

Russian Army Of The Crimea

Marcel A. Müller

Russian Army Of The Crimea:

The Russian Army of the Crimea Albert Seaton, 1973-06-15 This book examines the uniforms equipment history and organization of the Russian Army that fought in the Crimean War 1853 1856 Field army infantry artillery and cavalry are all covered together with details of High Command and summaries of key battles Uniforms are shown in full illustrated detail

The Russian Army of the Crimean War 1854-56 Robert Thomas, 1991-11-28 We must all fight for Holy Russia declared the Russian officers at the outbreak of the Crimean War 1853 1856 Despite the immensity of the Russian forces that fought in this conflict however their dispersion over vast distances along with poor roads and contrary weather contributed to their defeat Still many regiments won much deserved battle honours from the navy emerged a number of heroes including Admirals Kornilov Nakhimov and Istomin This book details the forces that served the Tsar in the defence of the Crimea with chapters on Army organization the Army of the Caucasus the Imperial Navy army life tactics and Russian heroes **Crimea,**

1854-56 Lawrence James, 1981 *British Military Intelligence in the Crimean War, 1854-1856* Stephen M.

Harris, 2018-12-07 This is a study of the British military intelligence operations during the Crimean War It details the beginnings of the intelligence operations as a result of the British Commander Lord Raglan s need for information on the enemy and traces the subsequent development of the system *Crimea in War and Transformation* Mara

Kozelsky, 2018-10-01 *Crimea in War and Transformation* is the first book to examine the terrible toll of violence on Crimean civilians and landscapes from mobilization through reconstruction When war landed on Crimea s coast in September 1854 multiple armies instantly doubled the peninsula s population Engineering brigades mowed down forests to build barracks Ravenous men fell upon orchards like locusts and slaughtered Crimean livestock Within a month war had plunged the peninsula into a subsistence crisis Soldiers and civilians starved as they waited for food to travel from the mainland by oxcart at a rate of mile per hour Every army conscripted Tatars as laborers and fired upon civilian homes Several cities and villages Sevastopol Kerch Balaklava Genichesk among them burned to the ground At the height of violence hysterical officers accused Tatars of betrayal and deported large segments of the local population Peace did not bring relief to Crimea s homeless and hungry Removal of dead bodies and human waste took months Epidemics swept away young children and the elderly Russian officials estimated the devastation wrought by Crimean War exceeded that of Napoleon s invasion Recovery packages failed human need and by 1859 the trickle of Tatar out migration that had begun during the war turned into a flood Nearly 200 000 Tatars left Crimea by 1864 adding a demographic crisis to the tally of war s destruction Drawing from a wide body of published and unpublished material including untapped archives testimonies and secret police files from Russia Ukraine and Crimea Mara Kozelsky details in readable and vivid prose the toll of war on the Crimean people and the Russian Empire as a whole from mobilization through failed efforts at reconstruction *The Army and Navy Magazine* , 1882 **The Crimean**

War Winfried Baumgart, 2020-01-09 Winfried Baumgart s masterful history of the Crimean War has been expanded and fully

updated to reflect advances made in the field since the book's first publication. It convincingly argues that if the war had continued after 1856 the First World War would have taken place 60 years earlier but that fighting ultimately ceased because diplomacy never lost its control over the use of war as an instrument in power politics. With 19 images, 13 maps and additional tables as well as a brand new chapter on the medical services, this expanded and fully updated 2nd edition explores the origins and diplomacy of the Crimean War, the war aims and general attitudes of the belligerent powers: Russia, France and Britain, non-belligerent German powers, Austria and Prussia, and a selected number of neutral powers including the United States. The characteristics and capabilities of the armies involved, the nature of the fighting itself, the Crimean War 1853-1856, examines the conflict in both its Europe-wide and global contexts, moving beyond the five great European powers to consider the role and importance of smaller states and theatres of war that have otherwise been underserved. To this end, it looks at fighting on the Danube front, the Black Sea, the Baltic Sea, the Caucasian battlefield, as well as the White Sea and the Pacific, with final chapters devoted to the Paris peace congress of 1856, the end of the war and its legacy. This book remains the definitive study of one of the most important wars in modern history.

