Origins Of The Other Emmanuel Levinas Between Revelation And Ethics:

Origins of the Other Samuel Moyn, 2005 Restoring Levinas to the intellectually rich and combative atmosphere of interwar Europe Origins of the Other overturns a number of views that have attained almost stereotypical familiarity In a careful overview of Levinas s career Moyn documents the philosopher s early allegiance to the great German thinker Martin Heidegger Showing that Levinas crafted an idiosyncratic vision of Judaism rather than returning to any traditional source Moyn makes the startling suggestion that Protestant theology as it spread across the continent in new forms may have been the most plausible source of Levinas s core concept **India and the Quest for One World** M. Bhagavan, 2013-09-27 India and the Quest for One World revolutionizes the history of human rights with dramatic impact on some of the most contentious debates of our time by capturing the exceptional efforts of Mahatma Gandhi and the Nehrus to counter the divisions of the Cold War with an uplifting new vision of justice built on the principle of unity in diversity The Early Karl Barth Paul Silas Peterson, 2018-04-06 Paul Silas Peterson presents Karl Barth 1886 1968 in his sociopolitical cultural ecclesial and theological contexts from 1905 to 1935 In the foreground of this inquiry is Barth s relation to the features of his time especially radical socialist ideology WWI an intellectual trend that would later be called the Conservative Revolution the German Christians the Young Reformation Movement and National Socialism From back of book Understanding Rosenstock-Huessy Norman Fiering, 2022-03-17 The contributions of Eugen Rosenstock Huessy 1888 1973 one of the most profound and original thinkers of the twentieth century span several disciplines in the humanities history philosophy sociology linguistics religion although his work is ultimately uncategorizable In 1933 immediately upon the ascent of Hitler he emigrated to the United States from Germany taught at Harvard for two years and then at Dartmouth College until 1957 His voice was prophetic urgent compelling and it remains relevant This collection of essays is by a retired professor of history who was a student of Rosenstock Huessy s in the 1950s and found his lecturing transformative It is not a nostalgic book however It is written with the conviction that Rosenstock Huessy still needs to be heard more urgently than ever for the betterment of humankind Gendering Modern Jewish Thought Andrea Dara Cooper, 2021-11-02 The idea of brotherhood has been an important philosophical concept for understanding community equality and justice In Gendering Modern Jewish Thought Andrea Dara Cooper offers a gendered reading that challenges the key figures of the all male fraternity of twentieth century Jewish philosophy to open up to the feminine Cooper offers a feminist lens which when applied to thinkers such as Franz Rosenzweig and Emmanuel Levinas reveals new ways of illuminating questions of relational ethics embodiment politics and positionality She shows that patriarchal kinship as models of erotic love brotherhood and paternity are not accidental in Jewish philosophy but serve as norms that have excluded women and non normative individuals Gendering Modern Jewish Thought suggests these fraternal models do real damage and must be brought to account in more broadly humanistic frameworks For Cooper a more responsible and ethical reading of Jewish philosophy comes forward when it is opened to the

Understanding Others

Dominick LaCapra, 2018-09-15 To what extent do we and can we understand others other peoples species times and places What is the role of others within ourselves epitomized in the notion of unconscious forces Can we come to terms with our internalized others in ways that foster mutual understanding and counteract the tendency to scapegoat project victimize and indulge in prejudicial and narcissistic impulses How do various fields or disciplines address or avoid such questions And have these questions become particularly pressing and not in the least confined to other peoples times and places Making selective and critical use of the thought of such important figures as Sigmund Freud Jacques Derrida and Mikhail Bakhtin in Understanding Others Dominick LaCapra investigates a series of crucial topics from the current state of deconstruction trauma studies and the humanities to newer fields such as animal studies and posthumanist scholarship LaCapra adroitly brings critical historical thought into a provocative engagement with politics and our current political climate This is LaCapra at his best critically rethinking major currents and exploring the old and the new in combination often suggesting what this means in the age of Trump

