Russian Ambitions In The Pacific Austral:

The Russians and Australia Glynn Barratt, 2011-11-01 Known for his pioneering work on Russia's early exploits in Australia and the Pacific, historian Glynn Barratt again breaks new ground in presenting the first comprehensive study of Russian naval, social, mercantile and scientific enterprise in New South Wales between 1807 and 1835. Through Tsar Peter the Great's Dutch contacts, Russia was aware quite early of the existence of New Holland, and a number of unsuccessful attempts were made to reach what is now Australia. Following a description of these efforts, Barratt focuses on the seventeen visits that Russian ships made to Australian ports on voyages from the Baltic carrying supplies for the settlements in Kamchatka and Alaska. As a result of the good will generated by the Anglo-Russian alliance against Napoleonic France, relations between the British colonists and the Russian seamen were extremely cordial. While visiting Australia, Russian naval officers pursued a range of scientific activities including botany, zoology, ethnography and mineralogy, and collected specimens and artefacts. They also studied the British penal system and filled journals with detailed observations. Available in Russian archives and museums and examined there by Barratt, the journals and collections which until now have largely remained unexplored by historians reveal the high level of skill and education of these early visitors to Australia. This is the first of four books in a series entitled *Russia and the South Pacific 1696-1840: The History of the Russian Church in Australia*. Michael A. Protopopov, 2021-09-01 In the pages of this book, the history of the Russian Orthodox Church in Australia is diligently chronicled within the wider context of the place of ethnic Russians in a dominantly Anglophone society that of what was at first a British colony and later became an independent state. It begins with the first contact of Russian naval ships with the Australian continent in the early nineteenth century and progresses through to the establishment of the first parish of Orthodox believers in Melbourne in the 1890s, the establishment of further churches, and ultimately the creation of a diocese. The catalyst for much of this was the arrival of thousands of Russians fleeing their homeland via Siberia after the Bolshevik revolution of 1917. For these newly dispossessed, Australia and New Zealand became havens of safety, and the Russian Orthodox Church, an echo of the Motherland they had lost. They were later joined by successive waves of fellow Russians after the end of World War II in 1945 and again after the fall of the Soviet Union in 1991. Together, these refugees and their descendants created a unified organism that retained a sense of shared heritage and purpose and in turn provided a home to spiritual seekers who were not of their ethnic lineage. In writing this work, the author has drawn on extensive archival sources spread over several continents, together with his own life experience, having arrived as a small boy in Australia over six decades ago. First published in 2006, this new edition includes an added chapter recounting the ongoing story from the beginning of the twenty-first century through to the end of 2020, covering the effects on the Church in Australia of major world events as diverse as the reunification of the Russian Church Abroad with the Patriarchate of Moscow in 2007 and the global coronavirus pandemic that arrived in Australia in 2020. **A New Rival State?** Alexander Massov, Marina

Pollard, Kevin Windle, 2018-10-18 *A New Rival State* is a unique collection of dispatches written in 1857-1917 by the Russian consuls in Melbourne to the Imperial Russian Embassy in London and the Russian Foreign Ministry in St Petersburg. Written by eight consuls, they offer a Russian view of the development of the settler colonies in the late nineteenth century and the first years of the federated Commonwealth of Australia. They cover the federalist movement, the changing domestic political situation, labour politics, the treatment of the Indigenous population, the White Australia policy, Australia's defensive capacity and foreign policy as part of the British Empire. The bulk of the material is drawn from the Russian language collection *The Russian Consular Service in Australia 1857-1917*, edited by Alexander Massov and Marina Pollard, 2014, using documents from the archive of the Russian Foreign Ministry. [The German-speaking community of Victoria between 1850 and 1930](#)

Volkhard Wehner, 2018. At the time of Australian Federation in 1901, German immigrants constituted two per cent of the population of Victoria. This book examines how they settled, formed a communal infrastructure and how they related to their Anglo-Celtic hosts. It is shown that their attempts to form a cohesive community failed by investigating the role played by the Lutheran Church, German associations, community leaders and the rift between rural and urban communities. The changing relationship between the British Empire, the German Reich and emerging Australian nationalism receives close attention. The book tests and then proves a hypothesis that rural communities were more resilient and better equipped to survive while urban communities were not. **The Atlantic Monthly**, 1889 **Citizen Soldiers and the British Empire, 1837-1902**

Ian F. W. Beckett, 2015-10-06. The British amateur military tradition of raising auxiliary forces for home defence long preceded the establishment of a standing army. This was a model that was widely emulated in British colonies. This volume of essays seeks to examine the role of citizen soldiers in Britain and its empire during the Victorian period. [Russia in the Pacific](#)

Charles E. Ziegler, 2024. *Russia in the Pacific* approaches the puzzle of why Russia, with much of its huge territory straddling Asia, has not had more success in establishing a position as a great power in the Asia Pacific. Charles E. Ziegler examines Russia's Asia strategy from imperial expansion in the nineteenth century through Vladimir Putin's twenty-first century diplomatic, economic and military pivot towards the Asia Pacific. Using an analytically eclectic approach, Ziegler combines a focus on military and economic power with close attention to domestic politics, culture and questions of national identity.

Naval Constabulary Operations and Fisheries Governance Sean A. G. Andrews, 2024-05-07. This book offers an analysis of naval constabulary operations in particular Australian fisheries patrols and challenges the widely accepted Anglo-American school of maritime thought. In the Indo-Pacific, fisheries and the activities of fishing boats are of increasing strategic importance in Australia's region. Australia's Four Oceans Issues of overfishing, population growth and climate change are placing growing pressure on fish as a resource and, in doing so, are making fisheries more significant and significant on a strategic as opposed to simply an economic or environmental level. When combined with the growing use of fishing vessels as para-naval forces, it is clear that the activities of fishing vessels, whether fishing or not fishing, are matters of considerable

strategic relevance This book illuminates contemporary seapower challenges explains and defines maritime security and examines and refines existing theory to advance a set of new or refined concepts to help frame the on water activities of constabulary operations reducing the possibility of on water miscalculation between states This book will be of much interest to students and scholars of naval studies and sea power maritime strategy maritime security and International Relations

The Search for Security in the Pacific 1901-1914 Neville Meaney, 2009-07-31 First published in 1976 The Search for Security in the Pacific 1901 1914 is the first volume in a pioneering two volume history of Australia s relations with the world from the founding of the Commonwealth to the Great War and its immediate aftermath This book is based on wide ranging research in collections of personal and official papers in Australia Britain the United States and Canada and offers original insights into Australia s political culture In taking the story up to the outbreak of the European conflict it shows the great impact that the looming presence of East Asia had on Australia s perception of the world and on the evolution of a distinctive defence and foreign policy It tells the story of how in an age of race nationalism the fear of Asia led first to the making of the Commonwealth and the White Australia policy and then after Japan s defeat of Russia in 1905 to the potential prospect of a military invasion from the north This sense of an Australian Crisis pervaded the whole society and found expression in poetry plays novels cartoons at least one film newspaper editorials as well as political speeches To meet this threat Australian leaders against all the advice from the British authorities introduced compulsory military training and established a navy and a fledgling air force The outbreak of the European war found the Australians resentful about the British betrayal and anxious to know what the Empire s involvement in that conflict might mean for the Pacific This divergence of security concerns created tension between Australia s community of culture and its community of interest between its British identity and its geopolitical circumstances *Atlantic Monthly*, 1889