The Case of Crimea's Annexation Under International Law Karolina WIERCZYŃSKA, 2017-02-15. This book addresses issues connected with Russia's 2014 annexation of Crimea that are both of key current relevance and crucial from the point of view of both international law and international relations. It not only offers a comprehensive elaboration of the subject but also presents it from the points of view of states directly engaged in the conflict. For the authors in this book include researchers from many European countries, albeit first and foremost from both Ukraine and Russia. In this way, the collected work represents a contribution of undoubted value where the ongoing international debate on the Crimean annexation is concerned. From the review by Prof. Anna Wyrozumska: This book offers an interesting, holistic and competent contribution to legal analysis surrounding Russia's annexation of Crimea, the consequences thereof and the responsibility in international law therefor. It is characterised by a high level of legal analysis by a competent international team of authors led by Polish experts on the subject, whose painstaking selection of co-authors has allowed for an airing of both Ukrainian and Russian standpoints. From the review by Prof. Jerzy Kranz: Książka stanowi wspólnie przedsięwzięcie Wydawnictwa Naukowego Scholar i Centrum Polsko-Rosyjskiego Dialogu i Porozumienia. <http://cprdip.pl>. Book published in co-edition with The Centre for Polish-Russian Dialogue and Understanding. <http://cprdip.pl>.

A History of Russia, Central Asia and Mongolia, Volume II David Christian, 2018-01-08. Provides an all-encompassing look at the history of Russia, Central Asia and Mongolia. Beginning with the breakup of the Mongol Empire in the mid-thirteenth century, Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times, completing the story begun in Volume I. Volume II describes how agriculture spread through Inner Eurasia, providing the foundations for new agricultural states, including the Russian Empire. It focuses on the idea of mobilization, the distinctive ways in which elite groups mobilized resources from their populations and how those

methods were shaped by the region's distinctive ecology which differed greatly from that of Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol Empire to Today 1260 2000 is a magisterial but accessible account of this area's past that will offer readers new insights into the history of an often misunderstood part of the world Situates the histories of Russia Central Asia and Mongolia within the larger narrative of world history Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone Focuses on the powerful ways in which the region's geography shaped its history Places great emphasis on how mobilization played a major part in the development of the regions Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels Offers new ways of understanding the Soviet era A History of Russia Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

The Revenge of Power Moisés Naím, 2025-10-16 Named one of the New Yorker's Best Books of 2022 An authoritative and intelligent portrait of the global spread of authoritarianism and its dangers what sets this work apart from books like Timothy Snyder's On Tyranny and Michiko Kakutani's The Death of Truth is its unusually comprehensive armada of facts about the international drift over the past two decades toward authoritarian leaders whether old style dictators like Kim Jong Un or nominally elected presidents like Vladimir Putin Kirkus An urgent thrilling and original look at the future of democracy that illuminates one of the most important battles of our time the future of freedom and how to contain and defeat the autocrats mushrooming around the world In his bestselling book The End of Power Moisés Naím examined power diluting forces In The Revenge of Power Naím turns to the trends conditions technologies and behaviors that are contributing to the concentration of power and to the clash between those forces that weaken power and those that strengthen it He concentrates on the three Ps populism polarization and post truths All of which are as old as time but are combined by today's autocrats to undermine democratic life in new and frightening ways Power has not changed But the way people go about gaining it and using it has been transformed The

Revenge of Power is packed with alluring characters riveting stories about power grabs and losses and vivid examples of the tricks and tactics used by autocrats to counter the forces that are weakening their power It connects the dots between global events and political tactics that when taken together show a profound and often stealthy transformation in power and politics worldwide Using the best available data and insights taken from recent research in the social sciences Na m reveals how on close examination the same set of strategies to consolidate power pop up again and again in places with vastly different political economic and social circumstances and offers insights about what can be done to ensure that freedom and democracy prevail The outcomes of these battles for power will determine if our future will be more autocratic or more democratic Na m addresses the questions at the heart of the matter Why is power concentrating in some places while in others it is fragmenting and degrading And the big question What is the future of freedom **Parameters** ,2016