Standing under the Cross

Michael Mawson, 2023-09-07 Standing Under the Cross focuses on Bonhoeffer's rich theological and ethical thinking It places Bonhoeffer in conversation with a wide range of modern theologians including Karl Barth Franz Rosenzweig Jürgen Moltmann and James Cone The book gives particular attention to hermeneutics the body and Bonhoeffer's rich reflections on community and discipleship Mawson attends to the complex ways in which these aspects of Bonhoeffer's thinking work together and shows how they can assist us in responding to some of the challenges confronting us today

To Make the Hands Impure

Adam Zachary Newton, 2016-01-01 How can cradling handling or rubbing a text be said ethically to have made something happen What as readers or interpreters may come off in our hands in as we maculate or mark the books we read For Adam Zachary Newton reading is an embodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard With the image of the book lying in the hands of its readers as insistent refrain To Make the Hands Impure cuts a provocative cross disciplinary swath through classical Jewish texts modern Jewish philosophy film and performance literature translation and the material text Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad's Nostromo and Pascal's Le Mémorial from works

by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana Cuba In separate chapters he conducts masterly treatments of Emmanuel Levinas Mikhail Bakhtin and Stanley Cavell by emphasizing their performances as readers a trebled orientation to Talmud novel and theater film To Make the Hands Impure stages the encounter of literary experience and scriptural traditions the difficult and the holy through an ambitious singular and innovative approach marked in equal measure by erudition and imaginative daring

Theology and the Soul of the Liberal State Leonard V. Kaplan, Charles L. Cohen, 2010-01-01 Rising calls in both the United States and abroad for theologizing national agendas have renewed examinations about whether liberal states can accommodate such programs without either endangering citizens rights or trivializing religious concerns Conventional wisdom suggests that theology is necessarily unfriendly to the liberal state but neither philosophical analysis nor empirical argument has convincingly established that conclusion Examining the problem from a variety of perspectives including law philosophy history political theory and religious studies the essays in Theology and the Soul of the Liberal State suggest the possibilities for and limits on what theological reflection might contribute to liberal polities across the globe Theology and the Soul of the Liberal State develops these issues under five headings Part One explores The Nature of Religious Argument as it can inflect discussions of public policy political theory jurisprudence and education Part Two Theologies of the Marketplace notes that theology can by turns be highly critical neutral or even inordinately supportive of market operations Part Three European Perspectives reviews and develops arguments from Abraham Kuyper Karl Barth and French post modernists concerning how one might integrate theological discourse into the public sphere Part Four offers Israel Pakistan and Tibet as Asian Perspectives on how theology may comport with liberalism in recently created states or in the last case a diasporic government in exile where powerful religious constituencies make secular civil action extremely problematic Finally Part V Religion and Terror probes the vexed relationship between conceptions of divine and human justice where the imperatives of theology and state confront each other most nakedly Collectively Theology and the Soul of the Liberal State suggests that the liberal state cannot keep theology out of public discourse and may even benefit from its intervention but that their intersection if potentially beneficial is always fraught

Solidarity in a Secular Age Charles H. T. Lesch, 2022 In an age of declining religiosity and rising nationalism how can we form strong social bonds without racism demagoguery and xenophobia In Solidarity in a Secular Age Charles H T Lesch responds to this question by narrating an untold story of European political theology and spotlighting a neglected strand of modern Jewish philosophy to propose a new theory of liberal democratic solidarity Radically revising political theory s relationship to religion he challenges us to rethink and rebuild our social bond

Europe and Its Boundaries Andrew Davison, Himadeep Muppidi, 2009-01-01 In crating a forum for a deeply hermeneutical consideration of the project of provincializing Europe this book articulates an alternative grammar of global political thought It shows that forms of global political thought are capable of residing simultaneously within as well as significantly beyond the boundaries

