Dr. Jimmie Jones

Sacred Honor Colin Powell The Inside Account Of His Life And Triumphs:

Sacred honor, Colin Powell David Roth,1994 Colin Powell Jeffrey J. Matthews,2019-03-15 This fascinating biography of the late Colin Powell brings to light his towering achievements and errors in judgment during a lifetime devoted to public service Until he passed away in 2021 Colin Powell was revered as one of America s most trusted and admired leaders This biography demonstrates that Powell s decades long development as an exemplary subordinate is crucial to understanding his astonishing rise from a working class immigrant neighborhood to the highest echelons of military and political power including his roles as the country s first Black national security advisor chairman of the Joint Chiefs of Staff and secretary of state Once an aimless ambitionless teenager who barely graduated from college Powell became an extraordinarily effective and staunchly loyal subordinate to many powerful superiors who in turn helped to advance his career By the time Powell became chairman of the Joint Chiefs of Staff he had developed into the consummate follower motivated competent composed honorable and independent The quality of Powell s followership faltered at times however while in Vietnam during the Iran Contra scandal and after he became George W Bush s secretary of state Powell proved a fallible patriot and in the course of a long and distinguished career he made some grave and consequential errors in judgment While those blunders do not erase the significance of his commendable achievements amid decades of public service we can learn much from his good and bad leadership *Sacred Honor* David Roth,1994 A biography of General Powell one of the most respected and popular military leaders of his time and a peerless role model for African Americans Covers his life from the early days in Harlem to his rise as the first Black chairman of the Joint Chiefs of staff

Encyclopedia of African American History Leslie M. Alexander,Walter C. Rucker,2010-02-09 A fresh compilation of essays and entries based on the latest research this work documents African American culture and political activism from the slavery era through the 20th century Encyclopedia of African American History introduces readers to the significant people events sociopolitical movements and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century This encyclopedia places the African American experience in the context of the entire African diaspora with entries organized in sections on African European contact and enslavement culture resistance and identity during enslavement political activism from the Revolutionary War to Southern emancipation political activism from Reconstruction to the modern Civil Rights movement black nationalism and urbanization and Pan Africanism and contemporary black America Based on the latest scholarship and engagingly written there is no better go to reference for exploring the history of African Americans and their distinctive impact on American society politics business literature art food clothing music language and technology **The Art of Command** Harry S. Laver,Jeffrey J. Matthews,2017-12-08 What essential leadership lessons do we learn by distilling the actions and ideas of great military commanders such as George Washington Dwight D Eisenhower and Colin Powell The Art of Command demonstrates that

great leaders become great through a commitment not only to develop vital skills but also to surmount personal shortcomings In the second edition of this classic resource Harry S Laver Jeffrey J Matthews and the other contributing authors identify eleven core characteristics of highly effective leaders such as integrity determination vision and charisma and eleven significant figures in American military history who embody those qualities Featuring new chapters on transitional leadership innovative leadership and authentic leadership this insightful book offers valuable perspectives on the art of military command in American history

The Encyclopedia of African American Military History William Weir, 2010-10-05 Weir's work over 300 entries is one of the most complete on the subject Much more than a record of individuals and units it includes among other topics battles forgotten and famous injustices and heroes legislation and regulation accidents and deliberate acts medals and mutinies Highly recommended Choice An outstanding accounting of African American Military heroes in history As a retired African American 4 Star General Officer I was very pleased to read about the accounts of those to whom I owe much gratitude and thanks for paving the way I was even more pleased to read about so many that I knew nothing about previously This Encyclopedia is must reading in the reference libraries for all Americans General USAF retired Lester L Lyles No military historian's library should be without this book C D B Bryan author of *Friendly Fire* This is a very important carefully researched book which fills the gaping hole in our understanding of the heroic role of African Americans in the military history of our country Though they were denied their rights to freedom and equality by our nation their courage and patriotism in protecting those rights was extraordinary Bruce A Morrison member of U S Congress 1983 1991 Although African American soldiers and sailors have fought in every U S war from the War of Independence to the War on Terrorism their contributions are rarely and at best erratically recorded in encyclopedias of American military history Most Americans would be hard pressed to name even a few of the many heroic black servicemen who have distinguished themselves in the annals of military history While a public figure like Colin Powell is well known and many people are now aware of the black regiment depicted in the movie *Glory* few have heard of David Lamson When he was close to sixty years old this African American captain of a small local militia successfully routed British reinforcements near Concord at the beginning of the Revolutionary War Even fewer know about the buffalo soldiers as African American cavalry units were once called who rescued Teddy Roosevelt and his Rough Riders in the famous battle of San Juan Hill during the Spanish American War This book is teeming with essential information that has been overlooked in other references William Weir's *Encyclopedia of African American Military History* is designed to provide long overdue recognition to the outstanding accomplishments of hundreds of African American servicemen More than three hundred entries will not only delineate the achievements of individuals and military units but will also highlight important often forgotten battles wars legislation and policy organizations and movements and historical incidents Thoroughly researched and historically accurate with numerous illustrations this comprehensive and substantive reference work is written to be accessible engaging and informative for all

