Iron Curtain Twitchers Jennifer M. Hudson, 2018-11-23 The Cold War is often viewed in absolutist terminology the United States and the Soviet Union characterized one another in oppositional rhetoric and pejorative propaganda State sanctioned communications stressed the inherent dissimilarity between their own citizens and those of their Cold War foe Such rhetoric exacerbated geopolitical tensions and heightened Cold War paranoia most notably during the Red Scare and brinkmanship incidents Government leaders stressed the reactive defensive foreign policies they implemented to retaliate against their counterparts offensive maneuvers Only brief periods of détente gave glimpses into the possibility of concerted peaceful coexistence Yet such characterizations neglect the complexities and rhetorical nuances that created fissures throughout the long standing ideological conflict Grassroots diplomacy rarely coalesced with official governmental rhetoric and often contradicted the discourse emanating from the White House and the Kremlin Organizations such as Women Strike for Peace WSP the Committee for Nonviolent Action CNVA and the Moscow Trust Group MTG defied policy directives and sought to establish genuine peaceful coexistence Traveling citizens posited that U S and Soviet citizens possessed more underlying commonalities than their governmental leaders cared to admit phenomena underscored in events such as the San Francisco to Moscow Walk for Peace Spacebridge programs railed against the Strategic Defense Initiative SDI and proclaimed that figurative and literal links between their country and the Other proved more conducive to public

opinion than *Star Wars Iron Curtain Twitchers* examines such juxtaposing rhetorics through three lexical themes: contamination, containment, and coexistence. It analyzes the disparate perspectives of public politicians and private citizens throughout the Cold War's duration and its aftermath to better understand the political, cultural, and geopolitical nuances of U.S.-Russia relations. Vacillating rhetoric among politicians, journalists, and traveling citizens complicated geopolitical relationships, sociopolitical disagreements, and cultural characterizations. These dialogues are contrasted with the cultural mediums of film and political cartoons to underscore fluctuating Cold War identity dynamics. Manifestations of one's own country contrasted with propagations of the Other and indicate that the Cold War lasted much longer and remains more virulent than previously conceived.

The Great War in Russian Memory Karen Petrone, 2011-07-14 Karen Petrone shatters the notion that World War I was a forgotten war in the Soviet Union. Although never officially commemorated, the Great War was the subject of a lively discourse about religion, heroism, violence, and patriotism during the interwar period. Using memoirs, literature, films, military histories, and archival materials, Petrone reconstructs Soviet ideas regarding the motivations for fighting, the justification for killing, the nature of the enemy, and the qualities of a hero. She reveals how some of these ideas undermined Soviet notions of military honor and patriotism, while others reinforced them. As the political culture changed and war with Germany loomed during the Stalinist 1930s, internationalist voices were silenced, and a nationalist view of Russian military heroism and patriotism prevailed.

Russian Writers Since 1980 Marina Balina, Mark Naumovich Lipovetskiĭ, 2004 Focuses on the highly diverse and controversial literary and cultural life in Russia during the last twenty years of the past century. Major shifts on the political scene influenced Russian literature of these past two decades. Literature managed to find in the political and historical turbulence of this period a source of powerful artistic insight.

The Soviet Myth of World War II Jonathan Brunstedt, 2021-07-15 This pioneering monograph, a Foreign Affairs Best Book of the Year, asks how a socialist society ostensibly committed to Marxist ideals of internationalism and global class struggle reconciled itself to notions of patriotism, homeland, Russian ethnocentrism, and the glorification of war. Through the lens of the myth and remembrance of victory in World War II, arguably the central defining event of the Soviet epoch, the book shows that while state historical narratives reinforced a sense of Russian primacy and Russian-dominated ethnic hierarchy, the story of the war enabled an alternative supra-ethnic source of belonging which subsumed Russian and non-Russian loyalties alike to the Soviet whole. The tension and competition between Russocentric and internationalist conceptions of victory, which burst into the open during the late 1980s, reflected a wider struggle over the nature of patriotic identity in a multiethnic society that continues to reverberate in the post-Soviet space. The book sheds new light on long-standing questions linked to the politics of remembrance and provides a crucial historical context for the patriotic revival of the war's memory in Russia today.

Modernism Today Sief Houppermans, Pete Liebrechts, Jan Baetens, Otto Boele, 2013-10-25 This book manifests at least four recent shifts and tendencies within Modernist studies in general that point at the expansion of

this increasingly interdisciplinary field First Modernist studies has seen a temporal expansion to the extent that scholars in the field have come to turn to both the pre and posterior history of Modernism Second the field has witnessed a spatial expansion in that increasingly so researchers have also come to scrutinize the Modernisms of regions at the fringes of Europe and beyond Thirdly a vertical expansion too has marked Modernist studies in recent decades not only by further expanding the canon of women writers and exploring the continuum between high and lowbrow but also by looking at the artistic and mediatized hierarchies and cross fertilizations operative in the period A fourth conceptual expansion of the field shows that whereas concepts such as middlebrow *arri re garde* and to some extent even *avant garde* were once exotic notions of at best marginal importance in European Modernist studies they now form part and parcel of the field complicating and expanding it conceptually

American Radical and Reform Writers Steven Rosendale,2005 Presents career biographies and criticism of American reformers and radicals of the 19th and 20th centuries Includes a section on major organizations and periodicals of the movements

Border Crossing Alexander Burry,2016-04-08 Each time a border is crossed there are cultural political and social issues to be considered Applying the metaphor of the border crossing from one temporal or spatial territory into another Border Crossing Russian Literature into Film examines the way classic Russian texts have been altered to suit new cinematic environments In these essays international scholars examine how political and economic circumstances from a shifting Soviet political landscape to the perceived demands of American and European markets have played a crucial role in dictating how filmmakers transpose their cinematic hypertext into a new environment Rather than focus on the degree of accuracy or fidelity with which these films address their originating texts this innovative collection explores the role of ideological political and other cultural pressures that can affect the transformation of literary narratives into cinematic offerings