of European thought **Situating Existentialism** Jonathan Judaken, Robert Bernasconi, 2012-06-05 This anthology provides a history of the systemization and canonization of existentialism a quintessentially antisystemic mode of thought Situating existentialism within the history of ideas it features new readings on the most influential works in the existential canon exploring their formative contexts and the cultural dialogues of which they were a part Emphasizing the multidisciplinary and global nature of existential arguments the chosen texts relate to philosophy religion literature theater and culture and reflect European Russian Latin American African and American strains of thought Readings are grouped into three thematic categories national contexts existentialism and religion and transcultural migrations that explore the reception of existentialism The volume explains how literary giants such as Dostoevsky and Tolstoy were incorporated into the existentialist fold and how inclusion into the canon recast the work of Kierkegaard and Nietzsche and it describes the roles played by Jaspers and Heidegger in Germany and the Paris School of existentialism in France Essays address not only frequently assigned works but also underappreciated discoveries underscoring their vital relevance to contemporary critical debate Designed to speak to a new generation's concerns the collection deploys a diverse range of voices to interrogate the fundamental questions of the human condition **Transcendence and the Concrete** Jean Wahl, 2016-11-01 Jean Wahl 1888 1974 once considered by the likes of Georges Bataille Gilles Deleuze Emmanuel Levinas and Gabriel Marcel to be among the greatest French philosophers has today nearly been forgotten outside France Yet his influence on French philosophical thought can hardly be overestimated Levinas wrote that during over a half century of teaching and research Wahl was the life force of the academic extra academic and even to a degree anti academic philosophy necessary to a great culture And Deleuze for his part commented that Apart from Sartre who remained caught none the less in the trap of the verb to be the most important philosopher in France was Jean Wahl Besides engaging with the likes of Bataille Bergson Deleuze Derrida Levinas Maritain and Sartre Wahl also played a significant role in some cases almost singlehandedly in introducing French philosophy to movements like existentialism and American pragmatism and literature and thinkers like Hegel Kierkegaard Nietzsche Jaspers and Heidegger Yet Wahl was also an original philosopher and poet in his own right This volume of selections from Wahl's philosophical writings makes a selection of his most important work available to the English speaking philosophical community for the first time Jean Wahl was Professor of Philosophy at the Sorbonne from 1936 to 1967 save during World War II which he spent in the United States having escaped from the Drancy internment camp His books to appear in English include The Pluralist Philosophies of England and America Open Court 1925 The Philosopher's Way Oxford UP 1948 A Short History of Existentialism Philosophical Library 1949 and Philosophies of Existence Schocken 1969 **Heidegger's Children** Richard Wolin, 2015-08-25 Martin Heidegger is perhaps the twentieth century's greatest philosopher and his work stimulated much that is original and compelling in modern thought A seductive classroom presence he attracted Germany's brightest young intellectuals during the 1920s Many were Jews who ultimately would have to reconcile

their philosophical and often personal commitments to Heidegger with his nefarious political views In 1933 Heidegger cast his lot with National Socialism He squelched the careers of Jewish students and denounced fellow professors whom he considered insufficiently radical For years he signed letters and opened lectures with Heil Hitler He paid dues to the Nazi party until the bitter end Equally problematic for his former students were his sordid efforts to make existential thought serviceable to Nazi ends and his failure to ever renounce these actions This book explores how four of Heidegger's most influential Jewish students came to grips with his Nazi association and how it affected their thinking Hannah Arendt who was Heidegger's lover as well as his student went on to become one of the century's greatest political thinkers Karl L with returned to Germany in 1953 and quickly became one of its leading philosophers Hans Jonas grew famous as Germany's premier philosopher of environmentalism Herbert Marcuse gained celebrity as a Frankfurt School intellectual and mentor to the New Left Why did these brilliant minds fail to see what was in Heidegger's heart and Germany's future How would they after the war reappraise Germany's intellectual traditions Could they salvage aspects of Heidegger's thought Would their philosophy reflect or completely reject their early studies Could these Heideggerians forgive or even try to understand the betrayal of the man they so admired Heidegger's Children locates these paradoxes in the wider cruel irony that European Jews experienced their greatest calamity immediately following their fullest assimilation And it finds in their responses answers to questions about the nature of existential disillusionment and the juncture between politics and ideas The Cultures of Maimonideanism James T. Robinson, 2009 In the history of Jewish thought no individual scholar has exercised more influence than Maimonides 1138-1204 philosopher and physician legal scholar and communal leader This collection of papers originating at the 2007 EAJS colloquium places primary emphasis on this influence not on Maimonides himself but the many movements he inspired Using Maimonideanism as an interpretive lens the authors of this volume representing a variety of fields and disciplines develop new approaches to and fresh perspectives on the peculiar dynamic of Judaism and philosophy Focusing on social and cultural processes as well as philosophical ideas and arguments they point toward an original reconceptualization of Jewish thought **The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century** Warren Breckman, Peter E. Gordon, 2019-08-29 An authoritative and comprehensive survey of the major themes thinkers and movements in modern European intellectual history **Corporate Social Irresponsibility** Paula Alexander, 2015-02-11 Corporate Social Irresponsibility focuses on ethical failures in order to relate corporate responsibility to business ethics corporate governance and organization effectiveness The book advocates a strategic approach to CSR ethical management cannot and should not be divorced from effective management Corporate social responsibility has transitioned from oxymoron into a defining challenge of the twenty first century Taking the recent financial crisis as a starting point Alexander examines the underlying ethical and legal crises these events expose in the business world The problems that have come to light go beyond issues of firm financial performance into the integrity of the

