Nancy Shields Kollmann

Russian Empire And The World 1700 1917 The Geopolitics Of Expansion And Containment:

The Russian Empire and the World, 1700-1917 John P. LeDonne, 1997 European foreign policy of the 18th and 19th century was practised within geographical constraints and imperatives By placing both Russia and its neighbours within this geographic context LeDonne retells over 200 years of Russian Imperial history *The Russian Empire 1450-1801* Nancy Shields Kollmann, 2017 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450 1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450 1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures Geopolitics Bert Chapman, 2011-04-07 This concise introduction to the growth and evolution of geopolitics as a discipline includes biographical information on its leading historical and contemporary practitioners and detailed analysis of its literature An important book on a topic that has been neglected for too long Geopolitics A Guide to the Issues will provide readers with an enhanced understanding of how geography influences personal national and international economics politics and security The work begins with the history of geopolitics from the late 19th century to the present then discusses the intellectual renaissance the discipline is experiencing today due to the prevalence of international security threats involving territorial airborne space based and waterborne possession and acquisition The book emphasizes current and emerging international geopolitical trends examining how the U S and other countries including Australia Brazil China India and Russia are integrating geopolitics into national security planning It profiles international geopolitical scholars and their work and it analyzes emerging academic military and governmental literature including gray literature and social networking technologies such as blogs and Twitter **The**

Emergence of the Eastern Powers, 1756-1775 H. M. Scott, 2001-11-15 This book shows how the European states system was transformed by the military rise of Prussia and Russia

Russia John M. Thompson, Christopher J. Ward, 2018-04-17 This lucid account of Russian and Soviet history presents major trends and events from ancient Kievan Rus to Vladimir Putin's presidency in the twenty first century Russia does not shy away from controversial topics including the impact of the Mongol conquest the paradoxes of Peter the Great the inevitability of the 1917 Revolution the Stalinist terror and the Gorbachev reform effort Tackling those topics and others the new edition is updated to discuss the Russia Georgia war of 2008 the 2013 2014 Euromaidan protests in Ukraine the war in eastern Ukraine and the Russian annexation of Crimea Distinguished by its brevity and amply supplemented with useful images and suggested readings this essential text provides balanced coverage of all periods of Russian history and incorporates economic social and cultural developments as well as politics and foreign policy

Tatar Empire Danielle Ross, 2020-02-04 An in depth study of the relationship between the Russian government and its first Muslim subjects who served in the vanguard of the empire's colonialism In the 1700s Kazan Tatar Muslim scholars of Kazan and scholarly networks stood at the forefront of Russia's expansion into the South Urals western Siberia and the Kazakh steppe It was there that the Tatars worked with Russian agents established settlements and spread their own religious and intellectual culture that helped shaped their identity in the nineteenth and early twentieth centuries Kazan Tatars profited economically from Russia's commercial and military expansion to Muslim lands and began to present themselves as leaders capable of bringing Islamic modernity to the rest of Russia's Muslim population Danielle Ross bridges the history of Russia's imperial project with the history of Russia's Muslims by exploring the Kazan Tatars as participants in the construction of the Russian empire Ross focuses on Muslim clerical and commercial networks to reconstruct the ongoing interaction among Russian imperial policy nonstate actors and intellectual developments within Kazan's Muslim community and also considers the evolving relationship with Central Asia the Kazakh steppe and western China Tatar Empire offers a more Muslim centered narrative of Russian empire building making clear the links between cultural reformism and Kazan Tatar participation in the Russian eastward expansion This is a rich study that makes important contributions to the historiography of the Russian Empire sharpening our picture of an empire in which lines between colonizer and colonized were far from clear

The Middle Ground Journal

Muscovy and the Mongols Donald Ostrowski, 2002-06-20 The importance of the Mongols impact on the Rus lands has been recognised by many scholars but its precise nature and extent is very contentious While diverse opinions exist on the origins and development of Muscovy the author argues that no society arises ex nihilo and that Muscovy is no exception In this 1998 book Donald Ostrowski considers the outside origins and influences as well as indigenous origins and development in order that the reader may gain a clearer understanding of Muscovy as a political entity its political institutions and political culture He shows that during the early period of Muscovy 1304 1448 the ecclesiastical and secular institutions were affected by two different outside influences

Byzantium and the Qipchaq Khanate respectively In considering these outside influences he has set out to study Muscovy as an integral and important part of world history

The Tragedy of Great Power Politics John J. Mearsheimer, 2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States determined to remain the world's sole regional hegemon will go to great lengths to prevent that from happening The tragedy of great power politics is inescapable

Reins of Liberation Xiaoyuan Liu, 2006 The author's purpose in writing this book is to use the Mongolian question to illuminate much larger issues of twentieth century Asian history how war revolution and great power rivalries induced or restrained the formation of nationhood and territoriality He thus continues the argument he made in *Frontier Passages* that on its way to building a communist state the CCP was confronted by a series of fundamental issues pertinent to China's transition to nation statehood The book's focus is on the Mongolian question which ran through Chinese politics in the first half of the twentieth century Between the Revolution of 1911 and the Communists triumph in 1949 the course of the Mongolian question best illustrates the genesis clashes and convergence of Chinese and Mongolian national identities and geopolitical visions

Contesting Europe, 2019-12-09 While the term Europe was used sporadically in ancient and medieval times it proliferated between the fifteenth and sixteenth centuries and gained a prevalence in the seventeenth and eighteenth centuries which it did not possess before Although studies on the history of the idea of Europe abound much of the vast body of early modern sources has still been neglected Assuming that discourses tend to transcend linguistic historical and generic boundaries this book has gathered experts from various fields of study who examine vernacular and Latin negotiations of Europe from the late fifteenth to the early eighteenth century This multi angled approach serves to identify similarities and differences in the discourses on Europe within their different national and cultural communities Contributors are Ovanes Akopyan Volker Bauer Piotr Chmiel Nicolas Detering Stefan Ehrenpreis Niels Grøne Peter Hanenberg Ulrich Heinen Ronny Kaiser Niall Oddy Katharina N Piechocki Dennis Pulina Marion Romberg Lucie Storchov Isabella Walser Brgler Michael Wintle and Enrico Zucchi
