner had given a concise description of the spiritual scientific theory of knowledge as well as a brief outline of the anthroposophic path of training In his contribution to the 2011 congress Prokofieff tackles two principal aspects On the one hand he describes how Steiner s Bologna lecture contained the essential foundations for a new science of the human ego the human I On the other hand Prokofieff states that Steiner was the first person to transform this theory into a practical path of knowledge following it to its very conclusion Thus the words of Steiner s lecture were based entirely on personal experience Together with a transcript of Steiner s full Bologna lecture Prokofieff s lecture is reproduced here in an expanded version In addition this volume features Steiner s important summaries of essential points in which he develops and connects some of his key thoughts with further aspects of Anthroposophy especially in relation to their Christological foundations **Theosophical Essays** Annie Besant, 1895

The Theosophical Quarterly, 1894 *Excluded Ancestors, Inventible Traditions* Richard Handler, 2000-11-16 History making can be used both to bolster and to contest the legitimacy of established institutions and canons *Excluded Ancestors Inventible Traditions* seeks to widen the anthropological past and in doing so to invigorate contemporary anthropological practice In the past decade anthropologists have become increasingly aware of the ways in which participation in professional anthropology has depended and continues to depend on categorical boundaries of race class gender citizenship institutional and disciplinary affiliation and English language proficiency Historians of anthropology play a crucial role interrogating such boundaries as they do they make newly available the work of anthropologists who have been ignored

Excluded Ancestors Inventible Traditions focuses on little known scholars who contributed to the anthropological work of their time such as John William Jackson the members of the Hampton Folk Lore Society Charlotte Gower Chapman and Lucie Varga In addition essays on Marius Barbeau and Sol Tax present figures who were centrally located in the anthropologies of their day A final essay analyzes notions of the canon and considers the place of a classic ethnographic area highland New Guinea in anthropological canon formation

Recycled Lives Julie Chajes,2019-01-02 A sizeable minority of people with no particular connection to Eastern religions now believe in reincarnation The rise in popularity of this belief over the last century and a half is directly traceable to the impact of the nineteenth century s largest and most influential Western esoteric movement the Theosophical Society In Recycled Lives Julie Chajes looks at the rebirth doctrines of the matriarch of Theosophy the controversial occultist Helena Petrovna Blavatsky 1831 1891 Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life In particular she explores Blavatsky s readings and misreadings of Spiritualist currents scientific theories Platonism and Hindu and Buddhist thought These in turn are set in relief against broader nineteenth century American and European trends The chapters come together to reveal the contours of a modern perspective on reincarnation that is inseparable from the nineteenth century discourses within which it emerged and which has shaped how people in the West tend to view reincarnation today

Unity ,1906 **Theosophy across Boundaries** Hans Martin Krämer,Julian Strube,2020-11-01 Theosophy across Boundaries brings a global history approach to the study of esotericism highlighting the important role of Theosophy in the general histories of religion science philosophy art and politics The first half of the book consists of seven perspectives on the activities of the Theosophical Society in very different regional contexts ranging from India Vietnam China and Japan to Victorian Britain and Israel shedding new light on the entanglement of Western and Oriental ideas around 1900 The second half explores specific cultural influences that Theosophy exerted in the spheres of literature art and politics using case studies from Sri Lanka Burma India Japan Ireland Germany and Russia The examples clearly show that Theosophy was part of a truly global movement thus providing an outstanding example of the complex entanglements of the global religious history of the nineteenth and early twentieth

centuries Unbelief in the Nineteenth Century Henry Clay Sheldon, 1907 South Asian Transnationalisms Babli Sinha, 2014-02-25 South Asian Transnationalisms explores encounters in twentieth century South Asia beyond the conventional categories of center and periphery colonizer and colonized Considering the cultural and political exchanges between artists and intellectuals of South Asia with counterparts in the United States continental Europe the Caribbean and East Asia the contributors interrogate the relationships between identity and agency language and space race and empire nation and ethnicity and diaspora and nationality This book deploys transnational syntaxes such as cinema dance and literature to reflect on social technological and political change Conceiving of the transnational as neither liberatory nor necessarily hegemonic the authors seek to explore the contradictions opportunities disjunctures and exclusions of the vexed experience of globalization in South Asia This book was published as a special issue of South Asian History and Culture

The Theosophical Society Jeffrey D. Lavoie, 2012 This peer reviewed study represents a culmination of years of research into the history of the Theosophical Society In this unique project which combines biographies with source analyses Jeffrey D Lavoie records a detailed history of the early Theosophical Society and examines its relationship with the modern Spiritualist movement between the years 1875 1891 Special attention has been paid to some of the neglected figures associated with these organizations including Arthur Lillie the Gnostic occultist and early critic of the Theosophical Society the Davenport Brothers the Spiritualist mediums who developed many of the standard elements which became associated with modern Spiritualism Alfred Wallace the prominent scientist Spiritualist and supposed member of the Theosophical Society and many others This work will appeal to a wide array of readers including those interested in modern religious movements Western Esotericism South Asian history and Victorian studies **Dust on the Throne** Douglas

Ober, 2023-03-28 Received wisdom has it that Buddhism disappeared from India the land of its birth between the thirteenth and fourteenth centuries long forgotten until British colonial scholars re discovered it in the early 1800s Its full fledged revival so the story goes only occurred in 1956 when the Indian civil rights pioneer Dr B R Ambedkar converted to Buddhism along with half a million of his Dalit formerly untouchable followers This however is only part of the story Dust on the Throne reframes discussions about the place of Buddhism in the subcontinent from the early nineteenth century onwards uncovering the integral yet unacknowledged role that Indians played in the making of modern global Buddhism in the century prior to Ambedkar s conversion and the numerous ways that Buddhism gave powerful shape to modern Indian history Through an extensive examination of disparate materials held at archives and temples across South Asia Douglas Ober explores Buddhist religious dynamics in an age of expanding colonial empires intra Asian connectivity and the histories of Buddhism produced by nineteenth and twentieth century Indian thinkers While Buddhism in contemporary India is often disparaged as being little more than tattered manuscripts and crumbling ruins this book opens new avenues for understanding its substantial socio political impact and intellectual legacy **Theosophical Enlightenment** Joscelyn Godwin, 1994-10-28 This is an

intellectual history of occult and esoteric currents in the English speaking world from the early Romantic period to the early twentieth century The Theosophical Society founded in 1875 by Helena P Blavatsky holds a crucial position as the place where all these currents temporarily united before again diverging The book s ambiguous title points to the author s thesis that Theosophy owed as much to the skeptical Enlightenment of the eighteenth century as it did to the concept of spiritual enlightenment with which it is more readily associated The author respects his sources sufficiently to allow that their world so different from that of academic reductionism has a right to be exhibited on its own terms At the same time he does not conceal the fact that he considers many of them deluded and deluding In the context of theosophical history this book is neither on the side of the blind votaries of Madame Blavatsky nor on that of her enemies It may therefore be expected to mildly annoy both sides **Theosophical Quarterly** ,1924 **The Medical Missionary** ,1914 **Sohkido**