manufacturing and marketing processes and relations with consumers As such the book presents a model that resolves the apparent conflict between maximizing shareholder value and meeting the interests of other firm stakeholders Alexander presents a balanced view contrasting her model with alternative approaches The book also covers the impact of globalization on management the ethics of outsourcing the limits of regulation as well as poverty alleviation and social entrepreneurship Blending a comprehensive theoretical framework with a broad range of cases this book covers the latest major changes in US legislation as well as recent corporate scandals making it a valuable accompaniment to any course in CSR business ethics or business government and society

Karl Barth: Post-Holocaust Theologian? George Hunsinger, 2018-02-22 Karl Barth's attitude toward the Jews despite some admittedly unfortunate elements still has much to commend it and the essays in this volume discuss this matter The contributors examine numerous topics the extent to which Barth compares favorably with recent post Holocaust theologies Barth's position on the Jews during the Third Reich his critique of the German Christian Volkish church on ethical grounds The discussion tackles Barth's dialectical Yes to Israel's christological No it unpacks his ground breaking exegesis of Rom 9:11 as well as examines Barth's rejection of the 1933 Aryan Law that formed the basis for excluding baptized Jews from Christian communities during the Third Reich The essays also examine Barth's later worries about Nostra Aetate Vatican II's landmark Declaration on the Relation of the Church to Non-Christian Religions This is followed by an in depth explanation how Barth's theology differentiated the question of religious pluralism from church's relationship with Judaism This inspiring volume concludes by taking up the neglected question of Barth's place in modern European history

History and Its Limits Dominick LaCapra, 2011-02-23 Dominick LaCapra's History and Its Limits articulates the relations among intellectual history cultural history and critical theory examining the recent rise of Practice Theory and probing the limitations of prevalent forms of humanism LaCapra focuses on the problem of understanding extreme cases specifically events and experiences involving violence and victimization He asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent In addressing these questions he also investigates violence's impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime often unreflectively amalgamated with the uncanny In History and Its Limits LaCapra inquires into the related phenomenon of a turn to the postsecular even the messianic or the miraculous in recent theoretical discussions of extreme events by such prominent figures as Giorgio Agamben Eric L Santner and Slavoj Žižek In a related vein he discusses Martin Heidegger's evocative if not enchanting understanding of The Origin of the Work of Art LaCapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial regenerative or redemptive terms by a series of important modern intellectuals on both the far right and the far left including Georges Sorel the early Walter Benjamin Georges Bataille Frantz Fanon and Ernst Jünger Violence and victimization are prominent in the relation between the human and the animal LaCapra questions prevalent

anthropocentrism evident even in theorists of the posthuman and the long standing quest for a decisive criterion separating or dividing the human from the animal LaCapra regards this attempt to fix the difference as misguided and potentially dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with the environment In raising the issue of desirable transformations in modernity *History and Its Limits* examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits including limits blocking the recognition that humans are themselves animals