Palmer's Index to the Times Newspaper ,1885 Palmer's Index to the Times Newspaper ,1885 **Post-Soviet Conflict Potentials** Cindy Wittke,2022-08-18 Instead of resurrecting old images and nourishing new narratives about a New Cold War Post Soviet Conflict Potentials features politically and legally oriented critical investigations into conflict potentials and dynamics in the post Soviet region and beyond Contributions coming from the disciplinary perspectives of international relations international law and comparative political science are linked to investigations dealing with international transnational regional and local levels of the dynamics between conflict and cooperation in the region Despite the diversity of perspectives the authors of this volume take a shared critical view on an alleged New Cold War as their point of departure observing that contemporary post Soviet conflict potentials are produced through various discursive practices ranging from intentional choices of belligerent language to unintentional misinterpretations The chapters in this volume seek to shed light on conflict potentials from different angles as well as on processes that increase or decrease the probability of political and violent conflicts in the post Soviet region Together the authors offer individual and shared outside the box approaches to the study of conflict dynamics and potentials in the post Soviet space The book draws connections to conflict potentials on the cross regional and global levels providing varied perspectives on what can be learned in and from the post Soviet region The chapters in this book were originally published as a special issue of Europe Asia Studies **Cobbett's Parliamentary Debates** Great Britain. Parliament,1855 Naval Policy Between the Wars, Volume I Stephen Roskill,2016-07-30 First published in 1968 and 1976 the two volumes of this work still constitute the only authoritative study of the broad geo political economic and strategic factors behind the inter war development of the Royal Navy and to a great extent that of its principal rival the United States Navy Roskill conceived the work as a peacetime equivalent of the official naval histories filling the gap between the First World War volumes and his own study of the Navy in the Second As such it is marked by the extensive use of British and American sources from which Roskill extracted shrewd and balanced conclusions that have stood the test of time

Colburn's United Service Magazine and Naval Military Journal ,1872 Russia's Military Modernisation: An

Assessment The International Institute for Strategic Studies (IISS),2020-09-29 This new IISS Strategic Dossier examines the recent development of Moscow's armed forces and military capabilities It analyses the aspirations underpinning Russia's military reform programme and its successes as well as its failures The book also provides insights into Russia's operational use of its armed forces including in the intervention in Syria the goals and results of recent state armament programmes and the trajectory of future developments This full colour volume includes more than 50 graphics maps and charts and over 70 images and contains chapters on Russia's armed forces since the end of the Cold War Strategic forces Ground forces Naval forces Aerospace forces Russia's approach to military decision making and joint operations Economics and industry At a time when Russia's relations with many of its neighbours are increasingly strained and amid renewed concern about the risk of an armed clash this dossier is essential reading for understanding the state capabilities and future of Russia's armed forces

Soviet Cavalry Operations During the Second World War John S. Harrel,2019-09-30 The author of The Nisibis War analyzes the Red Army's usage of horse mounted units along the Soviet German Eastern Front during World War II While the development of tanks had largely led to the replacement of cavalry in most armies by 1939 the Soviets retained a strong mounted arm In the terrain and conditions of the Eastern Front they were able to play an important role denied them elsewhere John Harrel shows how the Soviets developed a doctrine of deep penetration using cavalry formations to strike into the Axis rear disrupting logistics and lines of communication encircling and isolating units Interestingly he also shows that this doctrine did not stem from the native cavalry tradition of the steppe but from the example of the American Civil War The American approach was copied by the Russians in WWI and the Russian Civil War refined by the Soviets in the early stages of World War Two and perfected during the last two years of the war The Soviet experience demonstrated that deep operations cavalry raids against enemy rear echelons set the conditions for victory Although the last horse mounted units disappeared in the 1950s their influence led directly to the formation of the Operational Manoeuvre Groups that ironically faced U S forces in the Cold War An expansive analysis of the technical tactical and operational employment of Soviet cavalry against the Germans and their Axis allies For practitioners who want to understand the history and development the book is a goldmine of overlooked campaigns and actions The book's dense and detailed presentation makes it valuable to operational planners and those interested in the Soviet German war ARMOR Magazine

Military Statecraft and the Rise of Shaping in World Politics Kyle J. Wolfley,2021-06-29 Winner of the Andrew F Krepinevich Writing Award A 2022 Choice Reviews Outstanding Academic Title Selected for the Irregular Warfare Initiative's Inaugural Reading List 2022 In today's complex international environment how do the United States China and Russia manage the return of great power competition as well as the persistent threat of violent non state actors This book explores shaping the use of military power to construct a more favorable environment by influencing the characteristics of other militaries altering the relationships between them or managing the behavior of allies As opposed to traditional strategies of warfighting or coercion shaping

relies less on threats demonstrations and uses of violence and more on attraction persuasion and legitimacy Because shaping relies more on soft power than on hard power this approach contradicts the conventional wisdom of the purpose militaries serve Kyle J Wolfley explores the emergence of shaping in classical strategy and its increased frequency following the end of the Cold War when threats and allies became more ambiguous He illustrates the four logics of shaping attraction socialization delegation and assurance through five case studies of recent major military exercise programs led by the United States China India the United Kingdom and Russia Moreover the author reveals through sentiment analysis and statistics of over one thousand multinational exercises from 1980 to 2016 how major powers reacted to a complex international environment by expanding the number and scope of shaping exercises Illuminating an understudied but surprisingly common tool of military statecraft this book offers a fresh understanding of military power in today s competitive international system
