Marco, 2025-03-23 In the midst of the cataclysmic conflicts of World Wars I and II there was a more personal level of combat where individual soldiers faced each other in close quarters combat In these moments the handgun became the equalizer a compact and deadly weapon that could turn the tide of a battle From the mud soaked trenches of the Western Front to the sun baked sands of North Africa the handgun played a critical role in both world wars It was the weapon of choice for raiding parties scouts and paratroopers and it was often the last line of defense for soldiers surrounded by the enemy Handguns were used to clear bunkers defend foxholes and even engage in aerial combat In the hands of skilled soldiers the handgun could be a devastating weapon Expert marksmen could pick off enemy soldiers from hundreds of yards away while others used their handguns in close quarters combat firing from the hip or even point blank range The handgun was also a symbol of authority and power carried by officers and non commissioned officers to enforce discipline and maintain order This book explores the role of handguns in World Wars I and II from their development and production to their use in combat and their impact on society Drawing on a wealth of primary sources including memoirs diaries and official records this book tells the stories of the soldiers who carried handguns into battle the weapons they used and the impact of handguns on the course of the war Whether you're a history buff a firearms enthusiast or simply someone interested in the human side of war this book offers a fascinating and informative look at the role of handguns in one of the most significant conflicts in human history If you like this book write a review **Arming for the Apocalypse** James Ballou, 2018-01-18 Global economic meltdown

Widespread natural disaster Disease pandemic It doesn't matter the cause In the coming Dark Age the delicate supply infrastructures of modern society will collapse and you will no longer have access to groceries gasoline or guns The time to assemble your arsenal is now says author Jim Ballou and here he guides you through the many crucial factors you must consider when selecting firearms for a post apocalyptic future Some of the topics he covers include What are the five basic questions you must ask yourself when selecting any handgun rifle or shotgun for the apocalypse How can you squeeze surprisingly useful life saving service from older or low value firearms What vital support gear must you have when you are

forced to become your own gun shop Which types of ammunition will not only serve your survival needs but also be available in quantity when ordinary sources run dry What roles can multi caliber guns backup guns and alternative weapons to conventional firearms play in your survival plans What practical modifications can you make to your guns to make them more suitable for post apocalypse survival Given how critical weapons will become in an age when you may have to hunt for meat or defend yourself against numerous post apocalyptic threats the more you must force yourself to consider all the pertinent factors now while you still can Because when the world starts to crumble you won t have time to select firearms that s when you lock and load

Under the Gun James D. Wright, Peter Henry Rossi, Kathleen Daly, In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide
