Counterculture Through the Ages Ken Goffman, Dan Joy, 2007-12-18 As long as there has been culture there has been counterculture At times it moves deep below the surface of things a stealth mode of being all but invisible to the dominant paradigm at other times it s in plain sight challenging the status quo and at still other times it erupts in a fiery burst of creative or destructive energy to change the world forever But until now the countercultural phenomenon has been one of history s great blind spots Individual countercultures have been explored but never before has a book set out to demonstrate the recurring nature of counterculturalism across all times and societies and to illustrate its dynamic role in the continuous evolution of human values and cultures Countercultural pundit and cyberguru R U Sirius brilliantly sets the record straight in this colorful anecdotal and wide ranging study based on ideas developed by the late Timothy Leary with Dan Joy With a distinctive mix of scholarly erudition and gonzo passion Sirius and Joy identify the distinguishing characteristics of countercultures delving into history and myth to establish beyond doubt that for all their surface differences countercultures share important underlying principles individualism anti authoritarianism and a belief in the possibility of personal and social transformation Ranging from the Socratic counterculture of ancient Athens and the outsider movements of Judaism which left indelible marks on Western culture to the Taoist Sufi and Zen Buddhist countercultures which were equally influential in the East to the famous countercultural moments of the last century Paris in the twenties Haight Ashbury in the sixties Tropicalismo women s liberation punk rock to the cutting edge countercultures of the twenty first century which combine science art music technology politics and religion in astonishing and sometimes disturbing new ways Counterculture Through the Ages is an indispensable guidebook to where we ve been and where we re going

Mjagkij, 2003-12-16 With information on over 500 organizations their founders and membership this unique encyclopedia is an invaluable resource on the history of African American activism Entries on both historical and contemporary organizations include African Aid Society African Americans for Humanism Black Academy of Arts and Letters Black Women's Liberation Committee Minority Women in Science National Association of Black Geologists and Geophysicists National Dental Association National Medical Association Negro Railway Labor Executives Committee Pennsylvania Freedmen's Relief Association Women's Missionary Society African Methodist Episcopal Church and many more **Nomad Codes** Erik Davis, 2011-01-31 In these wide ranging essays Erik Davis explores the codes spiritual cultural and embodied that people use to escape the limitation of their lives and enrich their experience of the world These include Asian religious traditions and West African trickster gods Western occult and esoteric lore postmodern theory and psychedelic science as well as festival

scenes such as Burning Man of which Davis is the best known chronicler. Articles on media technology further explore themes Davis took up in his acclaimed book *Techgnosis* while his profiles of West Coast poets, musicians and mystics extend the California terrain he previously mapped in *The Visionary State*. Whether his subject is collage art or the magickal realism of horror writer H. P. Lovecraft, transvestite Burmese spirit mediums or ufology tripster king Terence McKenna or dub maestro Lee Perry, Davis writes with keen yet skeptical sympathy, intellectual subtlety and wit and unbridled curiosity. The common thread running through all these pieces is what Davis calls modern esoterica, which he describes in his preface as a no man's land located somewhere between anthropology and mystical pulp, between the zendo and the metal club, between cultural criticism and extraordinary experience, whether psychedelic or yogic or technological. Such an ambiguous and startling landscape demands that the intrepid adventurer shed any territorial claims and go nomad. Davis wanders with sharp eyes and an open mind, which is why Peter Lamborn Wilson calls him the best of all guides to modern American spirituality.
