Longing for the Lost Caliphate

Mona Hassan, 2017-01-10 In the United States and Europe the word caliphate has conjured historically romantic and increasingly pernicious associations Yet the caliphate's significance in Islamic history and Muslim culture remains poorly understood This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries Through extensive primary source research Mona Hassan explores the rich constellation of interpretations created by religious scholars historians musicians statesmen poets and intellectuals Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture law and politics similar to the losses and repercussions experienced by other religious communities including the destruction of the Second Temple for Jews and the fall of Rome for Christians A global history *Longing for the Lost Caliphate* delves into why the caliphate has been so important to Muslims in vastly different eras and places

Democracy Derailed in Russia M. Steven Fish, 2005-08-29 Why has democracy failed to take root in Russia After shedding the shackles of Soviet rule some countries in the postcommunist region undertook lasting democratization Yet Russia did not Russia experienced dramatic political breakthroughs in the late 1980s and early 1990s but it subsequently failed to maintain progress toward democracy In this book M Steven Fish offers an explanation for the direction of regime change in post Soviet Russia Relying on cross national comparative analysis as well as on in depth field research in Russia Fish shows that Russia's failure to democratize has three causes too much economic reliance on oil too little economic liberalization and too weak a national legislature Fish's explanation challenges others that have attributed Russia's political travails to history political culture or to shock therapy in economic policy The book offers a theoretically original and empirically rigorous explanation for one of the most pressing political problems of our time

The Sacred in Twentieth-Century Politics R. Griffin, R. Mallett, J. Tortorice, 2008-11-05 The emerging shape of the post Cold War world provides evidence that rather than diminishing the profound intersection of political ideology and religious forms

of belief is an ever more potent force in world affairs This volume offers both theoretic underpinnings and a comparative analysis that elucidates this potent and dangerous phenomenon

Fault Lines in the Orthodox World Sebastian Rimestad, Emil Hilton Saggau, 2025-03-06 Throughout the past years the Orthodox world has seen numerous political and theological confrontations New borders have been shaped by churches and states This only increased in light of the Russian backed conflict in Ukraine from 2014 and onwards which has led to new theological lines of thinking geopolitical confrontations and an acute need for diplomatic handling of crisis At the centre is the Russian Orthodox Church s global role and its effects in Ukraine The confrontations are born out of a complex entanglement of church politics theological differences legal tensions national allegiances and the very concrete political and military clashes between nation states In light of the war in Ukraine Global Orthodoxy has seen new fault lines in the making This volume gathers chapters that shed light on these entanglements and their political theological and geopolitical consequences The book is not limited to the Russian Ukrainian conflict but also includes papers focusing on other nations churches and aspects theological theoretical geopolitical empirical etc

The Making of Holy Russia John Strickland, 2013-09-01 This book is a critical study of the interaction between the Russian Church and society in the late 19th and early 20th century While other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative faith on the other

Church and State in Contemporary Europe Zsolt Enyedi, John T.S. Madeley, 2004-08-02 This volume represents an attempt in integrating a wide range of theoretically relevant issues into the identification and analysis of church state patterns Each chapter focuses on the analysis of a particular theme and its role in shaping and or being shaped by church state relations

The Quest for the National Interest Petr Drulák, Mats Braun, 2010 The concept of national interest belongs among the most widely used and abused concepts in the foreign policy debate This volume illustrates how the term can be used as a meaningful analytical tool It introduces three criteria relevance domestic consensus and external acceptance which serve to identify national interest The authors apply these criteria to Czech foreign policy making and provide some interesting findings concerning a country s possibilities to define and pursue its national interest Since the authors use four different methodologies case studies discourse analysis grounded theory and ethnography the volume also shows the variety of possible ways to analyse national interests

Geopolitical Imagination Mikhail Suslov, 2020-11-02 In his timely book Mikhail Suslov discusses contemporary Russian geopolitical culture and argues that a better knowledge of geopolitical concepts and fantasies is instrumental for understanding Russia s policies Specifically he analyzes such concepts as

Eurasianism Holy Russia Russian civilization Russia as a continent Novorossia and others He demonstrates that these concepts reached unprecedented ascendance in the Russian public debates tending to overshadow other political and domestic discussions Suslov argues that the geopolitical imagination structured by these concepts defines the identity of post Soviet Russia while this complex of geopolitical representations engages at the same time with the broader international criticism of the Western liberal world order and aligns itself with the conservative defense of cultural authenticity across the globe Geopolitical ideologies and utopias discussed in the book give the post Soviet political mainstream the intellectual instruments to think about Russia's exclusion imaginary or otherwise from the processes of a global world which is reshaping itself after the end of the Cold War they provide tools to construct the self perception of Russia as a sovereign great power a self sufficient civilization and as one of the poles in a multipolar world and they help to establish the Messianic vision of Russia as the beacon of order tradition and morality in a sea of chaos and corruption