readers William Weir Guilford CT an army combat correspondent during the Korean War is the author of *Written with Lead* *Legendary American Gunfights and Gunfighters* and *A Well Regulated Militia The Battle over Gun Control* among other books

Shock and Awe Dr. Jimmie Jones, 2015-05-05 the latter half of the 20th century was a turbulent time for race relations in the United States In the public sphere protests riots and violence were not uncommon when tensions reached their peak But in the United States Army a more peaceful transition took place as highly trained highly intelligent African American officers rose through the ranks in a desegregated military Some of the names like General Colin Powell are familiar to the general public but many more are not Dr Jimmie Jones himself a retired African American officer of the United States Army presents here a comprehensive look at the evolving role of black officers in the army over the last several decades The story he tells is one part history and one part charming narrative as he recounts his journeys around the country as an officer moving up the ranks and as an avid interviewer taking every opportunity possible to meet with the trailblazing men and women who broke barriers to become the first African American general officers in the army

Rhetorics of Display Lawrence J. Prelli, 2006 *Rhetorics of Display* is a pathbreaking volume that brings together a distinguished group of scholars to assess an increasingly pervasive form of rhetorical activity Editor Lawrence J Prelli notes in his introduction that twenty first century citizens continually confront displays of information and images from the verbal images of speeches and literature to visual images of film and photography to exhibits in museums to the arrangement of our homes to the merchandising of consumer goods

The African-American Male Jacob U. Gordon, 1999-07-30 The plight of the Black male in American society has been well documented by scholars and practitioners Although Black males represent only 6 percent of the American population they represent about 40 percent of the prison population the number of Black males in prison and jail exceeds the number of Black males in higher education The homicide rates for Black males were 72.5 percent per 100 000 nearly eight times higher than for White males This bibliographic volume explores the extent to which American academia has addressed these problems It will be an invaluable resource for researchers as well as practitioners in social service programs In addition to more than 400 annotated publications the book includes a selected list of works on the African American male and a compilation of doctoral dissertations This publication will serve as a reference in public as well as academic libraries human service agencies government policymaking agencies and in academic courses in gender and ethnic studies criminal justice and social psychology

The War on Terror Encyclopedia Jan Goldman Ph.D., 2014-10-07 This fascinating reference chronicles the individuals operations and events of the War on Terror around the world exploring its causes and consequences through the lens of policy doctrine and tactics of combat The War on Terror is more than a political movement to identify and prosecute terrorists it has become a cornerstone of economic and military importance This campaign has shaped policy in the Middle East prompted uprisings of Islamic fundamentalists against the West and redefined the ideology of warfare This single volume encyclopedia provides readers with more than 200 engaging entries on the myriad events key

individuals and organizations that have played a major role in the War on Terror The A Z entries define the policies and doctrines describe the armies battlefields and weapons employed and profile the figures whose actions and decisions set the course of history The expert contributors decode military jargon for non specialist readers and explain the unconventional tactics used in the War on Terror shedding light on the reason behind the attacks the political maneuvering of the leaders involved and the internal conflicts and external clashes that drove terrorists to settle all over the world The book also includes detailed essays on the impact of the September 11 attacks on U S foreign policy presidential powers and public opinion
