Evangelicals, Worship and Participation Alan Rathe, 2016-04-22 In discussions of worship the term participation covers a lot of ground It refers not only to concrete acts in gathered liturgy but also to some of the loftiest claims of Christian theology In this book Alan Rathe probes the ways in which North American evangelicals have in recent years regarded the landscape of participation Rathe presents a broad review of evangelical worship literature through a lens borrowed from medieval theology This brings into surprising focus not only evangelical understandings but also evangelical identities and the historical traditions they reflect and offers fresh perspectives on such

current theological concerns as God's triunity, *missio Dei* and the practical theology of participation. Offering a fresh contribution to a young but important discipline, the liturgically informed study of evangelical worship practice, this book reconnects the evangelical tradition to the Great Tradition and in the process reappropriates classic concepts that are full of promise for contemporary ecumenical dialogue. Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology, this volume covers the biblical and historical foundations, a survey of the state of the discipline and a collection of constructive essays representing major themes, practices and approaches to sacraments and sacramentality in the contemporary world. The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology. The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space, time, ritual, action, music and word, all as aspects of what Christians have termed sacramental reality. The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions: baptism, eucharist, Lord's Supper, confirmation, confession, forgiveness and reconciliation, marriage, ordination and anointing. The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines: critical race theory, queer theory, comparative theology and disability studies.

Practical Sacramental Theology Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church? Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society? For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council's call to renew liturgy's basic purpose, namely the glorification of God and the sanctification of people. Morrill's fundamental argument is that this ancient Christian principle is of a piece that divine glory and human holiness are

so to speak two sides of a single coin The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives personal and social With numerous real life examples plus references to current sociological studies the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today **Sacramental Life Volume 2.1** Michael J.
