The Many Deaths of Peter and Paul David L. Eastman,2019-05-02 The early accounts of one of the most famous scenes in Christian history the death of Peter do not present a single narrative of the events for they do not agree on why Peter requested to die in the precise way that he allegedly did Over time historians and theologians have tended to smooth over these rough edges creating the impression that the ancient sources all line up in a certain direction This impression however misrepresents the evidence The reason for Peter s inverted crucifixion is not the only detail on which the sources diverge In fact such disagreement can be seen concerning nearly every major narrative point in the martyrdom accounts of Peter and Paul The Many Deaths of Peter and Paul shows that the process of smoothing over differences in order to create a master narrative about the deaths of Peter and Paul has distorted the evidence This process of distortion not only blinds us to

differences in perspective among the various authors but also discourages us from digging deeper into the contexts of those authors to explore why they told the stories of the apostolic deaths differently in their contexts David L Eastman demonstrates that there was never a single unopposed narrative about the deaths of Peter and Paul Instead stories were products of social memory told and re told in order to serve the purposes of their authors and their communities The history of the writing of the many deaths of Peter and Paul is one of contextualized variety Subject Guide to Children's Books in Print ,1987 **Animals and the Economy** Steven McMullen,2016-08-11 This book explores the economic institutions that determine the nature of animal lives as systematically exploited objects traded in a market economy It examines human roles and choice in the system including the economic logic of agriculture experimentation and animal ownership and analyses the marginalization of ethical action in the economic system Animals and the Economy demonstrates that individual consumers and farmers are often left with few truly animal friendly choices Ethical participants in the economy must either face down an array of institutional barriers or exit mainstream markets entirely This book argues that these issues are not necessary elements of a market system and evaluates a number of policy changes that could improve the lives of animals in the context of a market economy **Color and Shape Books for All Ages** Cathie Hilterbran Cooper,2000 Color and Shape Books for All Ages calls attention to more than 450 titles focused on the concepts of color and shape The purposes of the color and shape books range from simply learning the names of colors or identifying simple shapes to recognizing intricate geometric shapes or even understanding how color affects responses moods and attitudes The Mirror E.N.O Provencal,2000-02-12 The Bookseller ,1906 The Solicitors' Journal ,1887 St. Nicholas Mary Mapes Dodge,1880 **Hey Kids!
